Happy Death Club Naomi Westerman, 2025-10-10 Anthropologist Naomi Westerman was studying death rituals around the world when her whole family died Upon losing those closest to her Naomi Westerman saw that death was more than just an abstract academic concept it was a deeply painful and personal experience She became fascinated by loss and grief and hoped to cope and demystify death by turning to history art and pop culture *Happy Death Club* examines the many faces of death and grief in Westerman's own life and in cultures around the world From expensive coffins and unconventional burials to horror films and true crime what does our treatment of death and dying have to tell us about how we live our lives What makes a good death And who owns our bodies before and after we die Both meaningful and darkly humorous *Happy Death Club* presents a frank curious look at this universal human experience one we're often too afraid to talk about and what lies beyond

A Winter in New York Josie Silver, 2023-10-03 A young chef stumbles on a secret family recipe that might lead her to the love and life she's been looking for in this stunning novel from the New York Times bestselling author of *One Day in December* When Iris decides to move to New York to restart her life she realizes she underestimated how big the Big Apple really is all the nostalgic movies set in New York she'd watched with her mom while eating their special secret recipe gelato didn't quite do it justice But Bobby Iris's best friend isn't about to let her hide away He drags her to a famous autumn street fair in Little Italy and as they walk through the food stalls a little family run gelateria catches her eye could it be the same shop that's in an old photo of her mother's Curious Iris returns the next day and meets the handsome Gio who tells her that the shop is in danger of closing His uncle sole keeper of their family's gelato recipe is recovering from a stroke and can no longer remember it so they can't make more When Iris samples the last remaining batch she realizes that their gelato and her gelato are one and the same But how can she tell them she knows their secret recipe when she's not sure why Gio's uncle gave it to her mother in the first place Iris offers her services as a chef to help them re-create the flavor and finds herself falling for Gio and his family But when Gio's uncle finally wakes up all of the secrets Iris has been keeping threaten to ruin the new life and new love she's been building all winter long

Wreckonomics Ruben Andersson, David Keen, 2023-05-25 A powerful exposé of the war framework that governments around the world have adopted to tackle difficult problems yet which locks them into failed and cruel policies that never seem to end The United States recently exited a two decade long war in Afghanistan part of its global war on terror in ignominy with the Taliban taking Kabul The US and European countries also continually increase funding for their own border security leading to more chaos and shifting the problem around And America's war on drugs has failed to dampen narcotics demand while fueling atrocities and profiteering from Mexico to the Philippines Why do politicians keep feeding the very crises they say they are combating In *Wreckonomics* Ruben Andersson

and David Keen analyze why disastrous policies continue to live on when it has become apparent that they do not work The authors show how the perverse outcomes we see in the fight against terror migration and drugs are more than a blip or an anomaly Rather the proliferation of pseudo wars has become a dangerous political habit and an endless source of political advantage and profit From combating crime to the war on drugs from civil wars to global wars and even culture wars chronic failure has been harnessed to the appearance of success A wide variety of problems have persisted or even worsened not so much despite the wars and pseudo wars that are waged against them as because of them Covering a range of cases around the world Wreckonomics exposes and interrogates the incentive systems that allow destructive policies to remain in effect even in the face of systemic failure It also develops strategies to collectively dismantle the addiction to waging war on everything Telamon Rexx Deane,2021-04-14 SpecOps Agent Sebastian Thorsson is an agent no longer The prestigious tech and xenoarchaeology organisation demands new recruits make discoveries of scientific merit to earn their place Unfortunately for Sebastian it has come to light he has made no such discovery An acceleration node repair mission seems like the perfect opportunity for him and Aryx to perform groundbreaking research and restore their freedoms until an ambush spells disaster for the pair When their friends combine forces to help they inadvertently trigger a chain of events that threaten to expose everything they strive to protect and unleash a legendary enemy against a planet they cannot defend

Queering Higher Education Louise Morley,Daniel Leyton,2022-12-30 This interdisciplinary and international book subjects key areas of inclusion in the global knowledge economy to critical scrutiny from queer perspectivism Drawing on empirical data from diverse international contexts including Chile Finland Japan Malaysia India Afghanistan Bangladesh Nepal Pakistan Sri Lanka Ghana Tanzania South Africa and the UK this book examines sites of affective antagonisms fragility and friction and explores whether queer theory can provide alternative readings of contemporary pathways pedagogical and research cultures political economies and policy priorities with higher education Main themes covered include The Global Knowledge Economy and Epistemic Injustice Decolonisation Internationalisation Feminist Leadership Affirmative Action Queering the Political Economy of Neoliberalism Digitalisation of academic work Both comparative and illustrative this key text provides a comparative analysis that recognises epistemic diversity multiplicity of experiences and importantly the effect of comparative reason in constructing stratified universities world fields and excluded and marginal academic experiences It also takes into account the colonial historical entanglements in the ongoing formation and disavowal of the university and academic labour *Queering Higher Education Troubling Norms in the Global Knowledge Economy* is ideal reading for all those interested in queer theory and how it relates to higher education *Scottish Cats* Hamish Whyte,2013-11-07 Cats have always had a special appeal to poets they exhibit so many human attributes not least that characteristic Scottish trait thrawnness According to legend the Scots were the first northern people to keep cats Fergus I of Scotland is said to have brought one from Portugal in the fourth century BC and Scots have taken cats to their hearts ever since This anthology of
