**The A to Z of Fantasy Literature** Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites

**Encyclopedia of Architectural and Engineering Feats** Christine Garnaut, 2001-12-06 Encyclopedia of Architectural and Engineering Feats presents more than 200 achievements in architecture and structural engineering in all the inhabited continents from prehistory to the present An architect once described the built environment as the manifestation of the human spirit in stone wood and steel In this new volume readers

can explore the most innovative and magnificent architectural expressions of the human spirit from pre history to the present from all parts of the world Readers can visit the Acropolis and Chartres cathedral along with less familiar places like the ruins of Great Zimbabwe once the greatest city in sub Saharan Africa and China s 71 meter high 1 200 year old Grand Buddha carved from stone They ll learn the secrets behind audacious engineering feats like the Panama Canal the U S interstate highway system and the Deltaworks in the Netherlands They will discover that many of these awe inspiring projects were not the work of trained architects and engineers but of underdeveloped communities where unified will tight social organization and shared commitment to a spiritual ideal were more important than the inventions of the Industrial Age
