Exotic Visions in Marketing Theory and Practice Alf H. Walle, 2001-12-30 An anthropologist folklorist and literary critic besides being a marketing

professor Alf H Walle takes a refreshingly interdisciplinary look at the impact of modern social thought upon marketing and social research Tracing key ideas back to their intellectual roots Walle shows how the evolution of social theory and the controversies it has engendered can and should transform the way marketers approach consumers He provides a theoretic underpinning for qualitative consumer research and presents a lucid theoretical and methodological overview for qualitative methods in marketing research that parallels what others such as Shelby Hunt have provided for scientific methods in marketing His book is a provocative thoughtful and probing study of qualitative social theory and its important contributions to marketing and consumer research It is of value to both practitioners and academics Arguing that the social structural methods have been largely ignored Walle rehabilitates this general method and compares it to poststructural alternatives Walle shows that to understand the evolution of modern social theory one must come to grips with the work of three towering pioneers Immanuel Kant Friedrich Hegel and Karl Marx and that researchers must understand and appreciate the contributions and influence of pioneers in order to avoid the myopic vision of our own time Praising Hegel s metaphor of cultures as living organisms and his forging of the concept we now call National Character Walle points to Hegel as the pioneering social structuralist and as the man who as a negative example inspired the poststructuralists to action Walle ends with a well reasoned analysis of poststructural thought in marketing consumer research and suggests that conflict theory an alternative to poststructural methods that evolved from social structural roots is often more appropriate than poststructural analysis in marketing and consumer research Relating both conflict theory and poststructural analysis to the actual needs of marketing consumer researchers Exotic Visions in Marketing Theory and Practice provides unique practical insights for those who teach market research as well as practitioners who pursue it for a living

### **Same Sex, Different Cultures**

Gilbert H Herdt, 2018-05-15 Because homoerotic relations can be found in so many cultures Gilbert Herdt argues that we should think of these relations as part of the human condition This new cross cultural study of gays lesbians and bisexuals around the world Same Sex Different Cultures provides a unique perspective on maturing and living within societies both historical and contemporary that not only acknowledge but also incorporate same gender desires and relations Examining what it means to organize sex in a society that lacks a category for sex or to love someone of the same gender when society does not have a homosexual or gay lesbian role Herdt provides provocative new insights in our understanding of gay and lesbians lives Accurate in both its scientific conceptions and wealth of cultural and historical material examples range from the ancient Greeks and feudal China and Japan to the developing countries of Africa India Mexico Brazil and Thailand from a New Guinea society to contemporary U S culture including Native Americans For all of these peoples homoerotic relations emerge as part of culture and not separate from history or society In many of these groups loving or engaging in sexual relations is found to be the very basis of the local cultural theory of human nature and the mythological basis for the cosmos and the creation of society The mistake of modern Western culture Gilbert contends is to continue the legalization of

prejudice against lesbians and gays In this light the book addresses the issue of universal versus particular practices and reveals positive role models that embrace all aspects of human sexuality Finally it offers knowledge of the existence of persons who have loved and have been intimate sexually and romantically with the same gender in other lands through divergent cultural practices and social roles The most important lesson to learn from this cross cultural and historical study of homosexuality is that there is room for many at the table of humankind Understanding Theories of Religion Ivan Strenski,2015-02-10 Featuring comprehensive updates and additions the second edition of Understanding Theories of Religion explores the development of major theories of religion through the works of classic and contemporary figures A new edition of this introductory text exploring the core methods and theorists in religion spanning the sixteenth century through to the latest theoretical trends Features an entirely new section covering religion and postmodernism race sex and gender and religion and postcolonialism Examines the development of religious theories through the work of classic and contemporary figures from the history of anthropology sociology psychology philosophy and theology Reveals how the study of religion evolved in response to great cultural conflicts and major historical events Student friendly features include chapter introductions and summaries biographical vignettes a timeline a glossary and many other learning aids **Sex Slaves and Discourse Masters** Doctor Jo Doezema,2013-07-18 Why is the international community so concerned with the fate of prostitutes abroad And why does the story of trafficking sound so familiar In this pioneering new book Jo Doezema argues that the current concern with trafficking in women is a modern manifestation of the myth of white slavery Combining historical analysis with contemporary investigation this book sheds light on the current preoccupations with trafficking in women It examines in detail sex worker reactions to the myth of trafficking questions the current feminist preoccupation with the suffering female body and argues that feminism needs to move towards the creation of new myths The analysis in this book is controversial but crucial an alternative to the current panic discourses around trafficking in women An essential read for anyone who is concerned with the increased movement of women internationally and the attempts of international and national governments to regulate this flow
