Relevance Of History:

Why Study History? John Fea, 2013-09-15 What is the purpose of studying history How do we reflect on contemporary life from a historical perspective and can such reflection help us better understand ourselves the world around us and the God we worship and serve In this introductory textbook accomplished historian John Fea shows why Christians should study history how faith is brought to bear on our understanding of the past and how studying the past can help us more effectively love God and others Deep historical thinking can relieve us of our narcissism cultivate humility hospitality and love and transform our lives more fully into the image of Jesus Christ

The Study of History, 2000 History is a subject which never stands still It is always changing its philosophies its contours its leading questions its politics its conceptual status and its methodologies This bibliographical guide to the study of history is wide ranging in scope extending from the ancient world to the 20th century It deliberately concentrates on modern historians views provides a substantial section on the philosophy of history charts controversies and highlights the continual evolution and diversification of history The material is logically organized in major areas and subsections and cross references are given where appropriate An index of authors editors and compilers is also provided

The Contemporary Relevance of History Salo Wittmayer Baron, 1986 This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo Egypt Although these women are part of a modernizing middle class they also voluntarily adopt a traditional symbol of female subordination How can this paradox be explained An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle as accommodating protest These women most of them clerical workers in the large government bureaucracy are ambivalent about working outside the home considering it a change which brings new burdens as well as some important benefits At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity The new veiling expresses women s protest against this MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma involving elements of both resistance and acquiescence

Thinking Historically Stéphane Lévesque, 2008-01-01 Drawing on a rich collection of personal national and international studies in history education L vesque offers a coherent and innovative way of looking at how historical expertise in the domain intersects with the pedagogy of history education

Perspectives on the Entangled History of Communism and Nazism Klas-Göran Karlsson, Johan Stenfeldt, Ulf Zander, 2015-07-15 The collective work deals with the problems of if how and why the histories of German Nazism and Soviet Communism should and could be situated within one coherent narrative As historical phenomena can Communism and Nazism fruitfully be compared to each other Do they belong to the same historical contexts Have they influenced reacted to or learned from each other Are they interpreted represented and used together by

posterity The background of the book is twofold One is external There is an ongoing debate about the historical entanglements of Communism and Nazism especially about Auschwitz and Gulag respectively Our present fascination with the evil history of genocide has situated the Holocaust as the borderline event in Western historical thinking The crimes against humanity perpetrated by the Soviet Communist regime do not have the same position but are considered more urgent in the East and Central European states that were subdued by both Nazi and Communist regimes The other internal background is to develop an analytical perspective in which the comnaz nexus can be understood Using a complex approach the authors investigate Communist and Nazi histories as entangled phenomena guided by three basic perspectives Focusing on roots and developments a genetic perspective highlights historical process oriented connections A structural perspective indicates an attempt to narrow down operational parallels of the two political systems in the way they handled ideology to construct social utopia used techniques of terror etc A third perspective is genealogical emphasizing the processing and use of Communist and Nazi history by posterity in terms of meaning and memory What past is worth remembering celebrating debating but also distorting and forgetting The chapters of the book address phenomena such as ideology terror secular religion museum exhibits and denial

To the Past Ruth Sandwell, 2006-12-15 Recent years have witnessed a breakdown in consensus about what history should be taught within Canadian schools there is now a heightened awareness of the political nature of deciding whose history is or should be included in social studies and history classrooms Meanwhile as educators are debating what history should be taught developments in educational and cognitive research are expanding our understanding of how best to teach it To the Past explores some of the political cultural and educational issues surrounding what history education is and why we should care about it in the twenty first century in Canada Originally broadcast in the fall of 2002 on the CBC Radio program Ideas the lectures that comprise this volume not only address how history is taught in Canadian classrooms but also explore strands within larger discussions about the meaning and purposes of history more generally Contributors show how Canadians are demonstrating a new interest in what scholars have termed historical consciousness or collective memory through participation in a wide range of cultural activities from visiting museums to watching the History Channel Canadian adults and children alike seem to be seeking answers to questions of identity meaning community and nation in their study of the past Through this series of essays readers will have the opportunity to explore some of the political and ethical issues involved in this emerging field of Canadian citizenship through history as they learn about public memory and broadly defined history education in Canada
