Philosophical Perspectives on Teacher Education Ruth Heilbronn, Lorraine

Foreman-Peck, 2015-04-27 Philosophical Perspectives on Teacher Education presents a series of well argued essays about the ethical considerations that should be addressed in teacher training and educational policies and practices. Brings together philosophical essays on an underserved yet urgent aspect of teacher education. Explores the kinds of ethical considerations that should enter into discussions of a teacher's professional education. Illuminates the knowledge and understanding that teachers need to sustain their careers and long term sense of well being. Represents an important resource to stimulate contemporary debates about what the future of teacher education should be. *The Educated Person* Donal G. Mulcahy, 2008

Liberal education has long been a fascination for scholars in a variety of disciplines and is closely associated with the idea of the educated person. Seen at one time as a matter for colleges and universities, over the years it has become central to the debate surrounding general education in high school and even the earlier grades. Yet so many and varied are the uses of the term liberal education that the question arises of whether and how the idea is any longer a useful or helpful construct. In what way might it speak helpfully to educational challenges we face today? In what ways does it still speak helpfully to educational challenges we face today? In what ways might it be a guide as we search for a better way forward? These are the central questions that are addressed in this book. In doing so, the positions of three theorists, John Henry Newman, Mortimer J. Adler, and Jane Roland Martin, who have written about liberal education in a compelling way and from different perspectives, are selected for close analysis. The analysis is built upon to fashion a new ideal of the educated person and a new theory of liberal education. Educational Ills and the (Im)possibility of Utopia Joff Bradley, 2020-05-21

As a bold provocation to reimagine what the philosophy of education might mean in the 21st century, this book responds to the exhaustion of present theoretical models and indeed the degradation of fabulative thought in its current prospectus. The contributors from Asia, the Americas, and Europe proffer a frank response to the everyday reality of the classroom where teachers compete with electronic devices for the attention of students whose minds are literally elsewhere, cocooned in the noospheric ether. Outside of lecture halls, the world is suffering the rise of fascism, panic, and anger driven by precarious employment and a looming fatalism and resignation in the face of ecological calamity. These developments have led to an avalanche of psychical woes afflicting young people, ranging from trauma, the loss of hope, and in extremis, violence and suicide. The concerned and committed writers of this volume therefore raise the timely question of the return of utopia as a fitting, desperate, and indeed necessary response to the ecological, existential, and pedagogical crises spreading across the planet. At this most crucial juncture in human history, the excellent contributions to this book offer singularly unique perspectives regarding the possibility/impossibility of utopia. This book was originally published as a special issue of the journal *Educational Philosophy and Theory*. Towards Excellence in Early Years Education Kathleen Goouch, 2010-06-22

This book uniquely describes the work of two Early Years Professionals drawing on their narrative accounts as they robustly describe and analyse their work.

with young children Against a backcloth of increasing regulation and inspection of early years care and education Kathy Gooch emphasizes the importance of building authentic relationships with children and their families explores how play can be promoted as the central site for learning and shows how professionals can use play to account for children s development and learning In analysing the Early Year Professionals narratives this book explores key themes including Traditional notions of teaching and how they can be redefined The significance of talk in children s lives Teachers professional identities How children s potential in learning can be achieved through play Celebrating knowledge skills and understanding and re defining what it means to be a teacher in its broadest sense this fascinating book brings together research and literature from across disciplines Containing a foreword by Tricia David it will be of interest to academics early years educators and students on early childhood education degree programmes and initial teacher education courses as well as others concerned with the over prescriptive nature of early education

Disability Matters Anna Hickey-Moody,Vicki Crowley,2014-06-11 From the critique of the medical model of disability undertaken during the early and mid 1990s a social model emerged particularly in the caring professions and those trying to shape policy and practice for people with disability In education and schooling it was a period of cementing inclusive practices and the integration and inclusion of disability into mainstream What was lacking in the debates around the social model however were the challenges to abledness that were being grappled with in the routine and pragmatics of self care by people with disabilities their families carers and caseworkers Outside the academy new forms of activity and new questions were circulating Challenges to abledness flourished in the arts and constituted the lived experience of many disability activists Disability Matters engages with the cultural politics of the body exploring this fascinating and dynamic topic through the arts teaching research and varied encounters with disability ranging from the very personal to the professional Chapters in this collection are drawn from scholars responding in various registers and contexts to questions of disability pedagogy affect sensation and education Questions of embodiment affect and disability are woven throughout these contributions and the diverse ways in which these concepts appear emphasize both the utility of these ideas and the timeliness of their application This book was originally published as a special issue of Discourse Studies in the Cultural Politics of Education

The Transformation of Children's Services Joan Forbes,Cate Watson,2011-10-03 Can we imagine different ways of working together to secure better outcomes for children and families What are the complex issues that underlie the apparently simple call for joined up services Children s services in many countries around the world are being transformed as part of the call for joined up working for joined up solutions Social health and educational policy discourses are driven by the idea that effective inter professional interagency collaboration is crucial in determining whether service delivery to children and families will succeed or fail However the rapid turn from previous inter professional practices of

liaison consultancy cooperation and collaboration to more radical and wholesale service integration and sector transformation has not been accompanied either by a well considered research agenda of hard questions nor close scrutiny of its effects and consequences The book asks a series of searching and challenging questions What are the complex issues involved in children s sector transformation for all those involved young people practitioners leaders and managers policy makers How can the silos in which professionals have traditionally been prepared for practice be broken down What are the orthodoxies that surround joined up working and in what ways should they be challenged Written by authors from across the wide range of professional policy and disciplinary groups involved in this new cross cutting area of policy and practice this book provides a critical analysis of the complexities of children s services transformations The research in this collection addresses the range of discursive policy and organizational developments associated with the transformation of children s services providing an important and timely analysis of their complexities and is essential reading for all those working in the complex spaces of children s services
