Sex In The Snow Canadian Social Values At The End Of The Millennium:

Sex in the Snow Michael Adams,1999 **Recent Social Trends in Canada, 1960-2000** Lance W. Roberts,2005

Canadian society has changed dramatically since 1960 This work captures the scope and range of these changes through a systematic documentation of seventy eight social trends The introduction summarizes and locates the major waves of change The authors then document each trend in relation to eighteen thematic groups that include age community women labour management stratification social relations the state mobilizing institutions social forces ideologies households lifestyle leisure education integration and attitudes and values In contrast to many recent works and journalistic reports *Recent Social Trends in Canada* concentrates on the trajectory of change rather than on current events It provides a longitudinal context in which unfolding events can be interpreted in a broader historical and international context Comparable volumes in the McGill Queen s *Comparative Charting of Social Change* series describe similar tendencies in the United States Quebec France Germany Italy Greece Russia and Bulgaria making it possible to situate the Canadian experience in a global context

Romance of Transgression in Canada Thomas Waugh,2006-07-18 The rich and contradictory history of Canadian cinema and video queer queered and queering *Canadian Society in the Twenty-First Century, Fourth Edition* Trevor W. Harrison,John W. Friesen,2021-03-03 Confederation may have established Canada s nationhood in 1867 but the relationships framing Canada s modern existence go back much further Employing a unique socio historical perspective *Canadian Society in the Twenty First Century* examines three formative relationships that have shaped the country Canada and Quebec Canada and the United States and Canada and Indigenous nations Now in its fourth edition this engaging text offers students an overview of Canadian society through a series of connections rather than a collection of statistics Trevor W Harrison and John W Friesen weave together complex aspects of the nation s economic political and socio cultural development They guide readers to use this interdisciplinary framework to consider some of the tough questions that Canada is likely to face in adjusting to demands and challenges in the next few decades Reflecting the most current scholarship in the field this revised edition features new discussions on issues such as the current crisis of neo liberal globalization Canada s petroleum industry global warming the Wet suwet en dispute in 2020 and the COVID 19 pandemic Exploring the unique character of Canada today this text is a vibrant resource for sociology courses on Canadian society as well as courses in Canadian studies and Canadian history **Understanding Military Culture** Allan Douglas English,2004 Examines military culture from a theoretical and a practical point of view Considers conflicts in Afghanistan and Iraq that have highlighted the importance of culture as a concept in analyzing the ability of military organizations to perform certain tasks Culture has been described as the bedrock of military effectiveness because it influences everything an armed service does The recent conflicts in Afghanistan and Iraq have highlighted the importance of culture as a concept in analyzing the ability of military organizations to perform certain tasks In fact a military s culture may determine its preferred way of fighting and dealing

with other challenges like incorporating new technologies more than its doctrine or organizational structure of view It focuses on the Canadian and American military cultures and it provides the first detailed examination of the culture of the Canadian Forces It also compares their culture to that of the US armed forces The book concludes that while the culture of the Canadian Forces has been Americanized to a certain extent the culture of the US armed forces due to changes in their personnel and roles has experienced a certain degree of Canadianization at the end of the 20th and the beginning of the 21st centuries

Achieving Student Success Donna Gail Hardy Cox, Charles Carney Strange, 2010 In today's colleges and universities whether students succeed depends in large part on access to effective services that can support and guide them in pursuit of their educational goals Policy and practice in the field of student services has been largely based on professional literature from US sources Donna Hardy Cox and Carney Strange offer the first comprehensive description of professional student services in Canadian colleges and universities from the perspective of the practitioner scholars who create and lead them Hardy Cox and Strange begin with an overview of student services dealing with the matriculation of post secondary students through enrolment management financial assistance and orientation to the institution and accommodation and then discuss housing and residence life student leadership programs systems of judicial and academic integrity and student support and adjustment through counseling health and wellness initiatives career and employment advice and a variety of services that can respond to a variety of needs How these services are integrated professionally on campus including their organization and leadership as well as their design within differing institutional contexts and delivery methods is the focus of the closing chapters followed by a distillation of principles that underlie effective student services

Spiritual Marketplace Wade Clark Roof, 2001-07-02 In large chain bookstores the religion section is gone and in its place is an expanding number of topics including angels Sufism journey recovery meditation magic inspiration Judaica astrology gurus Bible prophecy evangelicalism Mary Buddhism Catholicism and esoterica As Wade Clark Roof notes such changes over the last two decades reflect a shift away from religion as traditionally understood to more diverse and creative approaches But what does this splintering of the religious perspective say about Americans Have we become more interested in spiritual concerns or have we become lost among trends Do we value personal spirituality over traditional religion and no longer see ourselves united in a larger community of faith Roof first credited this religious diversity to the baby boomers in his bestselling A Generation of Seekers 1993 He returns to interview many of these people now in mid life to reveal a generation with a unique set of spiritual values a generation that has altered our historic interpretations of religious beliefs practices and symbols and perhaps even our understanding of the sacred itself The quest culture created by the baby boomers has generated a marketplace of new

spiritual beliefs and practices and of revisited traditions As Roof shows some Americans are exploring faiths and spiritual disciplines for the first time others are rediscovering their lost traditions others are drawn to small groups and alternative communities and still others create their own mix of values and metaphysical beliefs Spiritual Marketplace charts the emergence of five subcultures dogmatists born again Christians mainstream believers metaphysical believers and seekers and secularists Drawing on surveys and in depth interviews for over a decade Roof reports on the religious and spiritual styles family patterns and moral vision and values for each of these subcultures The result is an innovative engaging approach to understanding how religious life is being reshaped as we move into the next century *Managing the New Workforce* Eddy Ng, Sean T. The Empire of Mind Michael Strangelove, 2005-12-15 Where many critics see the Internet as an instrument of corporate hegemony Michael Strangelove sees something else an alternative space inhabited by communities dedicated to anarchic freedom culture jamming alternative journalism and resistance to authoritarian forms of consumer capitalism and globalization In The Empire of Mind Dr Strangelove the scholar Canadian Business referred to as the acknowledged dean of Internet entrepreneurs and Wired called the Canadian guru of Internet advertising presents the compelling argument that the Internet and new digital communication technology actually undermine the power of capital producing an alternative symbolic economy Strangelove contends that the Internet breaks with the capitalist logic of commodification and that while television produces a passive consumer audience Internet audiences are more active creative and subversive Writers activists and artists on the Internet undermine commercial media and its management of consumer behaviour a behaviour that is challenged by the Web's tendency toward the disintegration of intellectual property rights Case studies describe the invention of new meaning given to cultural and consumer icons like Barbie and McDonald's and explore how novel modes of online news production alter the representation of the world as it is produced by the mainstream corporate press In the course of exploring new media The Empire of Mind also makes apparent that digital piracy will not be eliminated The Internet community effectively converts private property into public thereby presenting serious obstacles for the

management of consumer behaviour and significantly eroding brand value Much to the dismay of the corporate sector online communities are disinterested in the ethics of private property In fact the entire philosophical framework on which capitalism is based is threatened by these alternative means of cultural production *Changing Politics of Canadian Social Policy, Second Edition* James J.
