Revisiting Museums of Influence Mark O'Neill, Jette Sandahl, Marlen Mouliou, 2020-12-29

Revisiting Museums of Influence presents 50 portraits of a range of European museums that have made striking innovations in public quality over the past 40 years. In so doing, the book demonstrates that excellence can be found in museums no matter their subject matter, scale, or source of funding. Written by leading professionals in the field of museology who have acted as judges for the European Museum of the Year Award, the portraits describe museums that had or should have had an influence on other museums around the world. The portraits aim to capture the moment when this potential was identified, and the introduction will locate the institutions in the wider history of museums in Europe over the period, as well as drawing out common themes of change and innovation that unite the portraits. Providing many very diverse portraits, Revisiting Museums of Influence captures the immense capacity of the museum to respond to changing societal needs. As a result, the book will be essential reading for students of museology and museum professionals around the world in shaping the museums they wish to create. Scholars and students of art history, archaeology, ethnography, anthropology, cultural and visual studies, architecture, memory studies, and history will also find much to interest them.

Performance in Popular Culture

Sharon Mazer, 2023-08-31. Performance in Popular Culture reveals the intricate relationship between performance and popular culture by exploring how theatrical conventions and dramaturgical tropes have informed the way the social is constructed for popular consumption. Staged as a series of case studies, this book considers the diverse ways the social is imagined and produced in live and mediated performances, in images and texts, in interactive experiences, and in cultural institutions. By looking at performance in popular culture, the world we live in becomes more visible, open to investigation, and perhaps to change. Performance in Popular Culture engages a wide range of disciplines and theoretical frameworks: performance, theatre, and cultural studies; comparative literature and media studies; gender and sexuality; critical race and post-colonial theories. Designed for accessibility at an undergraduate level, the case studies make use of visual materials, moving images, and texts that are readily available to lecturers and students, to scholars, and to the general public.
