The Royal Navy in the Age of Austerity 1919-22 G. H. Bennett,2016-10-06 This book thoroughly explores and analyses naval policy during the period of austerity that followed the First World War During this post war period as the Royal Navy identified Japan its likely opponent in a future naval war the British Government was forced to tighten its belt and cut back on naval expenditure in the interests of National Economy G H Bennett draws connections between the early 20th century and the present day showing how the same kind of connections exist between naval and foreign policy the provision of ships for the Royal Navy business and regional prosperity and employment The Royal Navy in the Age of Austerity 1919 22 engages with a series of important historiographical debates relating to the history of the Royal Navy the failures of British Defence policy in the inter war period and the evolution of British foreign policy after 1919 together with more mundane debates about British economic industrial social and political history in the aftermath of the First World War It will be of great interest to scholars and students of British naval history *A History of the Royal Navy* Martin Robson,2014-03-27 The French Revolutionary and Napoleonic Wars were the first truly global conflicts The Royal Navy was a key player in the wider wars and for Britain the key factor in her eventual emergence as the only naval power capable of sustained global hegemony The most iconic battles of any era were fought at sea during these years from the Battle of the Nile in 1798 to Nelson s momentous victory at Trafalgar in October 1805 In this period the Navy had reached a peak of efficiency and was unrivalled in manpower and technological strength The eradication of scurvy in the 1790s had a significant impact on the health of sailors and along with regular supplies of food and water gave the British an advantage over their rivals in battle As well as naval battles the Navy also undertook amphibious operations capturing many of France s Caribbean colonies and Dutch colonies in the East Indies and Ceylon this Imperial dimension was integral to British strength and counteracting French success on continental Europe This book looks at the history of the Royal Navy during the French Revolutionary and Napoleonic Wars 1793 1815 from a broad perspective examining the strategy operations and tactics of British seapower While it delves into the details of Royal Navy operations such as battle blockade commerce protection and exploration it also covers a myriad of other aspects often overlooked in narrative histories such as the importance of naval logistics transport relations with the army and manning An assessment of key naval figures and combined eyewitness accounts situate the reader firmly in Nelson s navy Through an exploration of the relationship between the Navy trade and empire Martin Robson highlights the contribution Royal Navy made to Britain s rise to global hegemony through the nineteenth century Pax

Hms Centurion 1733-1769 an Historic Biographical-Travelogue of One of Britain's Most Famous Warships and the Capture of the Nuestra Senora De Covadonga Treasure Galleon. Shirley Fish,2015-07-27 When the Centurion and a squadron of six vessels and 1 959 men and boys set out from England in 1740 on a round the world expedition they were unaware of the terrifying events that awaited them in the days ahead The squadron under the command of Commodore George Anson had departed from England with every hope of a successful mission to harass and take prizes in the Spanish possessions of the Americas and in Asia The journey proved more challenging than anticipated and at times it seemed nightmarish and beyond anything experienced by the crew The ship survived two huge waves and a lightning strike Then there was the great loss of life amongst the crew who perished due to the devastating symptoms of scurvy Despite these setbacks there were moments of pure joy especially when the Centurion captured the fabulously wealthy Manila Acapulco Galleon in the Philippines the Nuestra Senora de Covadonga Throughout the Centurion s career as a royal naval warship in the eighteenth century she played a role in the capture of Quebec during the French and Indian War and the invasion of Havana in the Seven Years War She was also instrumental when dealing with the Barbary Corsairs of Algeria and Morocco Amongst the famous men who sailed on this vessel were John Harrison the inventor of the first maritime sea clock and Joshua Reynolds the celebrated portrait painter The details of the journeys to the Americas Asia and Europe are described in this biographical travelogue of the Centurion

Tides in the Affairs of Men Cheryl Fury,2001-12-30 The age of maritime expansion and the Anglo Spanish War have been analyzed by generations of historians but nearly all studies have emphasized events and participants at the top This book examines the lives and experiences of the men of the Elizabethan maritime community during a particularly volatile period of maritime history The seafaring community had to contend with simultaneous pressures from many different directions Shipowners and merchants motivated by profit hired seamen to sail voyages of ever increasing distances which taxed the health and capabilities of 16th century crews and vessels International tensions in the last two decades of Elizabeth s reign magnified the risks to all seamen whether in civilian employment or on warships The advent of open warfare with Spain in 1585 resulted in a privateering war against the Spanish Empire seen by some seamen as one of

the few boons of the conflict The other major development was the introduction of impressment a deeply resented aspect of any naval war and one that brought great hardship to seamen and their families The relationship between the Crown and its seafarers was a pull haul between a state beset by financial problems of fighting a protracted war on several fronts and employees forced to work in dangerous conditions for substandard wages The stresses of the war years tell us much about the dynamic of the maritime community their expectations and their coping strategies
