between secularization and tolerance Critically analyzing the empirical and theoretical foundations of a putatively linear relationship between the two this volume argues for moving past both romanticised readings of pre modern tolerance and the unthinking belief that secularization will inevitably lead to tolerance The essays collected in this volume include contributions from across South Asia that suggest that democratic politics have added a layer of complexity to questions of peaceful co existence Modern transformations in religious thought and practice have had contradictory implications for tolerance which offer rich insights into contemporary debates in the region This multi disciplinary volume which spans history sociology anthropology and political theory questions the uncritical acceptance of tolerance as the best framework for engaging with difference and probes the complications created by and through democratic politics
