Seven French Chroniclers Witnesses To History:

Seven French Chroniclers Paul J. Archambault, 1974 *Seven French Chroniclers* Paul J. Archambault, 1974 **Seven French Chronicles**, 1974 *Fifty Key Thinkers on History* Marnie Hughes-Warrington, 2014-09-04 *Fifty Key Thinkers on History* is an essential guide to the most influential historians theorists and philosophers of history The entries offer comprehensive coverage of the long history of historiography ranging from ancient China Greece and Rome through the Middle Ages to the contemporary world This third edition has been updated throughout and features new entries on Machiavelli Ranajit Guha William McNeil and Niall Ferguson Other thinkers who are introduced include Herodotus Bede Ibn Khaldun E H Carr Fernand Braudel Eric Hobsbawm Michel Foucault Edward Gibbon Each clear and concise essay offers a brief biographical introduction a summary and discussion of each thinker s approach to history and how others have engaged with it a list of their major works and a list of resources for further study **Rhetoric and the Writing of History, 400-1500** Matthew Kempshall, 2011-08-31 This book provides an analytical overview of the vast range of historiography which was produced in western Europe over a thousand year period between c 400 and c 1500 Concentrating on the general principles of classical rhetoric central to the language of this writing alongside the more familiar traditions of ancient history biblical exegesis and patristic theology this survey introduces the conceptual sophistication and semantic rigour with which medieval authors could approach their narratives of past and present events and the diversity of ends to which this history could then be put By providing a close reading of some of the historians who put these linguistic principles and strategies into practice from Augustine and Orosius through Otto of Freising and William of Malmesbury to Machiavelli and Guicciardini it traces and questions some of the key methodological changes that characterise the function and purpose of the western historiographical tradition in this formative period of its development **A Critical Bibliography of French Literature V2 16th C**, *Emotions in a Crusading Context, 1095-1291* Stephen J. Spencer, 2019 *Emotions in a Crusading Context* is the first book length study of the emotional rhetoric of crusading It investigates the ways in which a number of emotions and affective displays primarily fear anger and weeping were understood represented and utilised in twelfth and thirteenth century western narratives of the crusades making use of a broad range of comparative material to gauge the distinctiveness of those texts crusader letters papal encyclicals model sermons chansons de geste lyrics and an array of theological and philosophical treatises In addition to charting continuities and changes over time in the emotional landscape of crusading this study identifies the underlying influences which shaped how medieval authors represented and used emotions analyzes the passions crusade participants were expected to embrace and reject and assesses whether the idea of crusading created a profoundly new set of attitudes towards emotions *Emotions in a Crusading Context* calls on scholars of the crusades to reject the traditional methodological approach of taking the emotional descriptions embedded within historical narratives as straightforward reflections of protagonists lived feelings and in so doing challenges the long

historiographical tradition of reconstructing participants beliefs and experiences from these texts Within the history of emotions Stephen J Spencer demonstrates that despite the ongoing drive to develop new methodologies for studying the emotional standards of the past typified by experiments in neurohistory the social constructionist or cultural historical approach still has much to offer the historian of medieval emotions [Philippe de Commynes](#) Irit Ruth Kleiman,2013-03-22 Philippe de Commynes a diplomat who specialized in clandestine operations served King Louis XI during his campaign to undermine aristocratic resistance and consolidate the sovereignty of the French throne He is credited with inventing the political memoir but his reminiscence has also been described as the confessions of a traitor Commynes had abandoned Louis rival the Burgundian duke Charles the Bold before joining forces with the king This study provides a literary re evaluation of Commynes text a perennial subject of scandal and fascination while questioning what the terms traitor or betrayed meant in the context of fifteenth century France Drawing on diplomatic letters and court transcripts Irit Kleiman examines the mutual connections between writing and betrayal in Commynes representation of Louis reign the relationship between the author and the king and the emergence of the memoir as an autobiographical genre This study significantly deepens our understanding of how historical narrative and diplomatic activities are intertwined in the work of this iconic iconoclastic figure

Theorizing the Ideal Sovereign examines the ways in which vernacular biographies of kings from the later French Middle Ages reflected and contributed to transformations in late medieval political and philosophical thought Using a lens of literary analysis for works that have more often been read as historical source documents Daisy Delogu demonstrates how theories of kingship evolved in the period of the rediscovery of Aristotle the rise of the vernacular as a language of ethics and philosophy and the Hundred Years War By means of a series of close readings of Jean de Joinville s *Vie de Saint Louis* Guillaume de Machaut s *Prise d Alixandre* and Christine de Pizan s biography of Charles V Delogu examines the ways in which biographical writings on kings could advance precise political aims She also shows how these texts contributed to nascent ideas of

nationhood exerted pressure upon traditional ideals of kingship and ultimately redefined the theoretical and practical bases of medieval kingship This study of vernacular kings s lives illuminates the important role that literary works played in shaping ideas more traditionally discussed in legal historical or institutional terms Theorizing the Ideal Sovereign restores late medieval kings s lives to ethical and political conversations of which they were an integral part and revives the lively interaction between texts and readers that formed the basis for medieval reading experiences **Thomas Basin**
