Serving The Human Family The Holy See At The Major United Nations:

A Living Tradition A. Alexander Stummvoll, 2018-04-17 On the world stage the Holy See acts as both a religious and a political actor As the head of over 1.2 billion Catholics the pope is a widely recognized spiritual authority Politically the Holy See maintains diplomatic relations with other states and actively participates in international organizations such as the United Nations A Living Tradition examines the normative sources and the dilemmas underpinning papal diplomacy It does so in the context of four diverse case studies the Vietnam War John Paul II and Poland the United Nations conferences in Cairo and Beijing and the global campaign for debt relief While Catholic Social Doctrine offers a principled basis for Holy See diplomacy living out religious norms is more complicated than simply preaching them especially in global politics This process leads to political and ethical policy dilemmas as well as to changing patterns of conflict and cooperation with other international actors By drawing upon unpublished archival documents from five countries A Living Tradition offers a fresh and interdisciplinary view of both Catholic Social Doctrine and papal diplomacy that explores a key issue of the religious resurgence we are experiencing in the twenty first century how religious traditions function in global politics **Religious NGOs at the United Nations** Claudia Baumgart-Ochse, Klaus Dieter Wolf, 2018-06-27 Examining the involvement of religious NGOs RNGOs at the UN this book explores whether they polarize political debates at the UN or facilitate agreement on policy issues The number of RNGOs engaging with the United Nations UN has grown considerably in recent years RNGOs maintain relations with various UN agencies member state missions and other NGOs and participate in UN conferences and events This volume includes both a quantitative overview of RNGOs at the UN and qualitative analyses of specific policy issues such as international development climate change business and human rights sexual and reproductive health and rights international criminal justice defamation of religions and intercultural dialogue and cooperation The contributions explore the factors that explain the RNGOs normative positions and actions and scrutinise the assumption that religions introduce non negotiable principles into political debate and decision making that inevitably lead to conflict and division Presenting original research on RNGOs and issues of global public policy this volume will be relevant to both researchers and policy makers in the fields of religion and international relations the United Nations and non state actors and global governance Serving the Human Family Carl J. Marucci, 1997 **Perempuan & hukum**, 2006 Gender equality for women in legal instruments as implementation of Convention on the Elimination of All Forms of Discrimination against Women in Indonesian legal system **The UN Secretary-General and Moral Authority** Kent J. Kille, 2007-10-29 Once described by Trygve Lie as the most impossible job on earth the position of UN Secretary General is as frustratingly constrained as it is prestigious The Secretary General's ability to influence global affairs often depends on how the international community regards his moral authority In relation to such moral authority past office holders have drawn on their own ethics and religious backgrounds as diverse as Lutheranism Catholicism Buddhism and Coptic Christianity to guide

the role that they played in addressing the UN's goals in the international arena such as the maintenance of international peace and security and the promotion of human rights. In *The UN Secretary General and Moral Authority* contributors provide case studies of all seven former secretaries general establishing a much needed comparative survey of each office holder's personal religious and moral values. From Trygve Lie's forbearance during the UN's turbulent formative years to the Nobel committee's awarding Kofi Annan and the United Nations the prize for peace in 2001 the case studies all follow the same format first detailing the environmental and experiential factors that forged these men's ethical frameworks then analyzing how their inner code engaged with the duties of office and the global events particular to their terms. Balanced and unbiased in its approach this study provides valuable insight into how religious and moral leadership functions in the realm of international relations and how the promotion of ethical values works to diffuse international tensions and improve the quality of human life around the world.

The Foreign Policy Discourse in the United Kingdom and the United States in the "New World Order" Lori Maguire, 2009-01-14 The goal of this book is to examine some of the major foreign policy debates in the United Kingdom and the United States in the period from 1992 to 2008 from the end of the Cold War and the aftermath of the first Gulf War to the 2008 American presidential election. The first President Bush spoke in 1991 of a new world order which seemed to mean an American hegemony. The United States was now the world's only superpower although a superpower afflicted with weaknesses especially economic ones. But by 2008 the new world order did not seem so new or so strongly American. The period saw the terrorist attacks against the U.S. of 11 September 2001 military problems for the superpower in Afghanistan and Iraq and by the summer of 2008 near economic collapse. In all of these developments Britain shared to a lesser or a greater extent. It is hoped that this book will shed an important light both on each nation and on the so called special relationship between the two. Furthermore this book is also not specifically concerned with policy or how policy is made but with the debate around policy and the rhetoric used to present different points of view. The Special Relationship between the US and Britain remains an enigmatic ever changing but still very powerful factor in world politics. As an examination of their foreign policy discourses reveals from the perspective of culture and values few Western countries are as different as the United Kingdom and the US. With very few exceptions the foreign policies of Gladstone and Tony Blair and Churchillian rhetoric unmatched by his supremely realpolitical politics. British governments abhor talking about values and ideals. The British cultural peculiarity is to dismiss ideology and values as packaging only to be caught by surprise time and again that they cannot do business with Herr Hitler or that people kill each other for their values religions constructed identities and ideologies. Most American governments by contrast have had ideological and moral crusades embroidered on their banners in their foreign policy. There is a convergence with Britain when both proclaim that all they are doing is in their self interest but the Americans unashamedly assume that what is good for America is good for the world while the British discourse with the UK's decline since 1945 rarely goes that far. As an analysis of their discourses reveals the Special

Relationship is thus clearly founded on something either deeper or more superficial than shared culture or values this volume sheds light on this surprising fact in most illuminating ways and Lori Maguire's achievement in bringing together these examinations is praiseworthy indeed Prof Beatrice Heuser University of Reading

The Pope, the Public, and International Relations Mariano P. Barbato, 2020-06-30 This edited volume engages a long standing religious power the Holy See to discuss the impact of the structural and postsecular transformations of international relations through the emergence of a global and digital public sphere Despite the legal construction that enables the separation of the Holy See as a distinct legal entity it is also an instrument for the papacy to represent externally and regulate internally the global and transnational Catholic Church The Holy See is also the tool that enables the papacy to address a transnational or a global public beyond Catholic adherence most prominently through journeys that are often at the same time state visits and pastoral journeys Instead of understanding these hybrid roles as an irregular exemption the contributions of the book argue that the Holy See should be seen as a certainly special but nevertheless quite normal actor of international and public diplomacy

God's Invisible Hand Francis Cardinal Arinze, 2011-02-03 Cardinal Arinze tells his amazing life story and how he was guided by God's invisible hand through many challenging and dangerous moments to become one of the world's leading Catholic prelates and one of the top candidates for the Papacy in the recent conclave In the style of an interview Arinze responds to a host of wide ranging questions from journalist Gerard O Connell Arinze talks about his life and experiences growing up in Nigeria becoming the world's youngest Bishop being on the run during the Nigerian civil war and as an outspoken Cardinal who led the way for inter religious dialogue with non Christian religions particularly Muslims Buddhists and Hindus The charismatic Cardinal also tells about his years of working inside the Vatican under three different Popes and of his close relationship with John Paul II Arinze and John Paul worked together on various important projects and documents that have had an impact on the Church and the African culture

The Heaviest Blow Patrick A. Smythe, 2004 The author examines responses within the international Catholic community to the annexation and rule of East Timor by Indonesia from

1975 1999 Theoretically the Catholic Church is committed to prioritise the needs of the poorest and weakest members of the human family but the evidence put forward here reveals that there were significant shortcomings in its reaction to the plight of the East Timorese Yet the Church also played a crucial role in their eventual achievement of independent nationhood This study scrutinises the disposition of the Catholic community in several countries closely involved in the issue of East Timor Indonesia Portugal Australia Japan Britain the United States and of the Vatican and calls upon the Church to live up to its own social doctrine Bishop Carlos Belo Apostolic Administrator emeritus of the Diocese of Dili East Timor comments in an Afterword to the book This excellent study carries concrete lessons for the global community as we face the many challenges of the new millennium In essence how can we best help our brothers and sisters who often suffer in silence This book helps to answer that question **Africa is Not a Dark Continent** Tangaza College. Institute of Social Ministry. Congress,2005

The Vatican in the Family of Nations Silvano M. Tomasi,2017-08-17 Based on a collection of statements delivered between 2003 and 2015 The Vatican in the Family of Nations provides a new understanding of the social doctrine and actions of the Catholic Church in international law and relations These statements address contemporary issues that stir deep emotional responses from disarmament migrations trade and intellectual property to discrimination and freedom of conscience This volume disputes irrational fears of newcomers offers reasonable adaptations to allow for peaceful coexistence and insists on investigating the root causes of today s conflicts and displacements As an independent voice the Holy See offers these reflections with the view of prioritizing the common good before confessional interests even when their aims and ends converge In this sense this book is a unique collection in international literature on the intersection of theology human rights and social issues which opens courageous new paths for the future **The Holy See, Social Justice, and International Trade Law** Rev. Dr. Alphonsus Ihuoma,2018-06-30 The Holy See Social Justice and International Trade Law Assessing the Social Mission of the Catholic Church in the GATT WTO System highlights the uniqueness of the Catholic Church as the foremost institution in the world that can confront issues in world trade that affect the common good The distinguished author Rev Dr Alphonsus Ihuoma provides a superbly broad and deep examination that is both scholarly and practical of the mission of the Catholic Church in the world as one that centers on the temporal and eternal needs of humanity His discussion treats thoughtfully the mediatory role of the church in world affairs and argues persuasively that the church has been engaged in this role since its very beginning even before nations embraced organized politics two thousand years ago This remarkable book is a great tool for any reader seeking to know more about the unique position of the church in world affairs especially in the GATT WTO system The book rightly lauds the churchs achievements in history But it equally and rightly argues that the church must do more to address present challenges in the world trading system Readers will be enlightened by the treatment of the failures of the GATT WTO system in pursuing the objectives for which it was established the churchs efforts to pursue vital related objectives and the need for her to do more Perempuan
