Vietnam and other places *Alternative Projections* David E. James, Adam Hyman, 2015-03-13 A collection of papers discussing Los Angeles's role in avant garde experimental and minority filmmaking *Alternative Projections* Experimental Film in Los Angeles 1945-1980 is a groundbreaking anthology that features papers from a conference and series of film screenings on postwar avant garde filmmaking in Los Angeles sponsored by Filmforum, the Getty Foundation and the University of Southern California's School of Cinematic Arts together with newly commissioned essays, an account of the screening series, reprints of historical documents by and about experimental filmmakers in the region and other rare photographs and ephemera. The resulting diverse and multi-voiced collection is of great importance not simply for its relevance to Los Angeles but also for its general discoveries and projections about alternative cinemas. *Alternative Projections* provides a useful corollary and often a corrective to what has become a somewhat unilateral approach to experimental cinema in the period taken up here. *Millennium Film Journal* There are enough examples of ingenuity and achievement contained in this volume to unite a new generation of independent artists, exhibitors and audiences in maintaining a viable outlet for cinematic creativity in Los Angeles. *Los Angeles Review of Books* *Jazz Harmony* Frank Sikora, 2022-07-18 How do we bridge the gap between theory and the music we love? This book aims to establish as close a relationship as possible between theory, the ear and our instrument. *Jazz Theory: Think, Listen, Play* is a comprehensive approach to improvisation, translating knowledge into sound, developing out musical imagination and finding our inner voice, which then guides us on our instrument. It will be a rewarding journey for any aspiring musician, music teacher and jazz player. Always remember: there is no truth in theory, only in music. Enjoy. *Jet*, 1987-03-02 The weekly source of African American political and entertainment news **Open the Door** William R. Bauer, 2003-03-07 Presents the lifelong influence of Betty Carter's career and her music on the music world.

Encyclopedia of Great Popular Song Recordings Steve Sullivan, 2013-10-04 From John Philip Sousa to Green Day, from Scott Joplin to Kanye West, from Stephen Foster to Coldplay. *The Encyclopedia of Great Popular Song Recordings* Volumes 1 and 2 covers the vast scope of its subject with virtually unprecedented breadth and depth. Approximately 1,000 key song recordings from 1889 to the present are explored in full, unveiling the stories behind the songs, the recordings, the performers and the songwriters. Beginning the journey in the era of Victorian parlor balladry, brass bands and ragtime, with the advent of the record industry, readers witness the birth of the blues and the dawn of jazz in the 1910s and the emergence of country music on record, and the shift from acoustic to electrical recording in the 1920s. The odyssey continues through the Swing Era of the 1930s, rhythm and blues, rock, modern soul, the British invasion and the folk rock movement of the 1960s, and finally into the modern era through the musical streams of disco, punk, grunge, hip hop and contemporary dance pop. Sullivan, however, also takes critical detours by extending the coverage to genres neglected in pop music histories: from ethnic and world music, the gospel recording of both black and white artists, and lesser-known traditional folk tunes that reach back hundreds of years. This book is ideal for anyone who truly loves popular music in all of its glorious variety and anyone wishing

to learn more about the roots of virtually all the music we hear today Popular music fans as well as scholars of recording history and technology and students of the intersections between music and cultural history will all find this book to be informative and interesting

Music and Sound in the Worlds of Michel Gondry Kate McQuiston, 2020-11-26 Michel Gondry's directorial work buzzes with playfulness and invention in a body of work that includes feature films such as *Eternal Sunshine of the Spotless Mind* and *The Science of Sleep* to music videos commercials television episodes and documentaries he has experimented with blending animation and live action complex narrative structures and philosophical subject matter Central to that experimentation is Gondry's use of music and sound which this book addresses in a new detailed study Kate McQuiston examines the hybrid nature of Gondry's work his process of collaboration how he uses sound and music to create a highly stylized reinforcement of often elusive subjects such as psychology dreams the loss of memory and the fraught relationship between humans and the environment This concise volume provides new insight into Gondry's richly creative multimedia productions and their distinctive use of the soundtrack
