## **Seven Golden Miles The Fantastic Story Of Blackpool:**

**Seven Golden Miles** Kathleen Eyre,1959      Seven Golden Miles Kathleen Eyre,1961      *Lancashire's Seaside Piers* Martin Easdown,2009-11-19 In this a companion volume to his definitive history of Yorkshires pleasure piers Martin Easdown turns his expert attention westward to the Lancashire coast His highly illustrated survey of the piers constructed at famous resorts like Blackpool Morecambe Southport and St Annes on Sea celebrates structures that are among the most exuberant and evocative of the Victorian age Each of these historic piers has its own character and story yet all of them represent the optimistic style of the British seaside resort at the peak of its popularity In those days the Lancashire coast and Blackpool in particular became the principal holiday destination for the workers of the nearby industrial towns during their Wakes Weeks The piers that survive are fascinating relics of that lost age In this meticulously researched account Martin Easdown describes how these extraordinary buildings came to be constructed how they were designed and financed how they were used and how hazards beset them fire storm ship collision war damage and ever present threat of insolvency His entertaining book reveals and records a neglected aspect of the history of Lancashire and the northwest      *County Borough Elections in England and Wales, 1919-1938: A Comparative Analysis* Sam Davies,Bob Morley,2016-12-05 These volumes provide an essential comprehensive work of reference for the annual municipal elections that took place each November in the 83 County Boroughs of England and Wales between 1919 and 1938 They also provide an extensive and detailed analysis of municipal politics in the same period both in terms of the individual boroughs and of aggregate patterns of political behaviour Being annual these local election results give the clearest and most authoritative record of how political opinion changed between general elections especially useful for research into the longer gaps such as 1924 29 and 1935 45 or crisis periods such as 1929 31 They also illuminate the impact of fringe parties such as the Communist Party and the British Union of Fascists and also such questions as the role of women in politics the significance of religious and ethnic differentiation and the connection between occupational and class divisions and party allegiance Analysis at the ward level is particularly useful for socio spatial studies A major work of reference *County Borough Elections in England and Wales 1919 1938* is indispensable for university libraries and local and national record offices Each volume has approximately 700 pages

**Ferris Wheels** Norman D. Anderson,1992 Anderson North Carolina State University is clearly obsessed with the Ferris Wheel He describes the conception and construction of the first example at the World s Columbian Exposition in Chicago 1893 Imitators and variations are described and illustrated with period photos and patent drawings An appendix contains 115 pages of patent drawings A charming unique book that will win no graphics awards Paper edition unseen 29 95 Annotation copyright by Book News Inc Portland OR      **The Seaside, Health and the Environment in England and Wales since 1800** John Hassan,2016-12-05 The seaside has always held a special position in British history as a place of rest relaxation and recuperation Over the last 200 years many have made their way to the coast attracted by the long sunshine

hours the clean ozone charged air and the opportunities for bathing in and even drinking sea water Although the early health resort ideal began to give way to more pleasure orientated themes in the nineteenth century the seaside holiday was still regarded by many as a wholesome and invigorating break from inland urban life well into the twentieth century Yet with ever increasing numbers of visitors and rising levels of coastal pollution this was by no means a forgone conclusion The Seaside Health and the Environment in England and Wales since 1800 explores the ways in which English seaside resorts continually reinvented themselves to take account of contemporary trends in popular leisure and maintain their hold on the public's imagination Particular account is paid to the interwar years when new obsessions with outdoor activities such as sunbathing and tanning were purposefully adopted by the industry to define the modern image of the resort holiday For these and other reasons the seaside holiday reached new peaks of popularity in the 1930s and 1950s yet this very success placed enormous pressures on the environmental amenities that people came to enjoy As this work shows environmental stresses were manifold particularly pollution of the resorts prime assets their beaches As such serious questions are raised concerning why it took such a long time for a determined effort to be made to reverse beach pollution and the lessons to be learned regarding the impact of negative images of the coast as a zone of danger and infection **Seven Golden Miles** K. Eyre, 1975
