Hospital and Asylum Architecture in England, 1840-1914 Jeremy Reginald Buckley Taylor, 1991 *The Oxford Handbook of Children's Rights Law* Jonathan Todres, Shani M. King, 2020-02-19 Children's rights law is a relatively young but rapidly developing discipline The U N Convention on the Rights of the Child the field's core legal instrument is the most widely ratified human rights treaty in history Yet like children themselves children's rights are often relegated to the margins in mainstream legal political and other discourses despite their application to approximately one third of the world's population and every human being's first stages of life Now thirty years old the Convention on the Rights of the Child CRC signalled a definitive shift in the way that children are viewed and understood from passive objects subsumed within the family to full human beings with a distinct set of rights Although the CRC and other children's rights law have spurred positive changes in law policies and attitudes toward children in numerous countries implementation remains a work in progress We have reached a state in the evolution of children's rights in which we need more critical evaluation and assessment of the CRC and the large body of children's rights law and policy that this treaty has inspired We have moved from conceptualizing and adopting legislation to focusing on implementation and making the content of children's rights meaningful in the lives of all children This book provides a critical evaluation and assessment of children's rights law including the CRC With contributions from leading scholars and practitioners from around the world it aims to elucidate the content of children's rights law explore the complexities of implementation and identify critical challenges and opportunities for children's rights law

The Golden Ghetto Jacques M. Downs, Frederic D. Grant, Jr., 2014-11-01 Before the opening of the treaty ports in the 1840s Canton was the only Chinese port where foreign merchants were allowed to trade The Golden Ghetto takes us into the world of one of this city's most important foreign communities the Americans during the decades between the American Revolution of 1776 and the signing of the Sino US Treaty of Wanghia in 1844 American merchants lived in isolation from Chinese society in sybaritic albeit usually celibate luxury Making use of exhaustive research Downs provides an especially clear explanation of the Canton commercial setting generally and of the role of American merchants Many of these men made fortunes and returned home to become important figures in the rapidly developing United States The book devotes particular attention to the biographical details of the principal American traders the leading American firms and their operations in Canton and the United States Opium smuggling receives especial emphasis as does the important topic of early diplomatic relations between the United States and China Since its first publication in 1997 The Golden Ghetto has been recognized as the leading work on Americans trading at Canton Long out of print this new edition makes this key work again available both to scholars and a wider

later chapters discuss the coming of compulsory education together with changes in the home and in leisure activities A separate section of the book is devoted to the treatment of deprived children those in and out of the workhouse on the streets and also in prison industrial schools and reformatories Offering a fresh and more focused approach to the history of working class children this book should be of interest to all lecturers and students of nineteenth century social history [Full and Present Salvation in Christ](#) Klaus Arnold,2018-04-11 Theodor Jellinghaus 1841 1912 theologian and leader of the Heiligungsbewegung Holiness Movement was one of the fathers of the Gemeinschaftsbewegung Fellowship Movement in Germany a new organized expression of the Pietist tradition in nineteenth century German Protestantism The key event for the life and work of Jellinghaus was his participation in the convention on Christian holiness in England in 1874 He wanted to bring the new insights he gained there to revive the Protestant and Pietist traditions in the land of the Reformation Jellinghaus believed that the doctrine of sanctification by faith in Jesus Christ which he had heard in England was an indispensable consequence of and necessary accompaniment to a clear doctrine of justification His special concern in the Gemeinschaftsbewegung was the education of laypersons The last phase of his life was characterized by crisis and illness which were related to each other and directly and indirectly led to his so called recantation We can only do justice to the overall persona of Jellinghaus if we differentiate between the former healthy and later ill Jellinghaus He has to be viewed in the contradictions and tensions within the development of the Heiligungsbewegung and the Gemeinschaftsbewegung as well as his theological teachings This book is the first comprehensive treatment of Jellinghaus which not only focuses on his doctrine of sanctification but assesses his overall life and work that is his theological system and personal involvement in and contribution to the development of the Heiligungsbewegung and Gemeinschaftsbewegung in Germany *Calendar of the Sparks Manuscripts in Harvard College Library* Justin Winsor,1886 *Children, Childhood and Youth in the British World* Simon Sleight,Shirleene Robinson,2016-10-06 Age was a critical factor in shaping imperial experience yet it has not received any sustained scholarly attention This pioneering interdisciplinary collection is the first to investigate the lives of children and young people and the construction of modes of childhood and youth within the British world [Harvard University Bulletin](#) ,1889 **Legal Foundations of Tribunals in Nineteenth Century England** Chantal Stebbings,2007-01-18 Nineteenth century governments faced considerable challenges from the rapid novel and profound changes in social and economic conditions resulting from the industrial revolution In the context of an increasingly sophisticated and complex government from the 1830s the specialist and largely lay statutory tribunal was conceived and adopted as the principal method of both implementing the new regulatory legislation and resolving disputes The tribunal s legal nature and procedures and its place in the machinery of justice were debated and refined throughout the Victorian period In examining this process this 2007 book explains the interaction between legal constraints social and economic demand and political expediency that gave rise to this form of dispute resolution It reveals the imagination and creativity of the legislators who

drew on diverse legal institutions and values to create the new tribunals and shows how the modern difficulties of legal classification were largely the result of the institution s nineteenth century development **British Medical Journal** ,1898
