Writers' Handbook 2024 J. Paul Dyson, 2023-08-01 The 2024 edition of firstwriter.com's annual directory for writers is the perfect book for anyone searching for literary agents, book publishers or magazines. It contains over 1,500 listings including revised and updated listings from the 2023 edition and 400 brand new entries. Finding the information you need is now quicker and easier than ever before with multiple tables and a detailed index and unique paragraph numbers to help you get to the listings you're looking for. The variety of tables helps you navigate the listings in different ways and includes a Table of Authors which lists over 5,000 authors and tells you who represents them or who publishes them or both. The number of genres in the index has expanded to over 900. So for example, while there was only one option for Romance in previous editions, you can now narrow this down to Historical Romance, Fantasy Romance, Supernatural, Paranormal Romance, Contemporary Romance, Diverse Romance, Erotic Romance, Feminist Romance, Christian Romance or even Amish Romance. The new edition includes Over 650 literary agents and agencies, Over 450 magazines and Over 600 publishers that don't charge fees. International markets become more accessible than ever with listings that cover both the main publishing centres of New York and London as well as markets in other English speaking countries. With more and more agents, publishers and magazines accepting submissions online, this international outlook is now more important than ever. There are no adverts, no advertorials and no obscure listings padding out hundreds of pages. By including only what's important to writers, contact details for literary agents, publishers and magazines, this directory is able to provide more listings than its competitors at a lower price. The book also allows you to create a subscription to the firstwriter.com website for free until 2025. This means you can get free access to the firstwriter.com website where you can find even more listings and also benefit from other features such as advanced searches, daily email updates, feedback from users about the markets featured, saved searches, competitions, listings, searchable personal notes and more. I know firsthand how lonely and dispiriting trying to find an agent and publisher can be. So it's great to find a resource like firstwriter.com that provides contacts, advice and encouragement to aspiring writers. I've been recommending it for years now. 7 Deadly Scenarios Andrew Krepinevich, 2010-08-31 A global pandemic finds millions swarming across the U.S. border. Major American cities are leveled by black market nukes. China's growing civil unrest ignites a global showdown. Pakistan's collapse leads to a hunt for its nuclear weapons. What if the worst that could happen actually happens? How will we respond? Are we prepared? These are the questions that Andrew F. Krepinevich asks and answers in this timely and often chilling book. As a military expert and consultant, Krepinevich must think the unthinkable based on the latest intelligence and geopolitical trends and devise a response in the event our worst nightmares become reality. As riveting as a thriller, *7 Deadly Scenarios* reveals the forces, both overt and covert, that are in play: the real ambitions of world powers, terrorist groups and rogue states, and the actions and counteractions both our enemies and our allies can be expected to take and what we must do to prepare before it's too late. Capital Returns Edward Chancellor, 2016-05-04

We live in an age of serial asset bubbles and spectacular busts. Economists, policymakers, central bankers and most people in the financial world have been blindsided by these busts while investors have lost trillions. Economists argue that bubbles can only be spotted after they burst and that market moves are unpredictable. Yet Marathon Asset Management, a London-based investment firm managing over 50 billion of assets, has developed a relatively simple method for identifying and potentially avoiding them: follow the money or rather the trail of investment bubbles. Whether they affect a whole economy or merely a single industry, bubbles tend to attract a splurge of capital spending. Excessive investment drives down returns and leads inexorably to a bust. This was the case with both the technology bubble at the turn of the century and the US housing bubble which followed shortly after. More recently, vast sums have been invested in mining and energy. From an investor's perspective, the trick is to avoid investing in sectors or markets where investment spending is unduly elevated and competition is fierce and to put one's money to work where capital expenditure is depressed, competitive conditions are more favourable and as a result prospective investment returns are higher. This capital cycle strategy encourages investors to eschew the simple growth and value dichotomy and identify firms that can deliver superior returns either because capital has been taken out of an industry or because the business has strong barriers to entry, what Warren Buffett refers to as a moat. Some of Marathon's most successful investments have come from obscure, sometimes niche operations whose businesses are protected from the destructive forces of the capital cycle. *Capital Returns* is a comprehensive introduction to the theory and practical implementation of the capital cycle approach to investment. Edited and with an introduction by Edward Chancellor, the book brings together 60 of the most insightful reports written between 2002 and 2014 by Marathon portfolio managers. *Capital Returns* provides key insights into the capital cycle strategy, all supported with real-life examples from global brewers to the semiconductor industry, showing how this approach can be usefully applied to different industry conditions and how prior to 2008 it helped protect assets from financial catastrophe. This book will be a welcome reference for serious investors who are looking to maximise portfolio returns over the long run.
