Rotterdam 650 Years Hans Baaij, 1990 *The Folly of the World* Jesse Bullington, 2024-09-24 A flooded town in medieval Holland holds riches for an unusual trio in this darkly humorous adventure by the author of *The Enterprise of Death* Every page is saturated with wickedness and mischief Bullington's fans will be happy to see him bring his trademark dark humor gritty detail and loopy characters into a new gruesome landscape Publishers Weekly On a stormy night in 1421 the North Sea delivers a devastating blow to Holland the Saint Elizabeth Flood a deluge of biblical proportions that drowns hundreds of towns thousands of people and forever alters the geography of the Low Countries Where the factions of the noble Hooks and the merchant Cods waged a literal class war but weeks before there is now only a nigh endless expanse of grey water a desolate inland sea with moldering church spires jutting up like sunken tombstones For a land already beleaguered by generations of civil war a worse disaster could scarce be imagined Yet even disaster can be profitable for the right sort of individual and into this flooded realm sail three conspirators a deranged thug at the edge of madness a ruthless conman on the cusp of fortune and a half feral girl balanced between them With *The Folly of the World* Jesse Bullington has woven an extraordinary new tale of the depraved and the desperate Smart funny and full of wild exuberance Lauren Beukes *The Folly of the World* is weaved with masterful wordplay and dark humor Bullington has perfected his voice in this novel He was scary good before and he just keeps getting better Fantasy Literature An absorbing cross genre piece This dark and memorable novel complete with its dark and memorable characters is among the more distinctive and classifiable reads around The Bookbag **Sculpture in Rotterdam** Jan van Adrichem, Jelle Bouwhuis, Mariette Dölle, 2002 [space.time.narrative](#) Frank den Ouden, 2016-12-05 Making exhibitions is a collaborative art producing is a multi layered unity of ideas and objects of invention and manifestation of content and form However there is an antagonistic dimension to it because content and form are traditionally represented by the entirely different realms of curator and designer Future successful developments in exhibition making are dependent on whether this gap of antagonism can be bridged space time narrative calls for a paradigmatic shift of focus It puts forward a unique approach breaking down traditional barriers and offering a wide ranging theoretical context redefining and expanding the parameters and the dynamics of the exhibition format in terms of an open narrative environment which at its roots displays deep similarities with performance on stage or installation in urban and rural space The book breaks new ground by looking at the exhibition as a cultural format firstly within a great sweep of the arts in general weaving a web of philosophical museological linguistic and media theoretical references which expands the contextual field of the profession It then offers unique and important insights from within in extreme close up by bringing together interviews with six of the leading exhibition designers who discuss the dynamics of the medium its interactive dimensions the soft parameters of the exhibition and how to get to grips with the format as a complex narrative space in which the public takes part Curator and designer should reposition themselves professionally at the heart of the axis which

divides or connects content and form **Out of Ground Zero** Joan Ockman, 2002 The events that took place in New York on 11 September 2001 are the background for this series of essays exploring the response of different cities at different times to natural or man made disaster Case studies include the earthquake that shook Lisbon in 1755 and the bombing of Hiroshima
