Screaming With The Cannibals:

Screaming with the Cannibals Lee Maynard, 2003 Screaming with the Cannibals gets its title when the central character of Crum whose Christian name is revealed in this novel finds himself in an evangelical service in Kentucky on the other side of the Tug River from his native West Virginia As the folks touched by the Spirit rave and howl he remembers how back in Crum the folks used to tell him to stay on his side of the river because the people on the other side were known to eat their children And now here he is in a Kentucky holy roller church screaming right along with the cannibals Since the first novel our protagonist has visited the West Virginia holler where his family lived before he moved up to the greater sophistication of Crum and there he discovers that his favorite uncle has disappeared from the face of the earth in a moon shining accident He then meets the girls who makes the earth or at least the hay loft move for him and quite literally he falls for her From there he goes to Kentucky and then to Myrtle Beach where he gets hired as a life guard although he cannot swim a stroke BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The Cannibals* Cynthia D. Sikkema,2017-09-15 Richard and his friends are weak lost and scattered to the winds But hope remains After losing his home nation Jason and the others in Canada must confront the futility of their fight and resist the whispers that urge them into darkness Meanwhile Richard continues on to the Guild of Technology where he will learn what it means to understand another human being And behind them all Malevocrax works to establish its Hybrid Empire through which it shall begin its education of the human race **The Cannibal Within** Lewis F. Petrinovich, The Cannibal Within offers an evolutionary

account of the propensity of human beings in extreme circumstances to eat other human beings despite the strong Western taboo against such practices What sets this volume apart from the large body of literature on cannibalism both popular and anthropological is the underlying premise cannibalism as an alternative to starvation is tacitly condoned by the same biological morality that would condemn cannibalism of other sorts in non threatening situations Deep as the taboos may be the survival instinct runs even deeper The title of the book reflects the author s belief that cannibalism is not a pathology that erupts in psychotic individuals but is a universal adaptive strategy that is evolutionarily sound The cannibal is within all of us and cannibals are within all cultures should the circumstances demand cannibalism s appearance and usage Petrinovich s work is rich in historical detail and rises to a level of theoretical sophistication in addressing a subject too often dealt with in sensationalist terms The major instances in which survival cannibalism has occurred convinced the author that there is a consistent pattern and a uniform regularity of order in which different kinds of individuals are consumed In considering who eats whom when and under what circumstances this regularity appears and it is consistent with what would be expected on the basis of evolutionary or Darwinian theory In short he concludes that starvation cannibalism is not a manifestation of the chaotic psychotic behavior of individuals who are driven to madness but reveals underlying characteristics of evolved human beings Lewis Petrinovich is professor emeritus in the Department of Psychology of the University of California Riverside and is currently a resident of Berkeley California
