Relativism Interpretation And Confrontation:

Relativism Michael Krausz, 1989 Recent years have seen a vigorous revival of interest in relativism both in support and in opposition This collection of 21 essays 16 of which appear in print here for the first time advances the discussion found in an earlier volume *Relativism Cognitive and Moral* These present selections focus on philosophical and methodological issues of relativism by exhibiting its varieties and by rehearsing its virtues and vices The contributions concern relativism in a wide range of practices in the human studies

Practical Identity and Narrative Agency Kim Atkins, Catriona Mackenzie, 2010-06-07 The essays collected in this volume address a range of issues that arise when the focus of philosophical reflection on identity is shifted from metaphysical to practical and evaluative concerns They also explore the usefulness of the notion of narrative for articulating and responding to these issues The chapters written by an outstanding roster of international scholars address a range of complex philosophical issues concerning the relationship between practical and metaphysical identity the embodied dimensions of the first personal perspective the kind of reflexive agency involved in the self constitution of one's practical identity the relationship between practical identity and normativity and the temporal dimensions of identity and selfhood In addressing these issues contributors engage with debates in the literatures on personal identity phenomenology moral psychology action theory normative ethical theory and feminist philosophy

Intention Interpretation Gary Iseminger, 2010-08-12 an excellent and comprehensive discussion of a debate that was initiated in this century in William Wimsatt's and Monroe C Beardsley's influential article *The Intentional Fallacy* this is a splendidly conceived and very useful collection of essays Readers will want to take issue with the arguments of individual authors but this is to be expected in a volume at the cutting edge of a fertile philosophical controversy David Novitz *The Philosophical Quarterly* What is the connection if any between the author's intentions in while writing a work of literature and the truth acceptability validity of interpretive statements about it With this question Gary Isminger introduces a literary debate that has been waged for the past four decades and is addressed by philosophers and literary theorists in *Intention and Interpretation* Thirteen essays discuss the role of appeals to the author's intention in interpreting works of literature A well known argument by E D Hirsch serves as the basic text in which he defends the appeal to the author's intention against Wimsatt and Beardsley's claim that such an appeal involved the intentional fallacy The essays mostly commissioned by the editor explore the presuppositions and consequences of arguing for the importance of the author's intentions in the way Hirsch does Connections emerge between this issue and many fundamental issues in metaphysics and the philosophy of mind as well as in aesthetics The old New Criticism and current Post Structuralism tend to agree in disenfranchising the author and many people now are disinclined even to consider the alternative Hirsch demurs and arguments like his deserve the careful attention both from critics and sympathizers that they receive here Literary scholars and philosophers who are

sympathetic to Continental as well as to Anglo American styles of philosophy are among the contributors This is a timely book appearing as it does when postmodernist views of the death of the author are disappearing quickly from the scene As a collection it exemplifies the best work that is being done on this problem at the moment and it will no doubt inspire further debate The Journal of Aesthetics and Art Criticism This volume contains important articles illuminating the central debate over the role and relevance of authorial intentions in literary interoperation British Journal of Aesthetics

Facing Relativism Alyssa Luboff, 2020-05-19 This book tackles the difficult task of defending relativism in the age of science It succeeds where others have failed by combining the rigor of analytic philosophy with the first hand insights of anthropological experience Typically an anthropologist's work on relativism offers rich examples of cultural diversity but lacks philosophical rigor while a philosopher's work on relativism offers rigorous argumentation but lacks rich anthropological examples Facing Relativism written by a North American philosopher who lived in the Ecuadorian rainforest does both Relativism at a global scale is a view that our claims about the world both theoretical and practical are evaluable only relative to a context shaped by factors such as culture history language and environment or a way of life It can be at once intuitive and disturbing While we might expect a way of life to exert some influence on our claims relativism seems to move to the overly strong conclusion that all of our claims about what is true or good must merely be expressions of cultural bias It easily opens itself to a host of charges including paradox and self contradiction Facing Relativism argues that such problems arise largely from a failure to situate the view within the context that has throughout its long history been its inspiration the experience whether through literature the imagination or direct anthropological contact of deeply engaging with a very different way of life By starting with a careful analysis of the experience of deep engagement this book shows that relativism is neither as incoherent nor as alarming as we tend to think In fact it might just offer the tools we need to face these times of global crisis and change Alyssa Luboff has produced an exceptional defense of a cultural relativism that recognizes how the epistemic and the ethical intertwine in a way of life Drawing from her deep engagement over many years with the Chachi and traditional Afro Ecuadorian people she provides vivid and compelling examples of how one can come to understand another way of life as well reasoned coherent and integrated as challenging to one's own commitments at the same time that one challenges it Luboff combines her deep engagement with command of the relevant philosophical and anthropological literature She presents the major arguments against relativism in a sympathetic and generous way and carefully responds with a sophisticated relativism that acknowledges how the world resists and responds to different conceptual shapings of it This book is beautifully written and will engage both the academic specialist and the intelligent general reader David Wong Duke University By the time her brilliant faceoff is over philosophical relativism will never again be seen as a straw man Richard A Shweder University of Chicago This book will interest readers who seek an astute account of how the pursuit of truth whether relative or absolute enters into practices of power Luboff's treatment is impressive

Michael Krausz Bryn Mawr College and Linacre College Oxford University *Rhetoric and Philosophy* Richard A. Cherwitz, Henry W. Johnstone Jr., 2014-06-03 This important volume explores alternative ways in which those involved in the field of speech communication have attempted to find a philosophical grounding for rhetoric Recognizing that rhetoric can be supported in a wide variety of ways this text examines eight different philosophies of rhetoric realism relativism rationalism idealism materialism existentialism deconstructionism and pragmatism The value of this book lies in its pluralistic and comparative approach to rhetorical theory Although rhetoric may be the more difficult road to philosophy the fact that it is being traversed by a group of authors largely from speech communication demonstrates important growth in this field Ultimately there is recognition that if different thinkers can have solid reasons to adhere to disparate philosophies serious communication problems can be eliminated *Rhetoric and Philosophy* will assist scholars in choosing from among the many philosophical starting places for rhetoric *Hegel's Idea of a Phenomenology of Spirit* Michael N. Forster, 1998-05-13 Forster's reading reveals the *Phenomenology of Spirit* as in fact an impressively coherent text containing a rich array of ideas of extraordinary philosophical originality and depth *A Companion to Epistemology* Jonathan Dancy, Ernest Sosa, Matthias Steup, 2010-02-15 With nearly 300 entries on key concepts review essays on central issues and self profiles by leading scholars this companion is the most comprehensive and up to date single volume reference guide to epistemology *Epistemology from A Z* is comprised of 296 articles on important epistemological concepts that have been extensively revised to bring the volume up to date with many new and re written entries reflecting developments in the field Includes 20 new self profiles by leading epistemologists Contains 10 new review essays on central issues of epistemology *Sexuality and Equality Law* Suzanne B. Goldberg, 2017-07-05 Sexual rules and regulations are among society's oldest yet it is only in recent decades that this once stigmatized field has become the focus of scholarly attention This volume which includes some of the most thought provoking and hard to find essays in the field covers a diverse range of topics from sexual orientation and gender identity to intersexuality and commercial sex and from HIV AIDS and trafficking to polygamy Through historical political and critical theoretical lenses and through a global focus the selections ask how we conceptualize the groups and acts subjected to sexual regulation and how regulations in the field implicate and produce understandings of sexuality and identity By placing this variety of works together *Sexuality and Equality Law* invites fresh insights into commonalities and synergies across regulatory arenas that are often isolated from one another The volume's introduction situates all of these works in the broader field and offers readers an extensive bibliography
