*The Zionist Bible* Nur Masalha,2014-10-20 Throughout the history of European imperialism the grand narratives of the Bible have been used to justify settler colonialism The Zionist Bible explores the ways in which modern political Zionism and Israeli militarism have used the Bible notably the Book of Joshua and its description of the entry of the Israelites into the Promised Land as an agent of oppression and to support settler colonialism in Palestine The rise of messianic Zionism in the late 1960s saw the beginnings of a Jewish theology of zealotocracy based on the militant land traditions of the Bible and justifying the destruction of the previous inhabitants The Zionist Bible examines how the birth and growth of the State of Israel has been shaped by this Zionist reading of the Bible how it has refashioned Israeli Jewish collective memory erased and renamed Palestinian topography and how critical responses to this reading have challenged both Jewish and Palestinian nationalism      **Catalog of Copyright Entries. **Bedazzled Saints** Noria K. Litaker, 2023-10-03 Winner of the Sixteenth Century Society Gerald Strauss Book Award Shortlisted for the Ecclesiastical History Society Book Award The defense of the cult of saints and relics was an essential element of the Catholic Counter Reformation in Europe Facing attacks from Protestant denominations of all kinds the Roman church redoubled its efforts to promote the veneration of its holy figures and to house their earthly remains in dramatic style Bedazzled Saints chronicles the transfer distribution and display of nearly four hundred holy bodies of ancient Christian martyrs some of the church's most prestigious relics sent from the Roman catacombs to the Electorate of Bavaria between 1590 and 1803 Local communities both religious and secular broke with medieval tradition and spent immense amounts of time and money to fuse incomplete skeletons into lavishly decorated whole body saints By examining these ornamented skeletons painstakingly enhanced with jewels and fine clothing and still on display atop church altars to this day Noria Litaker elucidates the interplay between local religious practice and universal church doctrine shedding new light on the negotiated nature of sanctity in early modern Catholicism In so doing she challenges the dominant narrative of the Bavarian Catholic Reformation as a top down process and provides new insights into the role relics and their innovative presentation played in the development of Catholic identity in early modern German lands
