Sex, Art, and American Culture Camille Paglia, 1992 **Selections from Sex, Art, and American Culture** Camille Paglia, 1990 **Feminism in Practice** Karen A. Foss, Sonja K. Foss, Alena Amato Ruggerio, 2021-09-23

Feminism in Practice uses feminism as a blueprint for exploring change strategies. It features twenty contemporary feminists from diverse arenas including activists comedians musicians politicians poets and showrunners. The women come to life through line drawings brief biographies extensive quotations their definitions of feminism and the change strategies they employ. Questions for reflection encourage readers to think through their own relationship to feminism and change. Chapter 1 defines feminism raising issues with the typical definition of feminism as the effort to achieve equality between women and men. It concludes with a description of over twenty types of feminism. Chapter 2 describes the triggering events happening places and key ideas of the four waves of feminism. The opening chapters provide a comprehensive understanding of the diversity and complexity of feminist movement. The book is organized around five primary objectives that animate contemporary change efforts: proclaiming identity naming a problem enriching a system changing a system and creating an alternative system. Each objective is developed through theoretical assumptions and twelve change strategies that show it at work in feminist movement. **Feminism in Practice** also serves as a practical handbook that readers can use to experiment with the strategies and expand their toolkits for creating change in their lives and worlds. The authors are uniquely qualified to explore issues of feminism and change. Karen Foss and Sonja Foss are second wave feminists who have written extensively on alternative change strategies feminist communication and feminist theory. Alena Ruggerio brings to the project the standpoint of a third wave feminist at home in pop culture. Her scholarship lies at the intersection of rhetoric feminism and religious studies. Sexual Harassment Linda LeMoncheck, Mane Hajdin, 2000-01-01 The question of what constitutes sexual harassment from suggestive remarks to outright threats from off-color jokes to lewd posters on office walls is contentious as is the question of how to address sexual harassment. Do all instances of sexual harassment constitute sex discrimination? Are some instances merely sexual attraction gone wrong? Do social policies aimed at eliminating sexual harassment in the workplace violate freedom of expression or do they make working relationships possible between women and men? In this uncompromising yet respectful debate two philosophers of widely divergent views present clear arguments and then respond directly to each other's reasoning. LeMoncheck argues for a feminist perspective on sexual harassment that is sensitive to the politics of gender. Hajdin contends that this perspective is both morally confusing and legally problematic and that sexual harassment can be better addressed by traditional moral and legal categories.

Sexual Correctness Wendy McElroy, 2001-06-15 As feminist and women positive ideas and ideals exploded in the 1960s and 1970s a sexual revolution was forged allowing women a variety of lifestyle choices Many current feminists called gender feminists by some too often are fighting to limit the sexual options of women They view women as victims of patriarchy whom must be protected from making incorrect sexual choices such as choosing to work in pornography or prostitution As a movement author McElroy believes feminism is in danger of drifting from sexual liberation to sexual correctness This work gives a critical overview of the ideological shift among many feminists The issues of sexual correctness are examined in detail showing how the changing ideology is destroying the principle of a woman's body a woman's right and endangering women's right to choose On each issue this work presents alternatives in the individualist traditions that defined the feminism movement for many years

Freedom's Progress? Gerard Casey, 2021-10-04 In *Freedom's Progress* Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition is he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also find thinkers treated in *Freedom's Progress* who don't usually show up in standard accounts Johannes Althusius Immanuel Kant William Godwin Max Stirner Joseph Proudhon Mikhail Bakunin Pyotr Kropotkin Josiah Warren Benjamin Tucker and Auberon Herbert *Freedom's Progress* also contains discussions of the broader social and cultural contexts in which politics takes its place with chapters on slavery Christianity the universities cities Feudalism law kingship the Reformation the English Revolution and what Casey calls Twentieth Century Tribalisms Bolshevism Fascism and National Socialism and an extensive chapter on human prehistory

Harassment? Abigail Saguy, 2003-08-13 An outstanding work This book is at once an analysis of a disturbing social practice and a study in legal mobilization Saguy gets inside the black box of culture by showing how a piece of legal culture gets produced disseminated and received Paying close attention to the discursive possibilities in the legal texts the work is grounded in the organizational settings through which representational struggles are waged displaying how the laws came to be as they are A rich and provocative account that will be the starting point for future discussions of sexual harassment Susan Silbey author of The Common Place of Law Stories from Everyday Life In this pathbreaking comparative study Saguy sheds light on a crucial aspect of the lives of many working women by analyzing the various frames through which sexual
