A Rosicrucian Utopia in Eighteenth-Century Russia Raffaella Faggionato, 2005-09-29 The author undertakes an investigation into the history of Russian Freemasonry that has not been attempted previously Her premise is that the Russian Enlightenment shows peculiar features which prevent the application of the interpretative framework commonly used for the history of western thought The author deals with the development of early Russian masonry the formation of the Novikov circle in Moscow the programme of Rosicrucianism and the character of its Russian variant and finally the clash between the Rosicrucians and the State The author concludes that the defenders of the Ancien R gime were not wrong In fact the democratic behaviour the critical attitude the practice of participation the freedom of thought the tolerance for the diversity the search for a direct communication with the divinity in short all the attitudes and behaviours first practiced inside the eighteenth century Rosicrucian lodges constituted a cultural experience which spread throughout the entire society Novikov s imprisonment in 1792 and the war against the Rosicrucian literature were attempts to thwart a culture based on the independence of thought that was taking root inside the very establishment representing a menace to its stability
