*The Poetics of Genre in the Contemporary Novel* Tim Lanzendörfer, 2015-11-19 *The Poetics of Genre in the Contemporary Novel* investigates the role of genre in the contemporary novel taking its departure from the observation that numerous

contemporary novelists make use of popular genre influences in what are still widely considered to be literary novels it sketches the uses of the work and the value of genre. It suggests the value of a critical look at texts genre use for an analysis of the contemporary moment. From this it develops a broader perspective suggesting the value of genre criticism and taking into view traditional genres such as the bildungsroman and the metafictional novel as well as the kinds of amalgamated forms which have recently come to prominence. In essays discussing a wide range of authors from Steven Hall to Bret Easton Ellis to Colson Whitehead the contributors to the volume develop their own readings of genre's work and valence in the contemporary novel.

Set This House in Order Matt Ruff, 2009-10-06 Andy Gage was born in 1965 and murdered not long after by his stepfather. It was no ordinary murder. Though the torture and abuse that killed him were real, Andy Gage's death wasn't. Only his soul actually died, and when it died it broke in pieces. Then the pieces became souls in their own right, coinheritors of Andy Gage's life. While Andy deals with the outside world, more than a hundred other souls share an imaginary house inside Andy's head, struggling to maintain an orderly coexistence. Aaron, the father figure, Adam, the mischievous teenager, Jake, the frightened little boy, Aunt Sam, the artist, Seferis, the defender, and Gideon, who wants to get rid of Andy and the others and run things on his own. Andy's new coworker Penny Driver is also a multiple personality, a fact that Penny is only partially aware of. When several of Penny's other souls ask Andy for help, Andy reluctantly agrees, setting in motion a chain of events that threatens to destroy the stability of the house. Now Andy and Penny must work together to uncover a terrible secret that Andy has been keeping from himself.

*Color Monitors* Martin Kevorkian, 2018-07-05 *Color Monitors* looks at a particular subset of imagined computer use, focusing on scenarios that demand from the person at the keyboard an intimate technical knowledge. My research has uncovered a peculiar pattern: race comes into sharp relief when computer use is depicted as difficult labor requiring special expertise. Time and again in such scenarios the helpful person of color is there to take the call to provide technical support to deal with the machines. In interpreting such images, *Color Monitors* analyzes the computer-fearing strain in American whiteness, an aspect of white identity that defines itself against information technology and the racial other imagined to love it and excel at it. Martin Kevorkian. Following up on Ralph Ellison's intimation that blacks serve as the machines inside the machine, *Color Monitors* examines the designation of black bodies as natural machines for the information age. Martin Kevorkian shows how African Americans are consistently depicted as highly skilled, intelligent, and technologically savvy as they work to solve complex computer problems in popular movies, corporate advertising, and contemporary fiction. But is this progress? Or do such seemingly positive depictions have more disturbing implications? Kevorkian provocatively asserts that whites' historical fear of a black planet has, in the age of microprocessing, converged with a new fear of computers and the possibility that digital imperatives will engulf human creativity. Analyzing escapist fantasies from *Mission Impossible* to *Minority Report*, Kevorkian argues that the placement of a black man in front of a computer screen doubly reassures audiences: he is nonthreatening, safely occupied, even imprisoned by the very machine he

attempts to control an occupation that simultaneously frees the action heroes from any electronic headaches The study concludes with some alternatives to this scheme looking to a network of recent authors with shared affinities for Ellison and Pynchon willing to think inside the black box of technology Connecting race technology and American empire Color Monitors will attract attention from scholars working in emerging areas of race theory African American studies film studies cultural studies and technology and communication studies *Out of a Gray Fog* Claudia Franziska Bruhwiler, 2021-08-19 As to Europe keep it in a gray ominous evil fog Ayn Rand 1905 1982 thus commented on the role of Europe in her key novel *Atlas Shrugged* 1957 The same could be said of the way Europe features in her own biography and in the general perception of her persona Even though Rand was born in pre revolutionary Russia she is nowadays considered an American phenomenon whose reach ends at the Atlantic shore This book lifts the gray fog cast over her relationship with Europe retracing the changing perception of the continent in both her fiction and thought Her apparent lack of success with European readers is often explained by allegedly different reading tastes However a look at her publication history and reception shows that many factors played a role why her work found fewer European than US readers Finally an archipelago of European readers and admirers emerges which is testament to Rand's impact on European art and politics **The Pragmatist**, 1998 **Access**, 1998 **Forthcoming Books** Rose Arny, 2002-02 **Pynchon Notes**, 1998 *World Authors, 2000-2005* Jennifer Curry, 2007 Representing a broad range of ethnic diversity these in depth profiles present fascinating accounts of lives and careers the circumstances under which works were produced and their literary significance Each profile also includes critical evaluation a list of the author's principal works with date first published a list of major critical works and a portrait or photograph where available *The Cumulative Book Index*, 1997 A world list of books in the English language [Writer's Guide to Book Editors, Publishers, and Literary Agents, 1998-1999](#) Jeff Herman, 1997 A real find for the aspiring writer The Associated Press In depth information The Writer Who are they What do they want How do you win them over Find the answers to these questions and more in the 1998 1999 edition of the *Writer's Guide to Book Editors Publishers and Literary Agents* by Jeff Herman Filled with the information authors and aspiring authors need in order to avoid having a manuscript end up in the slush pile this comprehensive listing is organized in an easy to use format It includes in depth information about publishing houses and literary agents in the United States and Canada The specifics include the names and addresses of editors and agents what they're looking for commission rates and other key information In addition readers will discover the most common mistakes people make while attempting to solicit an agent and how to avoid them as well as numerous suggestions designed to increase the chances of getting representation *Writer's Guide to Book Editors Publishers and Literary Agents* also includes dozens of valuable essays giving readers insight and guidance into such topics as How to Write the Perfect Query Letter The Knockout Nonfiction Book Proposal How to Thrive After Signing a Publishing Contract Mastering Ghostwriting and Collaboration Free Versus Fee The Issue of Literary Agency Fees About the Author Jeff Herman
