Salmon Moon:

Moon Edgar Williams, 2014-06-15 Long before a rocket hit the Moon in the eye in Georges Méliès' early film *Le Voyage dans la Lune* the earth's lone satellite had entranced humans. We have worshipped it as a deity, believed it to cause madness, used it as a means of organizing time, and we now know that it manipulates the tides. Our understanding of the Moon continues to evolve. Following the Moon from its origins to its rich cultural resonance in literature, art, religion, and politics, *Moon* provides a comprehensive account of the significance of our lunar companion. Edgar Williams explores the interdependence of the Earth and the Moon, not only the possibility that life on Earth would not be viable without the Moon, but also the way it has embedded itself in culture. In addition to delving into roles the Moon has played in literature, from science fiction and comics to poetry, he examines how Elizabeth I was worshipped as the Moon goddess Diana, the Moon's place in folklore and astrology, and humanity's long-standing dream of inhabiting its surface. Filled with entertaining anecdotes, this book is the kind of succinct, witty, and informative look at everything lunar that only comes around once in a blue moon. *University of Washington Publications in Anthropology*, 1929

Being and Place among the Tlingit Thomas F. Thornton, 2011-07-01 In *Being and Place among the Tlingit*, anthropologist Thomas F. Thornton examines the concept of place in the language, social structure, economy, and ritual of southeast Alaska's Tlingit Indians. Place signifies not only a specific geographical location but also reveals the ways in which individuals and social groups define themselves. The notion of place consists of three dimensions: space, time, and experience, which are culturally and environmentally structured. Thornton examines each in detail to show how individual and collective Tlingit notions of place, being, and identity are formed. As he observes, despite cultural and environmental changes over time, particularly in the post-contact era since the late eighteenth century, Tlingits continue to bind themselves and their culture to places and landscapes in distinctive ways. He offers insight into how Tlingits, in particular, and humans in general, conceptualize their relationship to the lands they inhabit, arguing for a study of place that considers all aspects of human interaction with landscape. In Tlingit, it is difficult even to introduce oneself without referencing places in Tlingit. A Tlingit's geographic references are embedded in personal names, clan names, house names, and most obviously in *k'waan* names, which define regions of dwelling. To say one is *Sheetka K'waan* defines one as a member of the Tlingit community that inhabits *Sheetka*. *Being and Place among the Tlingit* makes a substantive contribution to the literature on the Tlingit, the Northwest Coast, cultural area, Native American, and indigenous studies, and to the growing social scientific and humanistic literature on space, place, and landscape. *Kyuquot* way Susan M. Kenyon, 1980-01-01 This volume describes a modern Nootka community from a historical perspective. Despite evidence of significant change over time with respect to material culture, technology, and political institutions, considerable continuity exists insofar as codes of social interaction, community values, and ideals are concerned. Published in English.

Heart of the Raincoast Alexandra Morton, Bill Proctor, 2016-05-03 Originally published in 1998 this updated edition has a brand new cover and interior design with a new foreword by Alexandra Morton Billy Proctor was born in 1934 and has spent his entire life in a remote coastal community called Echo Bay BC on an island off northern Vancouver Island Proctor has always done the time honoured work of generations of upcoast men hand logging fishing clam digging repairing boats beachcombing But Billy eventually began to notice that the thriving runs of Pacific salmon oolichans and herring that he remembers from his early years were vanishing some to near extinction and he understood that it was time to take action Heart of the Raincoast is the fascinating story of Billy Proctor s life and the wealth of knowledge and understanding that can only be gained from living in such close proximity to nature The writing is funny touching and honest and offers an engaging insider s view not only of the salmon whales eagles and independent people who populate Canada s wild and lovely coastal rainforest but on what we need to do to keep it as nature intended

Emerald City Matthew W. Klinge, 2008-10-01 At the foot of the snow capped Cascade Mountains on the forested shores of Puget Sound Seattle is set in a location of spectacular natural beauty Boosters of the city have long capitalized on this splendor recently likening it to the fairytale capital of L Frank Baum s The Wizard of Oz the Emerald City But just as Dorothy Toto and their traveling companions discover a darker reality upon entering the green gates of the imaginary Emerald City those who look more closely at Seattle s landscape will find that it reveals a history marked by environmental degradation and urban inequality This book explores the role of nature in the development of the city of Seattle from the earliest days of its settlement to the present Combining environmental history urban history and human

geography Matthew Klinge shows how attempts to reshape nature in and around Seattle have often ended not only in ecological disaster but also in social inequality The price of Seattle s centuries of growth and progress has been high Its wildlife especially the famous Pacific salmon and its poorest residents have paid the highest price Klinge proposes a bold new way of understanding the interdependence between nature and culture and he argues for what he calls an ethic of place Using Seattle as a compelling case study he offers important insights for every city seeking to live in harmony with its natural landscape Provided by publisher *The Celtic Shaman* John Matthews,2012-10-31 Probably the oldest known spiritual discipline shamanism is the timeless art of living in harmony with creation providing a universal system to work with today whatever our religion or spiritual affiliation may be A reflection of a living tradition with a supremely practical approach to life it teaches skills for living and ways to utilize latent abilities which we all possess Celtic Shamanism derives from the native traditions of North West Europe The shamanic contribution of the Celts and their predecessors has been overlooked until recently and is one of the last shamanic traditions to be explored While it shares common elements with American Australian and Siberian teachings it derives entirely from Celtic source material The Celtic Shaman offers a varied and easily followed plan of self tuition for anyone interested in Celtic mythology and the Western mysteries **Journal of the Royal Anthropological Institute of Great Britain and Ireland** Royal Anthropological Institute of Great Britain and Ireland,1892
