Veith, 2013-01-16 George Herbert in his poetic skill and the depth of the spiritual experiences he explores may be the greatest of all religious poets This is a study of the specific religious experiences and beliefs that Herbert writes about both in his poetry and in his prose As such it also examines the spiritual landscape of seventeenth century England a period for all of its controversies still dominated by the understanding of God and the human condition articulated by Martin Luther and systematized by John Calvin Reformation spirituality which was different both from medieval Catholicism and late Protestantism is itself little understood by literary historians who have tended to look to medieval or Counter Reformation ideas and practices or to a simplistic distinction between Anglicans and Puritans as ways of understanding the religion of the time This study presents Reformation spirituality phenomenologically from the inside Just as Reformation spirituality reflects Herbert s poetry Herbert s poetry illuminates Reformation spirituality showing the experiential and mystical dimensions of an important religious tradition      The Mind's Empire Raymond B. Waddington, 1974      Moral Identity in Early Modern English Literature Paul Cefalu, 2004-11-18 Paul Cefalu s study explores the relationship between moral character and religious conversion in the poetry and prose of Sidney Spenser Donne Herbert and Milton as well as in early modern English Conformist and Puritan sermons theological tracts and philosophical treatises Cefalu argues that early modern Protestant theologians were often unable to incorporate a coherent theory of practical morality into the order of salvation Cefalu draws on fresh historicist theories of ideology and subversion but takes issue with historicist tendency to conflate generic and categorical distinctions among texts He argues that imaginative literature by virtue of its tendency to place characters in approximately real ethical quandaries uniquely points out the inability of early modern English Protestant theology to merge religious theory and ethical practice This study should appeal not only to literary critics and historians but also to scholars interested in the history of moral theory      English Poetry of the Seventeenth Century George Parfitt, 2014-09-19 Provides a comprehensive and entertaining account of the vitality and variety of achievement in seventeenth century English poetry Revised and up dated throughout Dr Parfitt has added new material on poets as varied as Marvell and Traherne There is also a completely new chapter on women poets of the seventeenth century which considers the significant contributions of writers such as Katherine Philips and Margaret Cavendish The proven quality and success of Dr Parfitt s survey makes this the essential companion for the teacher and student of seventeenth century verse      *The Imagination as a Means of Grace* Ernest Lee Tuveson,      *The Strengths of Shakespeare's Shrew* William Empson, 2015-12-17 Passionate controversial and illuminating this collection contains Empson s best short pieces on Shakespeare a sally on George Herbert a defence of Coleridge and an eager introduction to a French farce a group of incomparably witty autobiographical articles and the text to his extraordinary Inaugural Lecture as Professor of English Literature at Sheffield University      **American Book Publishing Record** , 2003      Donne and the Politics of

Conscience in Early Modern England Meg Lota Brown,1995 This work argues that casuistry provided an important resource for Donne and others caught in the welter of conflicting laws and religions in post Reformation Europe Focussing on Donne s works the book also examines the political historical and theological discourses in which Donne s view of authority and interpretation took shape *New Books on Women and Feminism* ,2004 *The Spenser Review* ,2005 The Cambridge tradition Frank Raymond Leavis,1968 **The History of British Women's Writing, 1945-1975** Clare Hanson,Susan Watkins,2017-09-14 This volume reshapes our understanding of British literary culture from 1945 1975 by exploring the richness and diversity of women s writing of this period Essays by leading scholars reveal the range and intensity of women writers engagement with post war transformations including the founding of the Welfare State the gradual liberalization of attitudes to gender and sexuality and the reconfiguration of Britain and the empire in the context of the Cold War Attending closely to the politics of form the sixteen essays range across literary middlebrow and popular genres including espionage thrillers and historical fiction children s literature and science fiction as well as poetry drama and journalism They examine issues including realism and experimentalism education class and politics the emergence of second wave feminism responses to the Holocaust and mass migration and diaspora The volume offers an exciting reassessment of women s writing at a time of radical social change and rapid cultural expansion *Louisiana State University Studies* ,1962
