Young,Christine N. Michael,Jennifer A. Smolinski,2019-07-15 What role does student engagement play in educational achievement on the post secondary campus And what factors affect each student s ability and motivation to engage with the full college experience both in and outside of the classroom It is now widely acknowledged that post secondary institutions must not only focus on facilitating the transition from high school to college but that they must also make a concerted effort to listen to the needs and experiences of their students in order to achieve maximal involvement within the college environment Students need to be captivated by at least one element of their college experience whether that be in the classroom dorm or extracurricular activities in order to form a bond with their institution and feel motivated and attached enough to put in the hard work until graduation Campuses that capture their students interests and passions provide spaces for them to develop as individuals and opportunities to form meaningful professional and personal relationships have a far greater chance of both retaining their students to graduation and helping them develop as whole human beings who will contribute This book studies the many facets of student engagement as it attempts to define student engagement differentiating it from involvement and covers seminal theories of college student engagement The contributions to this volume discuss the powerful role that relationships play in helping students identify their interests and talents and other examples of best practice when it comes to creating engaging classroom experiences such as collaborative projects with peers study abroad and learning that is situated in real life problems that are of importance to the student **Assessing**

Lyons,2012-06-18 Provides an original and challenging contribution to contemporary debates on the civic purpose of higher education exploring its manifestations through practices of teaching and research Offers critical perspectives on the role of higher education institutions in terms of realizing civic missions especially in current global market conditions     **Leaning into Politics** Abraham Goldberg,Carah Ong Whaley,2024-06-01 Democratic decline in the United States and globally a lack of confidence in political institutions and an increasingly violent and divisive political climate raise many questions for the state of political learning and civic engagement A decade ago a task force commissioned by the United States Department of Education called on colleges and universities to affirm their missions to educate for democracy Relatively few have made the investment though dozens of higher education associations and organizations have publicly committed their support to prepare students to address the persistent public issues they are inheriting While there has been a recent upward spike in rote civic knowledge and historically high youth voting rates the United States has seen a decline in political rights and civil liberties and has been listed as a backsliding democracy Since 2010 state legislatures have passed laws making it harder to vote with access to the ballot increasingly dependent on which party controls the state legislature Meanwhile substantial dysfunction and hyperpartisanship in Congress concerns over the impartiality of the judiciary and limited accountability and

oversight of the executive branch have contributed to the loss of institutional capacity to address public problems and to declining public confidence in political institutions. These trends coincide with problematic rhetoric and growing scrutiny from public officials on how colleges and universities educate students on public issues, particularly those centered on class, race, ethnicity, and social justice. Issues of free speech and expression have been further nationalized following a high profile hearing of the House Committee on Education and the Workforce that questioned the presidents of Harvard, Massachusetts Institute of Technology, and University of Pennsylvania about antisemitism on their campuses, and as campus protests regarding the Israeli-Palestinian conflict have been met with heavy-handed responses. These episodes serve as loud warning shots to colleges and universities across the country. Academic freedom and freedom of speech, core tenets of a liberal education, are at risk. Can higher education step up and meet the moment? Collectively, contributors to this volume, who come from a broad range of institutions, experiences, and perspectives, provide critical research and analyses as well as innovative approaches for how higher education can fulfill its public role and contribute to building the democratic societies we need.

Higher Education in the United States James J. F. Forest, Kevin Kinser, 2002-06-21. Surveys the changing landscape of American higher education from academic freedom to virtual universities, from campus crime to Pell Grants, from the Student Privacy Act to student diversity. In the years following World War II, college and university enrollment doubled, students revolted, faculty unionized, and community colleges evolved. Tuition and technology soared, as did the number of first-generation, minority, and women students. These changes radically transformed the American system of postsecondary education. Today, that system is in trouble. Its aging professoriate prepares for retirement, but low academic salaries can no longer attract the best minds to replace them. A flood of corporate dollars funds commercial research, but money for basic research, the seedbed of American scientific preeminence, has dried up. Colleges and universities also face heated competition with for-profit education providers for students, faculty, and external financial support, along with the costs of providing remedial education to growing numbers of students who are unprepared for postsecondary education. Higher Education in the United States provides a comprehensive analysis of these issues and others that scholars and practitioners of higher education study, discuss, and grapple with on a daily basis.
