important collection challenges all anthropologists to re-examine the importance of European perspectives on the most provocative debates of our time. It transcends regional interests to highlight the complex intellectual landscape of our field. Tracey Heatherington, University of Wisconsin Milwaukee. This significant volume critically interrogates assumptions about Europe as an idea and a place for research. It provides fresh perspectives on the past and future of anthropological studies of Europe. Deborah Reed Danahay, SUNY at Buffalo. President of the Society for the Anthropology of Europe. A Companion to the Anthropology of Europe offers a survey of contemporary Europeanist anthropology and European ethnology and a guide to emerging trends in this geographical field of research. Utilizing diverse approaches to the anthropological study of Europe. Kockel, Nic Craith and Frykman provide a synthesis of the different traditions and contemporary practices. Investigating the subject both geographically and thematically, the companion covers key topics such as location, heritage, experience and cultural practices. Written by leading international scholars in the field, the volume constitutes the first authoritative guide for researchers, instructors and students of anthropology and European studies.

Islands and Britishness Jodie Matthews, 2011-11-15. Islands and archipelagos hold great imaginative power and they have long been a subject of study for cartographers and geographers, for anthropologists and historians of colonisation. But what does it mean to be an islander? Can one feel both British and Manx, for example? What are British tourists looking for when they go to former island colonies? How do past relationships with Britain affect islands today? This collection takes a variety of perspectives to provide answers to such questions, examining war, empire, tourism, immigration, language, literature and everyday life on and in islands and the question of travel to and from them. Britishness is highlighted as a global island phenomenon providing an insight into the history, culture and politics of identities from Jersey to Jamaica. Islands and Britishness not only brings together various contemporary strands in Island Studies but uniquely focuses on the relationship, historical, cultural and economic, between particular islands and Britain and crucially how this relationship frames national identity both on the island and in Britain itself. The collection examines interactions between Britishness and indigenous or earlier invasive settler cultures as well as the internal differences within the concept of Britishness. Britain, Scotland, Shetland, for instance. It considers the relationship played out on the island between Britishness and the other nationalities with which the islands share an affinity and questions received wisdoms about national identity on the islands by considering intersecting discourses such as class and gender. The collection offers a global perspective on the divisions within a notion of Britishness and the identities against which Britishness has been constructed.

European rural peripheries revalued Ulrike Grabski-Kieron, Ingo Mose, Anja Reichert-Schick, Annett Steinführer, 2016. Heimatkunde Mairéad Nic Craith, Katerina Strani, Alastair Mackie, 2023. An integrative

Heimatkunde defined as the holistic study of localities and regions has been a core interest in Ullrich aka Ulli Kockel's research since he first graduated with a double primary in 1984. Frequently described as an interdisciplinary and sometimes undisciplined academic, his research draws liberally on art, geography, human ecology, philosophical anthropology, political economy, and social anthropology, with its primary focus located in the field of Empirical Cultural Science. European ethnology. The contributions to this collection celebrate Ulli's explorations of place and belonging at different junctures on his quest for Heimatkunde. Laid out in four thematic sections: Borders, Regions, and Frontiers, Human Ecology, Creative Ethnology, and Memories, they feature creative work along with research essays. Given Ulli's love of cooking and food, we describe our offering as a feast script.

Highland Heritage Celeste Ray, 2015-12-01. Each year, tens of thousands of people flock to Grandfather Mountain, North Carolina, and to more than two hundred other locations across the country to attend Scottish Highland Games and Gatherings. There, kilt-wearing participants compete in athletics, Highland dancing, and bagpiping, while others join clan societies in celebration of a Scottish heritage. As Celeste Ray notes, however, the Scottish affiliation that Americans claim today is a Highland Gaelic identity that did not come to characterize that nation until long after the ancestors of many Scottish Americans had left Scotland. Ray explores how Highland Scottish themes and lore merge with southern regional myths and identities to produce a unique style of commemoration and a complex sense of identity for Scottish Americans in the South. Blending the objectivity of the anthropologist with respect for the people she studies, she asks how and why we use memories of our ancestral pasts to provide a sense of identity and community in the present. In so doing, she offers an original and insightful examination of what it means to be Scottish in America.

This volume was first published by Interdisciplinary Press in 2014. *Unsettling Whiteness* brings together an international collection that considers anew the politics, practices, and representations of whiteness at a time when nations worldwide continue to grapple with issues that are underwritten by whiteness.
