Safety Utopia Contemporary Discontent And Desire As To Crime And Punishment:

The Safety Utopia Hans Boutellier, 2007-05-08 My first encounter with the world of crime and punishment was more than two decades ago and it has since undergone vast changes. No one could have foreseen that crime-related problems would occupy such a prominent position in cultural awareness. Crime is on the rise; the public attention devoted to it has increased even more, and its political importance has mushroomed. The major change in the 1990s was perhaps the transformation of crime into a safety issue. Crime is no longer a matter involving offenders, victims, the police, and the courts; it involves everyone and any number of agencies and institutions, from security companies to the local authorities and from schools to pub and restaurant owners. Crime has become a much larger complex than the judicial system, a complex organized mentally and institutionally around this one concept of safety. In this book, I make an effort to get to the bottom of this complex. It is the sequel to my dissertation *Crime and Morality: The Moral Significance of Criminal Justice in a Postmodern Culture* (2000), where I hold that the victim became the essence of crime in Western culture and that this in turn shaped public morality. In the second half of the twentieth century, a personal morality based on an awareness of our own and other people's vulnerability and the potential victimhood succeeded the ethics of duty.

How To Do Christian Ethics Brian Brock, Nadine Hamilton, Daniel R. Patterson, 2025-05-29 Discover how pressing contemporary moral issues can be approached and discussed in a distinct and coherently theological fashion. This book displays a more direct approach that has the distinct advantage of being approachable, dramatic, and contemporary. It introduces the reader to the grammar of Christian moral reasoning and expands upon its intricate inner workings. By demonstrating ways in which a Christian believer or congregation can think through specific moral issues, the volume serves a church desiring to witness God's love in genuine and contextually truthful ways. Each chapter approaches its subject matter by demonstrating how the

sources of Christian moral reasoning Scripture and church doctrine can be imaginatively brought to bear on contemporary moral perplexities The form of teaching practices here makes tangible the ways in which the Christian gospel clearly and even penetratingly illumines our contemporary moral contexts

The Cultural Construction of Safety and Security Gemma Blok, Jan Oosterholt, 2025-10-01 This volume analyses cultural perceptions of safety and security that have shaped modern European societies The articles present a wide range of topics from feelings of unsafety generated by early modern fake news to safety issues related to twentieth century drug use in public space The volume demonstrates how safety is not just a social or biological condition to pursue but also a historical and cultural construct In philosophical terms safety can be interpreted in different ways referring to security certainty or trust What does feeling safe and thinking about a safe society mean to various groups of people over time The articles in this volume are bound by their joint effort to take a constructionist approach to emotional expressions artistic representations literary narratives and political discourses of un safety and their impact on modern European society

Making the Modern Criminal Law Lindsay Farmer, 2016-01-21 The Criminalization series arose from an interdisciplinary investigation into criminalization focussing on the principles that might guide decisions about what kinds of conduct should be criminalized and the forms that criminalization should take Developing a normative theory of criminalization the series tackles the key questions at the heart of the issue what principles and goals should guide legislators in deciding what to criminalize How should criminal wrongs be classified and differentiated How should law enforcement officials apply the law s specifications of offences This the fifth book in the series offers a historical and conceptual account of the development of the modern criminal law in England and as it has spread to common law jurisdictions around the world The book offers a historical perspective on the development of theories of criminalization It shows how the emergence of theories of criminalization is inextricably linked to modern understandings of the criminal law as a conceptually distinct body of rules and how this in turn has been shaped by the changing functions of criminal law as an instrument of government in the modern state The book is structured in two main parts The first traces the development of the modern law as a distinct and conceptually distinct body of rules looking in particular at ideas of jurisdiction codification and responsibility The second part then engages in detailed analysis of specific areas of criminal law focusing on patterns of criminalization in relation to property the person and sexual conduct

Sentencing Policy and Social Justice Ralph Henham, 2018-02-22 Sentencing Policy and Social Justice argues that the promotion of social justice should become a key objective of sentencing policy advancing the argument that the legitimacy of sentencing ultimately depends upon the strength of the relationship between social morality and penal ideology It sheds light on how shared moral values can influence sentencing policy at a time when relationships of community appear increasingly fragmented arguing that sentencing will be better placed to make a positive contribution to social justice if it becomes more sensitive to the commonly accepted moral boundaries that underpin adherence to the rule of law The need to reflect public opinion in sentencing has

received significant attention more recently with renewed interest in jury sentencing stakeholder sentencing and the involvement of community views when regulating policy The author however advocates a different approach combining a new theoretical focus with practical suggestions for reform and arguing that the contribution sentencing can make to social justice necessitates a fundamental change in the way shared values about the advantages of punishment are reflected in penal ideology and sentencing policy Using examples from international comparative and domestic contexts to advance the moral and ethical case for challenging the existing theories of sentencing the book develops the author's previous theoretical ideas and outlines how these changes could be given practical shape within the context of sentencing in England and Wales It assesses the consequences for penal governance due to increased state regulation of discretionary sentencing power and examines the prospects for achieving the kind of moral transformation regarded as necessary to reverse such a move To illustrate these issues each chapter focuses on a particularly problematic area for contemporary sentencing policy namely the sentencing of women the sentencing of irregular migrants sentencing for offences of serious public disorder and sentencing for financial crime

International Perspectives of Crime Prevention 3 Marc Coester, Erich Marks, 2011 The German Congress on Crime Prevention GCOCP is an annual event that takes place since 1995 in different German cities and targets all areas of crime prevention Since its foundation the GCOCP has been open to an international audience with a growing number of non German speaking participants joining To give the international guests their own discussion forum the Annual International Forum AIF within the GCOCP was established in 2007 For non German guests this event offers lectures in English language as well as other activities within the GCOCP that are translated simultaneously This book reflects the input and output of the 3rd Annual International Forum 2009 which took place 8th and 9th of June 2009 in Hanover state of Lower Saxony This book contains lectures of the GCOCP and AIF as well as a contribution from a partner organisation of the congress The articles reflect worldwide views on crime prevention and criminal policy as well as the current status discussion research and projects in crime prevention from different countries Europe and the world Also the Hanover Declaration is included a report about the key findings of the congress

Justice and Penal Reform Stephen Farrall, Barry Goldson, Ian Loader, Anita Dockley, 2016-02-05 In the aftermath of the financial crisis of 2008 Western societies entered a climate of austerity which has limited the penal expansion experienced in the US UK and elsewhere over recent decades These altered conditions have led to introspection and new thinking on punishment even among those on the political right who were previously champions of the punitive turn This volume brings together a group of international leading scholars with a shared interest in using this opportunity to encourage new avenues of reform in the penal sphere Justice is a famously contested concept and this book takes a deliberately capacious approach to the question of how justice can be mobilised to inform new reform agendas Some of the contributors revisit an antique question in penal theory and reconsider the question of what fair or just punishment should look like today Others seek to make gender central to understanding of crime and

punishment or actively reflect on the part that related concepts such as human rights legitimacy and trust can and should play in thinking about the creation of more just crime control arrangements Faced with the expansive penal developments of recent decades much research and commentary about crime control has been gloom laden and dystopian By contrast this volume seeks to contribute to a more constructive sensibility in the social analysis of penalty one that is worldly hopeful and actively engaged in thinking about how to create more just penal arrangements Justice and Penal Reform is a key resource for academics and as a supplementary text for students undertaking courses on punishment penology prisons criminal justice and public policy This book approaches penal reform from an international perspective and offers a fresh and diverse approach within an established field

Sentencing and the Legitimacy of Trial Justice Ralph Henham,2013-03-01 This

book discusses the under researched relationship between sentencing and the legitimacy of punishment It argues that there is an increasing gap between what is perceived as legitimate punishment and the sentencing decisions of the criminal courts Drawing on a wide variety of empirical research evidence the book explores how sentencing could be developed within a more socially inclusive framework for the delivery of trial justice In the international context such developments are directly relevant to the future role of the International Criminal Court especially its ability to deliver more coherent and inclusive trial outcomes that contribute to social reconstruction Similarly in the national context these issues have a vital role to play in helping to re position trial justice as a credible cornerstone of criminal justice governance where social diversity persists In so doing the book should help policy makers in appreciating the likely implications for criminal trials of mainstreaming restorative forms of justice Sentencing and the Legitimacy of Trial Justice firmly ties the issue of legitimacy to the relevant context for delivering justice It suggests a need to develop the tools and methods for achieving this and offers some novel solutions to this complex problem This book will be a valuable resource for graduate students academics practitioners and policy makers in the field of criminal justice as well as scholars interested in socio legal and cross disciplinary approaches to the analysis of criminal process and sentencing and the development of theory and comparative methodology in this area

Sentencing Ralph Henham,2013-10-01 Sentencing is the process through which the legitimacy of punishment is declared and justified However it is increasingly portrayed as a social activity which should be more responsive to the pluralistic needs and values of individuals and communities in contemporary society It will therefore have to adapt to an array of different perceptions of what justice is and how it should be delivered as well as different sensitivities and emotional responses to sentencing processes and outcomes At a time when fundamental questions are being asked about the relevance of existing forms of punishment in contemporary society Sentencing argues for a profound normative understanding of the relationship between sentencing and its perception by citizens vital if we are to fully comprehend the nature and significance of punishment and the particular challenges it faces as a force for social cohesion Henham explores this theme by focusing on key areas of debate within the field the treatment of gender and race in sentencing the future role of sentencing in criminal justice governance the development of new criteria for evaluating sentencing within a more socially inclusive framework Henham suggests that a greater focus on the relationship between penal ideology and the impact of sentencing in the wider community is essential for effective future policy making in this area Sentencing will be useful for both undergraduate and postgraduate students of law criminology criminal justice and sociology as well as for academics and criminal justice policymakers

Environmental Crime and its Victims Toine Spapens,Rob White,Marieke Kluin,2016-05-06 Environmental crime is one of the most profitable and fastest growing areas of international criminal activity These types of crime however do not always produce an immediate consequence and the harm may be diffused As such the complexity of victimization in terms of time space impact and who or what is victimized is one of the reasons why

governments and the enforcement community have trouble in finding suitable and effective responses This book provides a diverse and provocative array of arguments critiques and recommendations from leading researchers and scholars in the field of green criminology The chapters are divided into three main sections the first part deals with specific characteristics of some of the major types of environmental crime and its perpetrators the second focuses explicitly on the problem of victimization in cases of environmental crime and the third addresses the question of how to tackle this problem Discussing these topics from the point of view of green criminological theory sociology law enforcement community wellbeing environmental activism and victimology this book will be of great interest to all those concerned about crime and the environment

Crime Prevention Policies in Comparative Perspective Adam Crawford, 2013-05-13 This book brings together a collection of leading international experts to explore the lessons learnt through implementation and the future directions of crime prevention policies Through a comparative analysis of developments in crime prevention policies across a number of European countries contributors address questions such as How has the preventive turn in crime control policies been implemented in various different countries and what have its implications been What lessons have been learnt over the ensuing years and what are the major trends influencing the direction of development What does the future hold for crime prevention and community safety Contributors explore and assess the different models adopted and the shifting emphasis accorded to differing strategies over time The book also seeks to compare and contrast different approaches as well as the nature and extent of policy transfer between jurisdictions and the internationalisation of key ideas strategies and theories of crime prevention and community safety

Punishment in Europe Vincenzo Ruggiero, Mick Ryan, 2013-08-30 This collection from a range of leading international scholars looks at penal practice in a variety of different European countries Noting particularities as well as similarities such as the overuse of imprisonment and the use of harsher sanctions against the poor this book questions how we justify and deliver punishment in Europe

Justice for Victims Inge Vanfraechem, Antony Pemberton, Felix Mukwiza Ndahinda, 2014-06-27 Justice for Victims brings together the world's leading scholars in the fields of study surrounding victimization in a pioneering international collection This book focuses on the current study of victims of crime combining both legal and social scientific perspectives articulating both in new directions and questioning whether victims really do have more rights in our modern world This book offers an interdisciplinary approach covering large scale political victimization terrorist victimization sexual victimization and routine victimization Split into three sections this book provides in depth coverage of victims rights transitional justice and victims perspectives and trauma resilience and justice Victims rights are conceptualised in the human rights framework and discussed in relation to supranational international and regional policies The transitional justice section covers victims of war from those caught between peace and justice as well as post conflict justice The final section focuses on post traumatic stress connecting psychological and anthropological perceptions in analysing collective violence mass victimization and trauma This book addresses challenging and new issues in

the field of victimology and the study of transitional and restorative justice As such it will be of interest to researchers practitioners and students interested in the fields of victimology transitional justice restorative justice and trauma work

The Infrastructures of Security Martin Murray,2022-08-15 The shift from dependence upon human decision making in security services to Artificial Intelligence *Current Legal Problems 2010* George Letsas,Colm O'Cinneide,2011-01-30 This year s volume covers topics such as military detention English criminal law terrorism democracy human rights civil liberties the media and international law family law child welfare health feminism economic theory corporate law competition regulation contract law biotechnology biodiversity and more **A Criminology of Moral Order** Hans Boutellier,2020-07-15 Moral order is disturbed by criminal events However in a secularized and networked society a common moral ground is increasingly hard to find People feel confused about the bigger issues of our time such as crime anti social behaviour Islamist radicalism sexual harassment and populism Traditionally issues around morality have been neglected by criminologists Through theory case studies and discussion this book sheds a new and topical light on these concerns Using the moral perspective Boutellier bridges the gap between people s emotional opinions on crime and criminologists rationalized answers to questions of crime and security *The World of Crime* Jan Van Dijk,2007-12-21 The book is an important text for undergraduate courses with a comparative focus such as Comparative Criminal Justice Introduction to Criminology and Introduction to Criminal Justice in departments of criminology criminal justice and sociology BOOK JACKET
