Royal Commission, Provincial Economic Inquiry,1934 **A History of Canadian Economic Thought** Robin Neill,1991-06-06 In A History of Canadian Economic Thought Robin Neill relates the evolution of economic theory in Canada to the particular geographical and political features of the country Whilst there were distinctively Canadian economic discourses in nineteenth century Ontario and early twentieth century Quebec Neill argues that these have now been absorbed into the broader North American mainstream He also examines the nature and importance of the staple theory controversy and its appositeness for the Canadian case With full accounts of the work of major Canadian economists including John Rae H A Innis and Harry Johnson A History of Canadian Economic Thought is the first definitive treatment of the subject for 30 years **Preliminary Report** Royal Commission on Canada's Economic Prospects,1956 **The State and Economic Knowledge** Mary O. Furner,Barry Supple,1990-08-31 This book addresses an important but inadequately recognized dimension of the activities of the modern state the role it plays in producing the theoretical and practical knowledge necessary for economic policy making Over time governments in modern societies have assumed the ultimate responsibility for ensuring the economic well being of their citizens and for protecting their competitive positions in the international economy To perform their various coordinating functions effectively and to maintain legitimacy governments have found it necessary to rely on accurate information regarding economic conditions and trends and on empirically based theories or models that allow officials to anticipate the economy s performance under specified conditions The traditional assumption which this collection of essays challenges is that despite this profound dependence governments have generally acted as passive consumers of whatever ideas economists in the private sector and professions had to offer This book brings together papers that reveal the ways in which modern states have helped to generate new economic knowledge and how that process interacts with economic changes specific political institutions and ideological contexts **Royal Commission Provincial Economic Inquiry - Appendices** Nova Scotia.
