"The Religious Patronage of the Duke of Lerma, 1598?621 " LisaA. Banner,2017-07-05 Introducing fresh archival evidence author Lisa Banner here demonstrates how Francisco G de Sandoval y Rojas first Duke of Lerma served as a vital link in Habsburg architectural patronage She traces Lerma s trajectory as beginning with the ancient royal city of Valladolid he embarked on a career of renovating or building religious foundations in various towns and cities around seventeenth century Spain The unintended consequence of his architectural patronage

and involvement was to proliferate the distinctive royal architectural style developed under Philip II which connected the foundations of Lerma indelibly with the traditions of noble patronage in Habsburg Spain **Artemisia Gentileschi** Jesse M. Locker, 2021-01-19 An important reassessment of the later career and life of a beloved baroque artist Hailed as one of the most influential and expressive painters of the seventeenth century Artemisia Gentileschi 1593 ca 1656 has figured prominently in the art historical discourse of the past two decades This attention to Artemisia after many years of scholarly neglect is partially due to interest in the dramatic details of her early life including the widely publicized rape trial of her painting tutor Agostino Tassi and her admission to Florence's esteemed Accademia del Disegno While the artist's early paintings have been extensively discussed her later work has been largely dismissed This beautifully illustrated and elegantly written book provides a revolutionary look at Artemisia's later career refuting longstanding assumptions about the artist The fact that she was semi illiterate has erroneously led scholars to assume a lack of literary and cultural education on her part Stressing the importance of orality in Baroque culture and in Artemisia's paintings Locker argues for her important place in the cultural dialogue of the seventeenth century A Companion to Early Modern Hispanic Theater Hilaire Kallendorf, 2014-02-20 A panoramic state of the art handbook destined to chart a course for future work in the field of early modern Hispanic theater studies It begins in the closet with an essay on Celestina as closet drama and moves out into the court to explore intersections with courtly love An essay on the comedia and the classics demonstrates this genre's firm grounding in the classical tradition despite Lope de Vega's famous protestations to the contrary Distinct but related genres such as the autos sacramentales and the entremeses also make an appearance The traditional themes of honor and wife murder share the stage with less familiar topics like the incorporation of animals into performance This volume covers the urban space of the city in Spain and Portugal as well as uncharted territories in the New World and Japan Essays on emblems and the picaresque round out this anthology along with studies of theatrical representations of early modern innovations in science and technology The book concludes with two different psychoanalytical approaches focused on melancholy and Lacanian tragedy respectively This collection incorporates the work of younger scholars along with established names in the field to synthesize the most exciting recent work on the comedia and related forms of early modern Hispanic theatrical production Contributors include Ignacio Arellano Frederick de Armas Henry Sullivan Edward Friedman A Robert Lauer Manuel Delgado Adrienne Mart n Enrique Garc a Santo Tom s Matthew Stroud Teresa Scott Soufas Enrique Fern ndez Mar a Mercedes Carri n Robert Bayliss Ted Bergman Cory Reed Maryrica Lottman Christina Lee and Enrique Duarte *Early Modern Habsburg Women* Anne J. to Madrid and secure for himself the hand of the King of Spain's daughter. His father James I and VI had been toying with the idea of a Spanish match for his son since as early as 1605 despite the profoundly divisive ramifications such a policy would have in the face of the determined Puritan opposition in parliament committed to combatting the forces of international Catholicism at every opportunity. With the Spanish ambassador the machiavellian Count of Gondomar's encouragement to mount Spain, Charles impetuously took matters into his own hands and as the negotiations stalled he departed secretly in the guise of Mr Smith to win with his romantic and foolhardy daring what his father could not achieve through diplomacy. The eventual failure and public humiliation that followed his journey to Madrid has been cited as a major influence on Charles's subsequent development and policies as king. Until now there has been no attempt to systematically explore the failure of the Spanish match from an interdisciplinary perspective including what it reveals about the practice of diplomacy, the taste, art and dress of the period, its literature and the long term consequences for Anglo-Spanish relations. In this volume leading scholars from a variety of disciplines analyse the reactions and representations of Charles's romantic escapade and offer their insights into the affair. In doing so many traditional assumptions about the trip are overturned. By taking into account the political, social, religious and international dimensions of the event and examining historical, literary and artistic evidence, this volume paints a rounded, lively and vivid portrait of one of the most remarkable episodes of the Jacobean age.

Portraiture, Gender, and Power in Sixteenth-Century Art Noelia García Pérez, 2024-03-05. This exciting and wide-ranging volume examines the construction and dissemination of the image of female power during the Renaissance. Chapters examine the creation, promotion and display of the image of women in power and how the artistic and cultural patronage they developed helped them craft a self-image that greatly contributed to strengthening their power, consolidating their political legitimacy and promoting their authority. Contributors cover diverse models of sixteenth-century female power from ruling queens, regents and governors to consorts of sovereigns and noblewomen outside the court. The women selected were key political figures and patrons of art in England, France, Castile, the Low Countries, the Holy Roman Empire and Italian city states. The volume engages with crucial and controversial debates regarding the nature and use of portraiture as well as the changing patterns of how portraits were displayed, building a picture of the principal iconographic solutions and representational strategies that artists used. The book will be of interest to scholars working in art history, gender studies, women's studies and Renaissance studies.

Philip II of Spain, Patron of the Arts Rosemarie Mulcahy, 2004. The image of Philip II, 1527-98, as stern and assiduous defender of his political inheritance and of the Catholic faith is tempered and enriched by the image of patron and collector of art. During the forty-two years of his reign, 1556-98, through widespread patronage and persistent guidance, he transformed the arts in Spain, then largely provincial, into the international and modern. The building of the Escorial, known in its own time as the eighth wonder of the world, and other royal residences attracted artists and craftsmen to enter the royal service among them Titian, Anthony van Dyck, El Greco, Federico Zuccaro, Pompeo Leoni

and Alonso Sanchez Coello Part of his collection was to form the basis of the Prado Museum when it was founded in the nineteenth century Although Philip is recognized as one of the most important art patrons of the Renaissance little has been published in English on his remarkable achievement This selection of essays by Rosemarie Mulcahy gives a sense of the variety of talent both Spanish and foreign that flourished under Philip II's patronage and provides fascinating insights into the king's artistic projects The topics covered include the function of religious art court portraiture art and diplomacy art as propaganda the use of preparatory drawings The volume contains 16 colour plates and over 100 black and white illustrations
