The Male Dancer Ramsay Burt,2003-09-02 In this challenging and lively book Ramsay Burt examines the representation of masculinity in twentieth century dance Taking issue with formalist and modernist accounts of dance which dismiss gender and sexuality as irrelevant he argues that prejudices against male dancers are rooted in our ideas about the male body and male behaviour Building upon ideas about the gendered gaze developed by film and feminist theorists Ramsay Burt provides a provocative theory of spectatorship in dance He uses this to examine the work of choreographers like Nijinsky Graham

Bausch while relating their dances to the social political and artistic contexts in which they were produced Within these re readings he identifies a distinction between institutionalised modernist dance which evokes an essentialist heroic hypermasculinity one which is valorised with reference to nature heterosexuality and religion and radical avant garde choreography which challenges and disrupts dominant ways of representing masculinity The Male Dancer will be essential reading for anyone interested in dance and the cultural construction of gender

Juvenile Nation Stephanie Olsen, 2014-01-16 In the first five months of the Great War one million men volunteered to fight Yet by the end of 1915 the British government realized that conscription would be required Why did so many enlist and conversely why so few Focusing on analyses of widely felt emotions related to moral and domestic duty Juvenile Nation broaches these questions in new ways Juvenile Nation examines how religious and secular youth groups the juvenile periodical press and a burgeoning new group of child psychologists social workers and other experts affected society s perception of a new problem character the adolescent By what means should this character be turned into a fit citizen Considering qualities such as loyalty character temperance manliness fatherhood and piety Stephanie Olsen discusses the idea of an informal education focused on building character through emotional control and how this education was seen as key to shaping the future citizenry of Britain and the Empire Juvenile Nation recasts the militarism of the 1880s onwards as part of an emotional outpouring based on association to family to community and to Christian cultural continuity Significantly the same emotional responses explain why so many men turned away from active militarism with duty to family and community perhaps thought to have been best carried out at home By linking the historical study of the

emotions with an examination of the individual's place in society Olsen provides an important new insight on how a generation of young men was formed

Anticommunism in French Society and Politics, 1945-1953 Aaron Clift, 2023-06-20 Anticommunism in French Society and Politics 1945-1953 evaluates the prevalence of anticommunism among the French population in 1945 to 1953 and examines its causes character and consequences through a series of case studies on different segments of French society These include the scouting movement family organisations agricultural associations middle class groups and trade unions and other working class organisations Aaron Clift contends that anticommunism was more widespread and deeply rooted than previously believed and had a substantial impact on national politics and on these social groups and organisations Furthermore he argues that the study of anticommunism allows us a deeper understanding of the values they regarded as the most important to defend Although anticommunism was a diverse phenomenon this work identifies common discourses including portrayals of communism as a threat to the nation the colonial empire the traditional family private property religion the rural world and Western civilisation It also highlights common aims such as the rehabilitation of wartime collaborators and tactics such as the invocation of apoliticism While acknowledging the importance of the Cold War it rejects the assumption that anticommunism was an American import or foreign to French society and demonstrates links between anticommunism and anti Americanism It concludes that

anticommunism drew its strength from the connection or even conflation of communism with perceived negative social changes that were seen to threaten traditional French civilisation interacting with the postwar international and domestic environment and the personal experiences of individual anticommunists
