Mansfield,2024-02-06 The modern traveller sees something beyond mere facts Historical material as identified with the life of some great architectural glory is something more than a mere repetition of chronologies the sidelights and the co related incidents though indeed many of them may be but hearsay are quite as interesting quite as necessary in fact for the proper appreciation of a famous palace or chateau as long columns of dates or an evolved genealogical tree which attempts to make plain that which could be better left unexplained The glamour of history would be considerably dimmed if everything was explained and a very seamy block of marble may be chiselled into a very acceptable statue if the workman but knows how to avoid the doubtful parts An itinerary that follows not only the ridges but occasionally plunges down into the hollows and turns up or down such crossroads as may have chanced to look inviting is perhaps more interesting than one laid out on conventional lines A shadowy something which for a better name may be called sentiment if given full play encourages these side steps and since they are generally found fruitful and often not too fatiguing the procedure should be given every encouragement

*Castles in Medieval Society* Charles Coulson,2004 In this challenging new book Charles Coulson overturns many of the traditional assumptions about the nature and purpose of castle building in the middle ages He demolishes the traditional belief that castles were overwhelmingly military in their function showing how this was simply one aspect of a more complicated whole He sets out to recreate the medieval understanding of castles as symbolically fortified places of all kinds from ancient walled post Roman towns and prestigious religious enclaves to transitory campaign forts Going back to the original sources Dr Coulson proposes a new and more subtle understanding of the function and symbolism of castles as well as vivid insights into the lives of the people who inhabited them Fortresses were only occasionally caught up in war but constantly were central to the ordinary life of all classes of the nobility and gentry of widows and heiresses of prelates and clergy of peasantry and townspeople alike Castles in Medieval Society presents and explores this broad social panorama
