**Militarism and the Great War** Thierry Terret,J. A. Mangan,2013-09-13 The Great War has been largely ignored by historians of sport However sport was an integral part of cultural conditioning into both physiological and psychological military efficiency in the decades leading up to it It is time to acknowledge that the Great War also had an influence on sport in post war European culture Both are neglected topics Sport Militarism and the Great War deals with four significant aspects of the relationship between sport and war before during and immediately after the 1914 1918 conflict First it explores the creation and consolidation of the cult of martial heroism and chivalric self sacrifice in the pre war era Second it examines the consequences of the mingling of soldiers from various nations on later sport Third it considers the role of the Great War in the transformation of the leisure of the masses Finally it examines the links between war sport and male socialisation The Great War contributed to a redefinition of European masculinity in the post war period The part sport played in this redefinition receives attention Sport Militarism and the Great War is in two parts the Continental Part I and the Anglo Saxon Part II No study has adopted this bilateral approach to date Thus in conception and execution it is original With its originality of content and the approaching centenary of the advent of the Great War in 2014 it is anticipated that the book will capture a wide audience This book was originally published as a special issue of The International Journal of the History of Sport      *A Bibliography of British History, 1914-1989* Keith Robbins,American Historical Association,Royal Historical Society (Great Britain),1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index      **The National Union Catalogs, 1963-** ,1964      **The**

**British Library General Catalogue of Printed Books to 1975** British Library,1979      *The Liberal Mind 1914-29* Michael Bentley,2007-07-12 This study is an exercise in the history of political perception and opinion It broke new ground in considering the decline of Liberalism through the eyes of Liberals themselves By concentrating on what Liberal politicians

said to one another and to their audience public and private a picture is built up of the frame of mind in which those responsible for guiding Liberalism faced a worsening world after 1914 The coming of the First World War was a critical element in forming that frame of mind and the frame of mind was itself critical in deciding the fate of Liberalism in the post war years What emerges from this study is the paradox that the Liberal mind was the greatest single obstacle in the way of a Liberal revival
