surprising alliances of the 19th century and the shared international causes of the 20th Whereas Spaniards feared or admired Britain for its successful political and fiscal system the book convincingly argues Britons romanticised Iberia for its supposed failures It ultimately concludes that British campaigns in the 1700s and 1800s established a Romantic Spain in memoir culture which the 20th century gradually dissolved in the ideological cauldron of the 1930s and the advent of mass tourism
