*Philosophy of Love* Irving Singer, 2011-01-07 The author of the classic philosophical treatment of love reflects on the trajectory over decades of his thoughts on love and other topics In 1984 Irving Singer published the first volume of what would become a classic and much acclaimed trilogy on love Trained as an analytical philosopher Singer first approached his subject with the tools of current philosophical methodology Dissatisfied by the initial results finding the chapters he had written just dreary and unproductive of anything he turned to the history of ideas in philosophy and the arts for inspiration He discovered an immensity of speculation and artistic practice that reached wholly beyond the parameters he had been trained to consider truly philosophical In his three volume work *The Nature of Love* Singer tried to make sense of this historical progression within a framework that reflected his precise distinction making and analytical background In this new book he maps the trajectory of his thinking on love It is a partial summing up of a lifework partial because it expresses the author's still unfolding views because it is a recapitulation of many published pages because love like any subject of that

magnitude resists a neatly comprehensive all inclusive formulation Adopting an informal even conversational tone Singer discusses among other topics the history of romantic love the Platonic ideal courtly and nineteenth century Romantic love the nature of passion the concept of merging and his critique of it ideas about love in Freud Schopenhauer Nietzsche Dewey Santayana Sartre and other writers and love in relation to democracy existentialism creativity and the possible future of scientific investigation Singer s writing on love embodies what he has learned as a contemporary philosopher studying other authors in the field and trying to get a little further This book continues his trailblazing explorations Trust Love Christof Breitsameter,2025-07-21 This study explores the plausibility of a sexual morality that was primarily intended to ensure the production of legitimate offspring in the traditional lifeworld With this goal in mind it is not surprising that adultery contraception homosexual relationships divorce and remarriage were subject to moral disapproval and in some cases even legal proscription In this context Christian theology followed its own path by drastically devaluing sexual lust and increasingly attempting to prohibit divorce and remarriage despite the fact that no models for this approach existed in either the biblical or the pagan world Both of these tendencies can be explained with reference to their socio historical origins which also necessarily include the establishment of the church as an organization In the process of tracing these histories it becomes clear that traditional sexual morality is a product of its time For this reason the book also includes a systematic section devoted to considering why this traditional sexual morality has largely lost its validity in modern society as well as which norms may take its place **Meaning in Life, Volume 1** Irving Singer,2009-12-30 An acclaimed philosopher views the search for meaning in life as the search for a mode of creativity that will make our lives meaningful What is meaning in life Does anything really matter How can a life achieve lasting significance How can we explain the human propensity to struggle for ideals How is meaning related to contentment happiness joy Is meaning something we discover or do we create it What is the nature of value and what are its sources in human experience Can there be a meaning in life without religious faith What is the meaning of death Is life worth living What would enable us to have a love of life Meaning in life writes philosopher Irving Singer and the meaning in our own lives results from creative efforts on our part It is not a prior reality awaiting our discovery Though we talk about a search for meaning what we are seeking is primarily a mode of creativity that will make our lives meaningful In The Creation of Value the first volume of his Meaning in Life trilogy Singer studies the nature of imagination idealization and love in the context of humanity s attempt to define itself through the pursuit of meanings and values that it creates Singer confronts life s most troubling problems the meaning of death the presence of anxiety in daily existence the conditions needed for us to have a life worth living and the possibility of a love of life in others as well as in ourselves Feeling and Imagination Irving Singer,2001 This book is a humanistic inquiry into the nature of feeling with particular emphasis upon the way that imagination idealization consummation and the aesthetic contribute not only to the texture of our experience but also to the values that are generated by means of them Love sex and compassion are

studied as modes of attachment that human beings create very often as the outcome of prior failures in their personal relations

**Swoon: Great Seducers and Why Women Love Them** Betsy Prioleau, 2013-02-04 The author of *Seductress* examines the ladies man and answers the eternal question what do women want

**The Nature of Love, Volume 1** Irving Singer, 2009-02-20 An analysis of concepts of bestowal appraisal imagination and idealization followed by explorations into the writings of thinkers that include Plato Ovid and Martin Luther Irving Singer's trilogy *The Nature of Love* has been called majestic New York Times Book Review monumental Boston Globe one of the major works of philosophy in our century *Nous* wise and magisterial Times Literary Supplement and a masterpiece of critical thinking that is a timely eloquent and scrupulous account of what after all still makes the world go round Christian Science Monitor In the first volume Singer begins by studying love as appraisal and bestowal as well as imagination and idealization He then examines the contrasting views of Plato Aristotle Plotinus Ovid Lucretius Saint Augustine Saint Thomas Aquinas and Martin Luther After having described the nature of erotic idealization Singer analyzes the religious idealization in Judeo Christian concepts of eros philia nomos and agape Medieval Catholicism sought to combine these four ideas of love in the caritas synthesis Luther repudiated that attempt on the grounds that love exists only in God's agapastic bestowal of unlimited goodness upon humanity and all of nature In relation to the different modes of theorizing Singer explores the humanistic implications of each

Ingmar Bergman, Cinematic Philosopher Irving Singer, 2009-09-18 The development of themes motifs and techniques in Bergman's films from the first intimations in the early work to the consummate resolutions in the final movies Known for their repeating motifs and signature tropes the films of Ingmar Bergman also contain extensive variation and development In these reflections on Bergman's artistry and thought Irving Singer discerns distinctive themes in Bergman's filmmaking from first intimations in the early work to consummate resolutions in the later movies Singer demonstrates that while Bergman's output is not philosophy on celluloid it attains an expressive and purely aesthetic truthfulness that can be considered philosophical in a broader sense Through analysis of both narrative and filmic effects Singer probes Bergman's mythmaking and his reliance upon the magic inherent in his cinematic techniques Singer traces throughout the evolution of Bergman's ideas about life and death and about the possibility of happiness and interpersonal love In the overtly self-referential films that he wrote or directed *The Best Intentions* *Fanny and Alexander* *Sunday's Children* as well as the less obviously autobiographical ones including *Wild Strawberries* *The Seventh Seal* and the triad that begins with *Through a Glass Darkly* Bergman investigates problems in his existence and frequently reverts to childhood memories In such movies as *Smiles of a Summer Night* *Scenes from a Marriage* and *Saraband* Bergman draws upon his mature experience and depicts the troubled relationships between men who are often weak and women who are made to suffer by the damaged men with whom they live In *Persona* *Cries and Whispers* and other works his experiments with the camera are uniquely masterful Inspecting the panorama of Bergman's art Singer shows how the endless search for human contact motivates the content of his films and

reflects Bergman's profound perspective on the world      Cinematic Mythmaking Irving Singer, 2010-09-24 Mythic themes and philosophical probing in film as an art form as seen in works of Preston Sturges Jean Cocteau Stanley Kubrick and various other filmmakers Film is the supreme medium for mythmaking The gods and heroes of mythology are both larger than life and deeply human they teach us about the world and they tell us a good story Similarly our experience of film is both distant and intimate Cinematic techniques panning tracking zooming and the other tools in the filmmaker's toolbox create a world that is unlike reality and yet realistic at the same time We are passive spectators but we also have a personal relationship with the images we are seeing In Cinematic Mythmaking Irving Singer explores the hidden and overt use of myth in various films and in general the philosophical elements of a film's meaning Mythological themes Singer writes perform a crucial role in cinematic art and even philosophy itself Singer incisively disentangles the strands of different myths in the films he discusses He finds in Preston Sturges's *The Lady Eve* that Barbara Stanwyck's character is not just the biblical Eve but a liberated woman of our times Eliza Doolittle in the filmed versions of Shaw's *Pygmalion* is not just a statue brought to life but instead a heroic woman who must survive her own dark night of the soul The protagonist of William Wyler's *The Heiress* and Anieszka Holland's *Washington Square* is both suffering Dido and an awakened Amazon Singer reads Cocteau's films including *La Belle et la Bête* *Orphée* and *The Testament of Orpheus* as uniquely mythological cinematic poetry He compares Kubrickian and Homeric epics and analyzes in depth the self-referential mythmaking of Federico Fellini in many of his movies including *8½* The aesthetic and probing inventiveness in film Singer shows us restores and revives for audiences in the twenty-first century myths of creation of the questing hero and of ideals both secular and religious that have had enormous significance throughout the human search for love and meaning in life      **Modes of Creativity** Irving

Singer, 2013-02-08 Philosophical reflections on creativity in science humanities and human experience as a whole In this philosophical exploration of creativity Irving Singer describes the many different types of creativity and their varied manifestations within and across all the arts and sciences Singer's approach is pluralistic rather than abstract or dogmatic His reflections amplify recent discoveries in cognitive science and neurobiology by aligning them with the aesthetic affective and phenomenological framework of experience and behavior that characterizes the human quest for meaning Creativity has long fascinated Singer and in *Modes of Creativity* he carries forward investigations begun in earlier works Marshaling a wealth of examples and anecdotes ranging from antiquity to the present about persons as diverse as Albert Einstein and Sherlock Holmes Singer describes the interactions of the creative and the imaginative the inventive the novel and the original He maintains that our preoccupation with creativity devolves from biological psychological and social bases of our material being that creativity is not limited to any single aspect of human existence but rather inheres not only in art and the aesthetic but also in science technology moral practice as well as ordinary daily experience      **The Nature of Love,**

**Volume 3** Irving Singer, 2009-02-27 The final volume of Singer's trilogy discusses ideas about love in the work of writers

ranging from Kierkegaard Nietzsche and Tolstoy to Freud Proust D H Lawrence Shaw and others in the contemporary world Irving Singer's trilogy *The Nature of Love* has been called majestic New York Times Book Review monumental Boston Globe one of the major works of philosophy in our century *Nous* wise and magisterial Times Literary Supplement and a masterpiece of critical thinking that is a timely eloquent and scrupulous account of what after all still makes the world go round Christian Science Monitor In the third volume Singer examines the pervasive dialectic between optimistic idealism and pessimistic realism in modern thinking about the nature of love He begins by discussing anti Romantic Romantics focusing on Kierkegaard Nietzsche and Tolstoy influential nineteenth century thinkers whose views illustrate much of the ambiguity and self contradiction that permeate thinking about love in the last hundred years He offers detailed studies of Freud Proust Shaw D H Lawrence and Santayana and he maps the ideas about love in Continental existentialism particularly those of Sartre and de Beauvoir Singer finally envisages a future of cooperation between pluralistic humanists and empirical scientists This last volume of Singer's trilogy does not pretend to offer the final word on the subject any more than do most of the philosophers he discusses but his masterful work can take its place beside their earlier investigations into these vast and complex questions
