**European Standardisation of Services and its Impact on Private Law** Barend Van Leeuwen, 2017-02-23 With the New Approach the EU has incorporated European standardisation in its regulatory approach to improve the free movement of goods Such a New Approach does not exist for services Nevertheless a significant number of European services standards have been made This book focuses on European standardisation of services and its impact on private law Two services sectors are analysed the healthcare sector and the tourism sector The core chapters of the book contain a number of case studies based on empirical research in these sectors The first part discusses how European services standards interact with existing legal regulation at the European and national level It is shown that at the European level there is no clear legal framework in which European services standards are adopted This has an impact on their application in private law which is the main theme of the second part of the book Moreover there is a real risk that European services standards create obstacles to free movement This will prevent their successful application in private law *Health Care and EU Law* Johan Willem van de Gronden, Erika Szyszczak, Ulla Neergaard, Markus Krajewski, 2011-05-18 The EU has only limited competence to regulate national health care systems but recent developments have shown that health care is not immune from the effects of EU law As Member States have increasingly experimented with new forms of funding and the delivery of health care and social welfare services health care issues have not escaped scrutiny from the EU internal market and from competition and procurement rules The market oriented EU rules now affect these national experiments as patients and health care providers turn to EU law to assert certain rights The recent debates on the draft Directive on Patients Rights further underline the importance but also the difficulty and controversy of allowing EU law to regulate health care The topicality of the range of issues related to health care and EU law was addressed in October 2009 at a conference held in Nijmegen The Netherlands The present volume contains inter alia the proceedings of this conference and invited essays This volume follows the publication of *The Changing Legal Framework for Services of General Interest in Europe Between Competition and Solidarity* Krajewski M et al eds 2009 T M C Asser Press The Hague and launches a new series *Legal Issues of Services of General Interest* The aim of the series is to sketch the framework for services of general interest in the EU and to explore the issues raised by developments related to these services The book is compulsory reading for everyone who is engaged in issues relating to health care and EU law Johan van de Gronden is Professor of European Law at the Law Faculty of the Radboud University Nijmegen the Netherlands Erika Szyszczak is a Jean Monnet Professor of European Law ad personam and Professor of European Competition and Labour Law at the University of Leicester UK Ulla Neergaard is Professor of EU law at the Law Faculty of the University of Copenhagen Denmark Markus Krajewski is Professor of International Public Law Faculty of Law University of Erlangen Nuremberg Germany **Understanding EU Law** Norbert Reich, Christopher Goddard, Ksenija Vasiljeva, 2003 This unique book is not an introduction to European Law It provides an understanding of methodology objectives and principles of EU law It tries to explain its legal peculiarities particularly with regard to the
