Thomasson, 1996      **The Seven promises of a promise keeper [Japanese].** , 1997      *Promise Keepers and the New Masculinity* Rhys H. Williams, 2001-01-01 This collection of essays explores the varied sometimes contradictory and often misapprehended nature of the Promise Keepers The various media portrayals of this group do not adequately address important questions about their significance for American religious social and cultural life Is this movement anti feminist or are the men involved using their faith to become more responsible husbands and fathers Is this a political movement or just another example of an American religious revival Using interviews surveys and on site participations the scholars writing here find little truth in the popular depictions of Promise Keepers In fact they demonstrate how this group represents a variety of templates that contemporary American culture brings to religion as a general social phenomenon The volume examines the ways religion affects social movements and also puts the current interest in men and masculinity in a larger historical context of changing gender roles As a phenomenon that strikes right at the intersection of religion gender racial relations public life and national identity Promise Keepers will be provocative reading for students scholars and educated readers alike      Battleground: Religion Daniel L. Smith-Christopher, 2008-12-30 Is there a controversial issue in the contemporary world that does not involve religion Whether it's a debate over the beginning of life or on sexuality and family life or on the stewardship of humans over the environment almost all of the most contentious matters that impact today's society involve people's deeply held religious beliefs Battleground Religion helps clarify these complex topics by examining how various religious beliefs and practices impact current political social and cultural debates Each of the approximately 100 entries examines a hot button issue from war and peace to the culture wars and discusses in a balanced and objective way the points of view on these topics from all parts of the religious spectrum Students will come away from Battleground Religion with a better understanding of the issues that they will be encountering for years to come

*Research in the Social Scientific Study of Religion* Joanne Marie Greer, David O. Moberg, 2001-04 Various articles are presented covering psychological sociological and cross cultural topics or relevance to religious spiritual

researchers and academics      *Research in the Social Scientific Study of Religion, Volume 11* Joanne Marie Greer, David O. Moberg, 2021-11-22 The purpose of this book is to provide an outlet for original research articles examining the role and value of religious and spiritual constructs across the social sciences The aim of the series is to include an international and interfaith voice to this research dialogue An effort is made to be interdisciplinary and academically eclectic The articles in each volume represent a wide array of perspectives and research projects Most of the articles report the findings of quantitative or qualitative investigations but some deal with methodology theory or applications of social science studies in the field of religion and some are applied demonstrating the relevance of the social sciences to religious organizations and their clergy The value of the volume is that it gives to researchers in this area a broad perspective on the issues and methods of religious research across a spectrum of academic disciplines The aim of the book is to stimulate a creative integrative dialogue that will enhance interdisciplinary research      *With God on their Side* Timothy Chandler, Tara Magdalinski, 2005-07-12 Sport and religion are cultural institutions with a global reach Each is characterised by ritualised performance and by the ecstatic devotion of its followers whether in the sports arena or the cathedral of worship This fascinating collection is the first to examine in detail the relationship between these two cultural institutions from an international religiously pluralistic perspective It illuminates the role of sport and religion in the social formation of collective groups and explores how sport might operate in the service of a religious community The book offers a series of cutting edge contemporary historical case studies wide ranging in their social and religious contexts It presents important new work on the following fascinating topics sport and Catholicism in Northern Ireland Shinto and sumo in Japan women sport and the American Jewish identity religion race and rugby in South Africa sport and Islam in France and North Africa sport and Christian fundamentalism in the US Muhammad Ali and the Nation of Islam *With God on their Side* is vital reading for all students of the history sociology and culture of sport It also presents important new research material that will be of interest to religious studies students historians and anthropologists      **Social Structures, Social Capital, and Personal Freedom** Peter Lawler, Dale McConkey, 2000-04-30 The eleven essays in this collection examine the relationship between institutional structures and community integration offering practical insights to increase social capital and strengthen social institutions A variety of social institutions are analyzed Three chapters cover political legal issues two cover religion three address education and two examine the macrostructures of the military and the economy An important collection for scholars and other researchers interested in the communitarian movement sociology and political science particularly for those in public administration      **Stealing Jesus** Bruce Bawer, 1998-10-20 From the author of the widely acclaimed *A Place at the Table* this is a major work passionately outspoken and cogently reasoned that exposes the great danger posed to Christianity today by fundamentalism The time is past says Bruce Bawer when denominational names and other traditional labels provided an accurate reflection of Christian America's religious beliefs and practices The meaningful distinction today is not between

Protestant and Catholic or Baptist and Episcopalian but rather between legalistic and nonlegalistic religion between the Church of Law and the Church of Love On one side is the fundamentalist right which draws a sharp distinction between saved and unsaved and worships a God of wrath and judgment on the other are more mainstream Christians who view all humankind as children of a loving God who calls them to break down barriers of hate prejudice and distrust Pointing out that the supposedly traditional beliefs of American fundamentalism about which most mainstream Christians clergy included know shockingly little are in fact of relatively recent origin are distinctively American in many ways and are dramatically at odds with the values that Jesus actually spread Bawer fascinatingly demonstrates the way in which these beliefs have increasingly come to supplant genuinely fundamental Christian tenets in the American church and to become synonymous with Christianity in the minds of many people Stealing Jesus is the ringing testament of a man who is equally disturbed by the notion of an America without Christianity and the notion of an American Christianity without love and compassion

*Prophetic Politics* David S. Gutterman, 2018-07-05 In an era of military conflict and economic hardship religious and political leaders adamantly speak in the language of crisis Whether one attributes this public religious fervor to a response to the attacks of September 11 2001 millennial hopes and fears a sense of moral decay generally based on either growing economic inequality or the breakdown of the American family or a sign of the normal progression of the stages of history the discourse of religious revival is increasingly prominent And as is amply evident in the United States and throughout the world devout declarations of religious belief in the public sphere can bring intractable passions to politics from Chapter 1 What are the relationships among religion politics and narratives What makes prophetic political narratives congenial or hostile to democratic political life David S Gutterman explores the prophetic politics of four twentieth and twenty first century American Christian social movements the Reverend Billy Sunday and his vision of muscular Christianity Dr Martin Luther King Jr and the Civil Rights movement the conservative Christian male organization Promise Keepers and the progressive antipoverty organization Call to Renewal Gutterman develops a theory based on the work of Hannah Arendt and others and employs this framework to analyze expressions of the prophetic impulse in the political narrative of the United States In the process he examines timely issues about the tense and intricate relationship between religion and politics Even prior to George W Bush s faith based initiative debates about abortion family values welfare reform and environmental degradation were informed by religious language and ideas In an interdisciplinary and accessible manner Gutterman translates the narratives employed by American Christian social movements to define both the crises in the land and the path to resolving these crises The book also explores the engagement of these prophetic social movements in contentious political issues concerned with sex gender sexuality race and class as well as broader questions of American identity **Between Jesus and the Market** Linda Kintz, 1997-07-23 *Between Jesus and the Market* looks at the appeal of the Christian right wing movement in contemporary American politics and culture In her discussions of books and videotapes that are widely

distributed by the Christian right but little known by mainstream Americans Linda Kintz makes explicit the crucial need to understand the psychological makeup of born again Christians as well as the sociopolitical dynamics involved in their cause She focuses on the role of religious women in right wing Christianity and asks for example why so many women are attracted to what is often seen as an antiwoman philosophy The result a telling analysis of the complexity and appeal of the emotions that matter to many Americans highlights how these emotions now determine public policy in ways that are increasingly dangerous for those outside familiarity's circle With texts from such organizations as the Christian Coalition the Heritage Foundation and Concerned Women for America and writings by Elizabeth Dole Newt Gingrich Pat Robertson and Rush Limbaugh Kintz traces the usefulness of this activism for the secular claim that conservative political economy is in fact simply an expression of the deepest and most admirable elements of human nature itself The discussion of Limbaugh shows how he draws on the skepticism of contemporary culture to create a sense of absolute truth within his own media performance its truth guaranteed by the market Kintz also describes how conservative interpretations of the Holy Scriptures the U S Constitution and the Declaration of Independence have been used to challenge causes such as feminism women's reproductive rights and gay and lesbian rights In addition to critiquing the intellectual and political left for underestimating the power of right wing grassroots organizing corporate interests and postmodern media sophistication Between Jesus and the Market discusses the proliferation of militia groups Christian entrepreneurship and the explosive growth and selling of the Promise Keepers
