Spirits and Animism in Contemporary Japan Fabio Rambelli, 2019-05-23 This book draws attention to a striking aspect of contemporary Japanese culture the prevalence of discussions and representations of spirits *tama* or *tamashii* Ancestor cults have played a central role in Japanese culture and religion for many centuries in recent decades however other phenomena have expanded and diversified the realm of Japanese animism For example many manga anime TV shows literature and art works deal with spirits ghosts or with an invisible dimension of reality International contributors ask to what extent these are cultural forms created by the media for consumption rather than manifestations of traditional ancestral spirituality in their adaptations to contemporary society *Spirits and Animism in Contemporary Japan* considers the modes of representations and the possible cultural meanings of spirits as well as the metaphysical implications of contemporary Japanese ideas about spirits The chapters offer analyses of specific cases of animistic attitudes in which the presence of spirits and spiritual forces is alleged and attempt to trace cultural genealogies of those attitudes In particular they present various modes of representation of spirits in contemporary art architecture visual culture cinema literature diffuse spirituality while at the same time addressing their underlying intellectual and religious assumptions

Japan and Japonisme in Late Nineteenth Century Literature Naomi Charlotte Fukuzawa, 2024-10-07 This book examines the transnational phenomenon of Japonisme in the exoticist and autoexoticist literature of the late nineteenth century Focusing on the way in which reciprocal processes of transcultural acquisition by Japan and from Japan were portrayed in the medium of literature the book illustrates how literary Japonisme and the wider processes whereby Japan with its alien exotic culture and unique refined aestheticism was absorbing Western civilization in its own way in the late nineteenth century at the same time as the phenomenon of Japonisme was occurring in Western fine arts which were inspired by traditional Japanese artistic practices Specifically the book focuses on the literary works of Lafcadio Hearn and Pierre Loti who travelled from France and America respectively to Japan and Mori Ōgai and Natsume Sōseki who in turn went respectively to Germany and England from Japan Exploring the eclectic hybridity of Japan's modernization during the late nineteenth century this book will appeal to students and scholars of Japanese Studies Postcolonial Studies and Comparative Literature

Media and New Religions in Japan Erica Baffelli, 2016-02-05 The Open Access version of this book available at www.taylorfrancis.com/books/9781135117849 has been made available under a

Creative Commons Attribution Non Commercial No Derivative 4.0 license Japanese new religions shinsh ky have used various media forms for training communicating with members presenting their messages reinforcing or protecting the image of the leader and potentially attracting converts In this book the complex and dual relationship between media and new religions is investigated by looking at the tensions groups face between the need for visibility and the risks of facing attacks and criticism through media Indeed media and new technologies have been extensively used by religious groups not only to spread their messages and to try to reach a wider audience but also to promote themselves as a highly modern and up to date form of religion appropriate for a modern technological age In 1980s and early 1990s some movements such as Agonsh K fuku no Kagaku and Aum Shinriky came into prominence especially via the use of media initially publications but also ritual broadcasts advertising campaigns and public media events This created new modes of ritual engagement and new ways of interactions between leaders and members The aim of this book is to develop and illustrate particular key issues in the wider new religions and media nexus by using specific movements as examples In particular the analysis of the interaction between media and new religions will focus primarily on three case studies predominantly during the first period of development of the groups

Japan's Holy War Walter Skya, 2009-04-03 Japan's Holy War reveals how a radical religious ideology drove the Japanese to imperial expansion and global war Bringing to light a wealth of new information Walter A Skya demonstrates that whatever other motives the Japanese had for waging war in Asia and the Pacific for many the war was the fulfillment of a religious mandate In the early twentieth century a fervent nationalism developed within State Shint This ultranationalism gained widespread military and public support and led to rampant terrorism between 1921 and 1936 three serving and two former prime ministers were assassinated Shint ultranationalist societies fomented a discourse calling for the abolition of parliamentary government and unlimited Japanese expansion Skya documents a transformation in the ideology of State Shint in the late nineteenth century and the early twentieth He shows that within the religion support for the German inspired theory of constitutional monarchy that had underpinned the Meiji Constitution gave way to a theory of absolute monarchy advocated by the constitutional scholar Hozumi Yatsuka in the late 1890s That in turn was superseded by a totalitarian ideology centered on the emperor an ideology advanced by the political theorists Uesugi Shinkichi and Kakehi Katsuhiko in the 1910s and 1920s Examining the connections between various forms of Shint nationalism and the state Skya demonstrates that where the Meiji oligarchs had constructed a quasi religious quasi secular state Hozumi Yatsuka desired a traditional theocratic state Uesugi Shinkichi and Kakehi Katsuhiko went further encouraging radical militant forms of extreme religious nationalism Skya suggests that the creeping democracy and secularization of Japan's political order in the early twentieth century were the principal causes of the terrorism of the 1930s which ultimately led to a holy war against Western civilization

Civil Society, Religion, and the Nation, 2022-05-20 Japan Russia and Turkey are major examples of countries with different ethnic religious and cultural background that embarked on the path of modernization without having

been colonized by a Western country In all three cases national consciousness has played a significant role in this context The project of Modernity is obviously of European origin but is it essentially European Does modernization imply loss of a country's cultural or national identity If so what is the fate of the modernization process in these cases The presence of the idea and reality of civil society can be considered a real marker of Modernity in this respect because it presupposes the development of liberalism individualism and human rights But are these compatible with nationalism and with the idea of a national religion These questions are the more pressing as Japan is considered part of the Western world in many respects and Russia and Turkey are defining their relation to the European Union in different ways An investigation of these three countries set off against more general reflections sheds light on the possibilities or limitations of modernization in a non European context
