**The Advancement of Music in Enlightenment England** Tim Eggington, 2014. This is a book guaranteed to make waves. It skilfully weaves the story of one key musical figure into the story of one key institution which it then weaves into the general story of music in eighteenth-century England. Anyone reading it will come away with fresh knowledge and perceptions plus a great urge to hear Cooke's music. Michael Talbot, Emeritus Professor of Music at the University of Liverpool and Fellow of the British Academy. Amidst the cosmopolitan fashion-obsessed concert life of later eighteenth-century London, there existed a discrete musical counterculture centred round a club known as the Academy of Ancient Music. Now largely forgotten, this enlightened school of musical thinkers sought to further music by proffering an alternative vision based on a high-minded intellectual curiosity. Perceiving only ear-tickling ostentation in the showy styles that delighted London audiences, they aspired to raise the status of music as an art of profound expression informed by its past and founded on universal harmonic principles. Central to this group of musical thinkers was the modest yet highly accomplished musician-scholar Benjamin Cooke, who both embodied and reflected this counterculture. As organist of Westminster Abbey and conductor of the Academy of Ancient Music for much of the second half of the eighteenth century, Cooke enjoyed prominence in his day as a composer, organist, teacher and theorist. This book shows how, through his creativity, historicism and theorising, Cooke was instrumental in proffering an Enlightenment-inspired reassessment of musical composition and thinking at the

Academy The picture portrayed counters the current tendency to dismiss eighteenth century English musicians as conservative and provincial Casting new and valuable light on English musical history and on Enlightenment culture more generally this book reveals how the agenda for musical advancement shared by Cooke and his Academy associates foreshadowed key developments that would mould European music of the nineteenth century and after It includes an extensive bibliography a detailed overview of the Cooke Collection at the Royal College of Music and a complete list of Cooke's works TIM EGGINGTON is College Librarian at Queens College Cambridge Words of anthems in use in the cathedral church of Chester. Re-arranged and ed. by C.H.H. Stewart Chester cathedral, 1880
