INNOVATION, ENTREPRENEURSHIP AND ECONOMIC DEVELOPMENT Prof (Dr.) Raj Kumar Singh & Dr. Bhavana Singh, 2023-04-04 Economic growth involves sustained and equitable gains in per capita income as well as structural shifts in an economy's product mix towards better value added commodities and more effective manufacturing processes Entrepreneurs can promote the reallocation of resources from less productive to more productive uses which will help the economy grow Entrepreneurs frequently act as innovators introducing novel products and technologies to the market developing fresh products methods and concepts as well as commercializing new information But it's a common misconception that innovation by businesspeople has less of an impact on growth in low income developing nations than it does in more developed ones This book's goal is to offer fresh viewpoints on three issues related to innovation and entrepreneurship in developing nations What effect does innovation have on growth This book is an edited book where authors have contributed their original research papers

A Process-Centric View on Predictive Maintenance and Fleet Prognostics. Development of a Process Reference Model and a Development Method for Fleet Prognostics to Guide Predictive Maintenance Projects Carolin Wagner, 2022-08-12 In the age of digitalization and the fourth industrial revolution predictive maintenance is becoming increasingly important as a proactive maintenance type Despite the economic benefits that predictive maintenance generates for companies its practical application is still in its early stages This is often due to two prevailing challenges First there is a deficiency of knowledge about predictive maintenance and its concrete realization Second there is a lack of high quality and rich data of historical machine failures To increase the representativeness of data from several similar machines i.e. a fleet should be considered To foster the effective implementation of predictive maintenance supportive guidance in the realization of a predictive maintenance project is needed For this reason this dissertation presents a process reference model and a development method for fleet prognostics The process reference model describes a comprehensive and application independent view of the complete predictive maintenance process The model is supplemented by the fleet prognostic development method To address the specific characteristics of the fleet a systematic process is depicted which provides a means to assess the heterogeneity of the fleet from a data driven perspective and simplifies the design of an algorithm considering fleet data Finally the applicability and value of the research results are demonstrated with three industrial cases

Computer Supported Cooperative Work in Design I Weiming Shen, Zongkai Lin, Jean-Paul A. Barthès, Tangqiu Li, 2005-11-04 The design of complex artifacts and systems requires the cooperation of multidisciplinary design teams using multiple commercial and non commercial engineering tools such as CAD tools modeling simulation and optimization software engineering databases and knowledge based systems Individuals or individual groups of multidisciplinary design teams usually work in parallel and

separately with various engineering tools which are located on different sites often for quite a long time At any moment individual members may be working on different versions of a design or viewing the design from various perspectives at different levels of detail In order to meet these requirements it is necessary to have effective and efficient collaborative design environments These environments should not only automate individual tasks in the manner of traditional computer aided engineering tools but also enable individual members to share information collaborate and coordinate their activities within the context of a design project CSCW computer supported cooperative work in design is concerned with the development of such environments      *Franchising* CSIS Counselor and Trustee Harold Brown, PhD, Harold Brown, Ebin Sandler, 2013-12-30 Provides agreements and completed pre sale disclosure statements It includes the transition from the former FTC pre sale disclosure regulations to the new FTC Franchise Rule and NASAA Guidelines      *Smart Services Summit* Jürg Meierhofer, Shaun West, Thierry Buecheler, 2023-08-29 This book presents up to date descriptions of smart services innovations in industry supported by new scientific approaches It summarizes the outcomes of the fourth Smart Services Summit held in Zurich in October 2022 which primarily focused on how smart services can promote sustainability As smart services accelerate new technologies can be leveraged to create new value propositions and business models that deliver tangible sustainability outcomes This book addresses social economic and environmental aspects of sustainability in connection with new technologies It includes contributions on how the quality and value of services are affected by digital technologies how collaboration affects shared value creation and how organizations can be enabled to drive digital value creation Given its scope the book represents an indispensable guide for practitioners and advanced students alike      **The 1984 Guide to the Evaluation of Educational Experiences in the Armed Services** American Council on Education, 1984
