standardisation in its regulatory approach to improve the free movement of goods. Such a New Approach does not exist for services. Nevertheless, a significant number of European services standards have been made. This book focuses on European standardisation of services and its impact on private law. Two services sectors are analysed: the healthcare sector and the tourism sector. The core chapters of the book contain a number of case studies based on empirical research in these sectors. The first part discusses how European services standards interact with existing legal regulation at the European and national level. It is shown that at the European level there is no clear legal framework in which European services standards are adopted. This has an impact on their application in private law, which is the main theme of the second part of the book. Moreover, there is a real risk that European services standards create obstacles to free movement. This will prevent their successful application in private law.

The Evolution of EU Law Paul Craig, Gráinne De Búrca, 2021. This last decade has been particularly turbulent for the EU. Beset by crises: the financial crisis, the rule of law crisis, the migration crisis, Brexit, and the pandemic, European Law has had to adapt and change in a way not previously seen. First published in 1999, the goal then was to reflect on the important developments that had been made since the creation of the EEC. That goal has not changed. From EU Administrative Law through to the Regulation of Network Industries, each chapter in this seminal work assesses the legal and political forces that have shaped the evolution of EU law. With new chapters covering the Rule of Law, Judicial Reform, Brexit, Constitutional and Legal Theory, Refugee and Asylum law, and Data Governance, this third edition of *The Evolution of EU Law* is a must-read for any student or academic of EU law.

EU Law Paul Craig, Gráinne De Búrca, 2015. This work provides a clear and insightful analysis of European law, accompanied by carefully chosen extracts from a range of materials.

Health Care and EU Law Johan Willem van de Gronden, Erika Szyszczak, Ulla Neergaard, Markus Krajewski, 2011-05-18. The EU has only limited competence to regulate national health care systems, but recent developments have shown that health care is not immune from the effects of EU law. As Member States have increasingly experimented with new forms of funding and the delivery of health care and social welfare services, health care issues have not escaped scrutiny from the EU internal market and from competition and procurement rules. The market-oriented EU rules now affect these national experiments as patients and health care providers turn to EU law to assert certain rights. The recent debates on the draft Directive on Patients Rights further underline the importance but also the difficulty and controversy of allowing EU law to regulate health care. The topicality of the range of issues related to health care and EU law was addressed in October 2009 at a conference held in Nijmegen, The Netherlands. The present volume contains inter alia the proceedings of this conference and invited essays. This volume follows the publication of *The Changing Legal Framework for Services of General Interest in Europe: Between Competition and Solidarity* (Krajewski M et al eds 2009, T M C Asser Press, The Hague) and launches a new series: *Legal Issues of Services of General Interest*. The aim of the series is to sketch the framework for services of general interest in the EU and to explore the issues raised by developments related to these services. The book is

compulsory reading for everyone who is engaged in issues relating to health care and EU law Johan van de Gronden is Professor of European Law at the Law Faculty of the Radboud University Nijmegen the Netherlands Erika Szyszczak is a Jean Monnet Professor of European Law ad personam and Professor of European Competition and Labour Law at the University of Leicester UK Ulla Neergaard is Professor of EU law at the Law Faculty of the University of Copenhagen Denmark Markus Krajewski is Professor of International Public Law Faculty of Law University of Erlangen Nuremberg Germany

Public Services in EU Trade and Investment Agreements Luigi F. Pedreschi, 2020-05-30 This book examines the impact of EU trade and investment agreements on public services a topic that continues to be the subject of heated political debate It surveys a broad range of EU agreements and provides a comprehensive up to date analysis of the rules and disciplines of such agreements that can affect the provision of public services Going beyond the existing literature it asks whether the treatment of public services in EU trade and investment agreements is coherent with the special status of public services in internal EU law specifically internal market law while also challenging the notion that trade and investment agreements automatically pose serious threats to public services The book will be of keen interest to legal scholars and students specialising in EU and or international economic law together with national and international policy makers Luigi F
