## **Sevastopol V Istorii Krymskoi Voyny:**

*Crimea in War and Transformation* Mara Kozelsky, 2019 *Crimea in War and Transformation* is the first exploration of the civilian experience during the Crimean War to appear in English Beginning with Russian mobilization in 1852 and lasting through demobilization in 1857 the conflict devastated the peoples and landscapes of Crimea as well as the volatile southern borderlands of the Russian Empire leading to the largest war recovery program yet undertaken by the Russian government

The Routledge Handbook of the Crimean War Candan Badem, 2021-09-14 *The Routledge Handbook of the Crimean War* is an edited collection of articles on the various aspects of the Crimean War written by distinguished historians from various countries Part I focuses on diplomatic military and regional perspectives Part II includes contributions on social cultural and international issues around the war All contributions are based upon findings of the latest research While not pretending to be an exhaustive encyclopaedia of this first modern war the present volume captures the most important topics and the least researched areas in the historiography of the war The book incorporates new approaches in national historiographies to the war and is intended to be the most up to date reference book on the subject Chapters are devoted to each of the belligerent powers and to other peripheral states that were involved in one way or another in the war The volume also gives more attention to the Ottoman Empire which is generally neglected in European books on the war Both the general public and students of history will find the book useful balanced and up to date

Russian-Ottoman Borderlands Lucien J. Frary, Mara Kozelsky, 2014-08-12 During the nineteenth century as violence population dislocations and rebellions unfolded in the borderlands between the Russian and Ottoman Empires European and Russian diplomats debated the Eastern Question or What should be done about the Ottoman Empire *Russian Ottoman Borderlands* brings together an international group of scholars to show that the Eastern Question was not just one but many questions that varied tremendously from one historical actor and moment to the next The Eastern Question or from the Ottoman perspective the Western Question became the predominant subject of international affairs until the end of the First World War Its legacy continues to resonate in the Balkans the Black Sea region and the Caucasus today The contributors address ethnicity religion popular attitudes violence dislocation and mass migration economic rivalry and great power diplomacy Through a variety of fresh approaches they examine the consequences of the Eastern Question in the lives of those peoples it most affected the millions living in the Russian and Ottoman Empires and the borderlands in between

The Battle of the Alma, 1854 Ian Fletcher, Natalia Ishchenko, 2009-04-21 On 20 September 1854 the combined British and French armies confronted the Russians at the river Alma in the critical opening encounter of the Crimean War This was the first major battle the British had fought on European soil since Waterloo almost 40 years before In this compelling and meticulously researched study Ian Fletcher and Natalia Ishchenko reconstruct the battle in vivid detail using many rare and unpublished eyewitness accounts from all sides English French and Russian Their groundbreaking work promises to be the definitive history of this extraordinary clash of arms for

many years to come It also gives a fascinating insight into military thinking and organization in the 1850s midway between the end of the Napoleonic era and the outbreak of the Great War      **The Russian Imperial Army 1796-1917** Roger Reese, 2017-11-30 The majority of the articles assembled in this volume reflect social historical methodology which is used to show the relationship between the tsarist army and society while focusing on the Russian historical experience In each case whether it be a study of the soldiers as peasants alcoholism the nationalities officers military justice social and legal reform and mutiny or revolution the inescapable conclusion arises that the army was at all times a reflection of the many social problems aspirations or political thought of the broader imperial Russian civil society In short this anthology treats the Russian military as a window on the symbiotic triangular relationship between army state and society      *Christianizing Crimea* Mara Kozelsky, 2010 In nineteenth century Russia religious culture permeated politics at the highest levels and Orthodox Christian groups including refugees from the Russo Ottoman wars as well as the church itself influenced Russian domestic and foreign policy Likewise Russian policy with the Ottoman Empire inspired the creation of a holy place in ethnically and religiously diverse Crimea Looking to the monastic state of Mount Athos in Greece Orthodox Church authorities in the mid 1800s attempted to create a monastic community in Crimea which they called Russian Athos The Crimean War catalyzed the Russian Christianization that had begun decades earlier and decimated Crimea's Muslim population Wartime propaganda portrayed Crimea as the cradle of Russian Christianity and by the end of the war the Black Sea Region acquired a Christian identity The same interplay of religion politics and culture has found new ground in Crimea today as its sacred monuments and ruins lie vulnerable to abuse by nationalist groups sparring over the land Christianizing Crimea is the first English language work to analyze the Christian renewal in Crimea Drawing on archives in Odessa Simferopol and St Petersburg that to date have remained untapped by Western scholars Kozelsky provides both a fascinating case study of past and present religious nationalism in Eastern Europe and an examination of the political conflicts and compromises endemic to holy places She explores the diverse strategies of church expansion the importance of Byzantine history and the Greek population the assimilation of local pagan and Tatar traditions into sacred narratives the crafting of Russian identity through print culture and Crimea's re-Christianizing in the post Soviet era Kozelsky's unique approach joins the fields of contemporary history religion and archaeology to show how Crimea has been reshaped as a holy place Christianizing Crimea will appeal to both scholars and general readers who are interested in past and current religious and political conflicts      *Russia in the Age of Reaction and Reform 1801-1881* David Saunders, 2014-07-30 This eagerly awaited study of Russia under Alexander I Nicholas I and Alexander II the Russia of War and Peace and Anna Karenina brings the series near to completion David Saunders examines Russia's failure to adapt to the era of reform and democracy ushered into the rest of Europe by the French Revolution Why despite so much effort did it fail This is a superb book both as a portrait of an age and as a piece of sustained historical analysis      **The History of International Law in Russia, 1647-1917**
