Seven Jersey Murders:

Seven Jersey Murders Gerald Tomlinson, 2003 *Seven Jersey Murders* covers seven highly publicized homicide cases in New Jersey between the years 1900 and 1921. It begins with the tragic death of a seventeen year old Paterson mill girl Jennie Bosschieter who was drugged and raped by four young men about town. It then describes the shooting of Mary Bevans a farmer's wife in Peters Valley in 1903 and next the bathtub drowning of beautiful Ocey Snead in East Orange in 1909. The last two cases the slayings of John V Piper in 1917 in New Brunswick and Janette Lawrence in 1921 in Madison are officially unsolved. Taken together the seven cases comprise a vivid part of the social history of New Jersey in the early 20th century.

Mysticism in Newburyport Peter James Ford, 2023-02-19 *MYSTICISM IN NEWBURYPORT* is a seven book series revealing ancient secrets from masters of all cultures along with modern day breakthroughs by scientists and quantum physicists of our times. These tales began flowing after Peter's powerful spiritual awakening in Newburyport Massachusetts. Newburyport is a quaint little historic seaport on the coast heading towards New Hampshire. Peter had been sober in the 12 step recovery program for many years and had recovered from his alcoholism. Peter's love of Nature had brought him to the Newburyport area. This area is rich with Nature's treasures Native American Heritage and many tales from the tall cargo ships of olden days. High street was lined with homes of these Sea Captains. Peter's awakening had given him new eyes and new highly evolved senses. Peter was to have powerful past lives experience with his Mystery Woman guide named Layne. Layne was a mystic that would tell people things about themselves that there was no way she could know. She would look you in the eyes and tell you your deepest secrets. She also knew about the Earth's electromagnetic grids and helped Peter understand what he was experiencing in Newburyport. Peter's new heightened senses could feel the electromagnet flow of energy and the convergence right below Market Square in Newburyport. Market Square was one of the crossroads for these powerful electromagnet energies that gives life to our planet. Peter was to share the secrets that were revealed to him in his writings.

The Selected Papers of Elizabeth Cady Stanton and Susan B. Anthony Ann D. Gordon, 2013-01-10 The hush of the title comes suddenly when first Elizabeth Cady Stanton dies on October 26 1902 and three years later Susan B Anthony dies on March 13 1906 It is sudden because Stanton despite near blindness and immobility wrote so intently right to the end that editors had supplies of her articles on hand to publish several months after her death It is sudden because Anthony at the age of eighty five set off for one more transcontinental trip telling a friend on the Pacific Coast it will be just as well if I come to the end on the cars or anywhere as to be at home Volume VI of this extraordinary series of selected papers is inescapably about endings death and silence But death happens here to women still in the fight An Awful Hush is about reformers trained in the school of anti slavery trying to practice their craft in the age of Jim Crow and a new American Empire It recounts new challenges to an aristocracy of sex whether among the bishops of the Episcopal church the voters of California or the trustees of the University of Rochester And it sends last messages about woman suffrage As Stanton wrote to Theodore Roosevelt on the day before she died Surely there is no greater monopoly than that of all men in denying to all women a voice in the laws they are compelled to obey With the publication of Volume VI this series is now complete **Out of the Mouths**

Spree Killers Mark Safarik, Katherine Ramsland, 2019-10-18 Spree Killers Practical Classifications for Law Enforcement and Criminology is the only exhaustive up to date analytical book on spree killers standing apart from those dedicated to mass murderers and serial killers Multicides have traditionally been categorized as double triple mass serial and spree while mass and serial have been further divided into subcategories Spree killing which involves the killing of at least three persons at two or more locations due to a precipitating incident that fuels the urge to kill remains a poorly defined concept In the United States the Federal Bureau of Investigation FBI eliminated this term from its multicide nomenclature in 2005 but the authors examination of 359 cases involving 419 spree killers from 43 countries shows that not only is there enough diversity among spree killers to form classifications similar to those devised for mass and serial but also that subtypes offer distinct utility for identification tracking and warning potential targets Spree Killers outline the designation of spree killer specifically and thoroughly In addition to looking at existing literature specific cases and the behavioral patterns it offers a fully worked up profile for the typology The behaviors and motives for spree killers align in six categories which are detailed in full The book provides unique insight for police forensic and investigative personnel into what to look for to respond to and in some cases identify and stopping certain types of spree killings
