Seven Mysteries Of Europe:

Seven Mysteries of Europe Jules Romains,1941 **Seven Mysteries of Europe ... Translated ... by Germaine Brée. [With Plates.]** Jules Romains, Germaine Brée,1941 **Seven Mysteries of Europe. Translated From the French by Germaine Bree** Jules Romains,1940 **The Seven Mysteries of Life** Guy Murchie,1999 All life in all worlds this was the object of the author s seventeen year quest for knowledge and discovery culminating in this book In a manner unmistakably his own Murchie delves into the interconnectedness of all life on the planet and of such fields as biology geology sociology mathematics and physics He offers us what the poet May Sarton has called a good book to take to a desert island as sole companion so rich is it in knowledge and insight **Margaret Storm Jameson** Jennifer Birkett,2009-03-19 From her childhood in Whitby to her long old age in Cambridge the life of Margaret Storm Jameson 1891 1986 novelist autobiographer and political activist spanned almost the whole of the twentieth century A self styled Little Englander by nature and European by nurture equally at home or out of place in the North Yorkshire moors and seascape of her birth metropolitan London rural France and the capitals of Central Europe she wrote of country cities and the exile from both with equal knowledge and sympathy Out of the changing landscapes of her present she fashioned her vision of the future The title of her autobiography Journey from the North is a simultaneous evocation and erasure of nostalgia for lost commonality and in her long life as writer and activist President of wartime PEN the association of Poets Essayist Novelists committed to the values of freedom and social justice she fought to reconcile the conflicting forms of emergent modernity Her own journey is the generic experience of twentieth century Britain and the England she urges on her contemporaries is one that shares the life and mind of Europe The present book traces the history of that shared experience It recovers through her writing the aspirations and the disappointments of the generation of socialists that was Class 1914 The soldiers returning from the front in 1918 to unemployment and the General Strike of 1926 fight in 1940 alongside Frenchmen and against Germans who are victims of the same system class conflict nationalist rivalries imperialist ambition all for Jameson have the same defining economic horizon At the end of the odyssey the stark alternatives take shape Washington or Moscow the madness of American capitalism or the oppression of Stalinist Communism Alongside the narrative of Jameson s life and the experiences as daughter wife and mother that shaped her personality and her career the book explores her concern with issues of culture and society cultural memory and cultural landscapes her fascination with aesthetic form and the relation of writing to politics her insight into the materiality of words and her persistent probing of the nature of the writing subject It draws on unpublished archive material and brings new research on neglected areas of cultural history into conjunction with literary critical analyses of Jameson s novels and studies of her journalism and essays There is an extensive Bibliography of her work **Strange Victory** Ernest R. May,2025-06-25 Ernest R May s Strange Victory presents a dramatic narrative and reinterpretation of Germany s six week campaign that swept the Wehrmacht to Paris in spring 1940 Before the Nazis killed

him for his work in the French Resistance the great historian Marc Bloch wrote a famous short book *Strange Defeat* about the treatment of his nation at the hands of an enemy the French had believed they could easily dispose of In *Strange Victory* the distinguished American historian Ernest R May asks the opposite question How was it that Hitler and his generals managed this swift conquest considering that France and its allies were superior in every measurable dimension and considering the Germans own skepticism about their chances *Strange Victory* is a riveting narrative of those six crucial weeks in the spring of 1940 weaving together the decisions made by the high commands with the welter of confused responses from exhausted and ill informed or ill advised officers in the field Why did Hitler want to turn against France at just this moment and why were his poor judgment and inadequate intelligence about the Allies nonetheless correct Why didn't France take the offensive when it might have led to victory What explains France's failure to detect and respond to Germany's attack plan It is May's contention that in the future nations might suffer strange defeats of their own if they do not learn from their predecessors mistakes in judgment

The French-German Dynamic in an Age of Conflict, 1925-1963 Elana Passman, 2025-02-04 This book investigates the radical transformation of the relationship between Germany and France neighbors whose border constituted one of the deepest fault lines of European history For generations the French and the Germans believed they were eternal enemies and this myth of primordial hatred was the lens through which they interpreted each other's every move Yet today a Franco German war is unimaginable Passman locates the reshaping of the French German dynamic in the civic organizations that made the very notion of cooperation credible After World War I and in the decades to follow Franco German associations kept calling for an end to their animus Through journals cultural exchanges events and charitable ventures activists opened up the possibility of imagining friendship with the enemy The pursuit of French German cooperation did not begin with politicians after World War II It took flight in the 1920s and persisted through decades of turmoil In anchoring the history of collaboration in a longer arc of French German cooperation Passman illuminates how entangled were the histories of 1920s rapprochement Nazi era collaborationism and postwar reconciliation This volume will appeal to scholars students and general readers interested in the histories of modern France and modern Germany European integration and peace studies
