Thomas, 2016-07-26 Denmark has a millennium long continuous history and development from Viking times about 800 1050 AD to the modern welfare state The resilience of the Danish people is evident in the artistic golden age of the early 19th century despite national bankruptcy the agricultural revival during the final third of the 19th century Modern Denmark leads in industrial design furniture engineering pharmacy and social development in the 20th century Danish scientists medical doctors composers musicians choreographers playwrights authors sculptors architects designers painters and film directors have made significant contributions to the development of European culture In the 21st century Denmark combines a thriving and highly productive modern economy with extensive social care and welfare and thus refutes the neo conservative economists who claim that such a combination is impossible In short Denmark is seen by the Danes and their neighbors as a very good place to live This third edition of Historical Dictionary of Denmark contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1000 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone

When Denmark introduced compulsory education in 1814 the city of Copenhagen responded by regulating the already existing private school system Roughly half of the school age population went to some kind of school and of those the overwhelming majority attended private schools most of which were run by women The book tells the story of these women their schools and pupils on the 150 private schools from 1790 1820 Carol Gold's contention is that these private schools and their teachers were much better than is presently assumed in Danish historiography The teachers were all literate they could read and most of them could write The education provided for girls ranged from the basics of reading writing and arithmetic plus needlework in the beginner schools to the scientific subjects of history geography natural sciences and foreign languages in the more advanced academies Furthermore the schools formed the basis of the Copenhagen school system which was established at the beginning of the 19th century **Current Contents** Institute for Scientific Information (Philadelphia), 1997 **Læsning og bogmarked i 1600-tallets Danmark** Charlotte Appel, 2001 Text in Danish This publication deals with the encounter between the common Danish population of the 17th century and the printed word and not least with the foundations of that meeting Appel examines the teaching of reading and the reading abilities of the age in society outside the circles of the cultural elite and questions the general conception of a predominantly illiterate population The book draws a sketch of the book market of that period marked by expansion and differentiation and of the various attempts of the public authorities including the church to control and make use of the new media It also tells of the various interests of the population in the art of reading and of the channels sale loans and gift exchange through which the printed papers reached the readers of the 17th century **Impulser i Københavns koncertrepertoire, 1900-1935** Claus Røllum-Larsen, 2002 Perioden 1900 1935 var en meget rig og dynamisk periode i dansk og internationalt musikliv I Impulser i Kbenhavns koncertrepertoire 1900 1935 tegner Claus Røllum Larsen et billede af musiklivet i datidens København hvor komponister som Alban Berg Claude Debussy Percy Grainger Paul Hindemith Arthur Honegger Gustav Mahler Sergej Rachmaninov Max Reger Arnold Schøenberg Jean Sibelius m fl var med til at forny repertoire Bogen bygger på omfattende studier i 8 centrale musikalske selskaber og foreningers koncertprogrammer i rene fra rhundredeskiftet da Dansk
