EBOOK: Sexuality, Sexual Health and Ageing Merryn Gott, 2004-12-16 What factors underpin dominant understandings of later life sexuality How do older people experience and prioritise sexuality and sexual health What sexual health issues are relevant to older people and how are these addressed by health care professionals This is the first book to integrate theoretical insights into sexuality sexual health and ageing with research findings from studies conducted with older people and the professionals that work with them The book is split into three sections In the first section stereotypes that typify contemporary understandings of sexuality and ageing are explored particularly the myth of asexual old age and the more recent stereotype of the sexy oldie Section two identifies what we actually know about ageing and sexuality by reviewing current literature as well as presenting findings from one of the first qualitative studies to explore sexuality from the perspective of older people themselves The final section of the book explores what sexual health means within the context of ageing and focuses on issues relevant to health professionals working with older people Sexuality Sexual Health and Ageing provides key reading for students researchers practitioners and

policymakers working within gerontology sociology psychology social work health sciences nursing and medicine This book is likely to become essential reading for all academics and professionals working with older people or in the area of sexual health

Addressing the Sexual Rights of Older People Catherine Barrett, Sharron Hinchliff, 2017-11-02 There is growing evidence that the sexual rights of older people are not being met One reason perhaps the main reason relates to the way that old age is viewed In many cultures being old is associated with decline and disease which positions older people as dependent and powerless Furthermore an absence of positive or celebratory discourses around older people's sexuality is particularly striking The book addresses a gap in research and policy Using an adaptation of the Declaration of Sexual Rights from the World Association of Sexual Health it provides readers with an innovative and evidence based framework for achieving the sexual rights of older people Drawing on interdisciplinary research it explores the cultural and social locations of old age and its intersections with sexual orientation gender identity and intersex status Key themes include stigma silencing invisibility prejudice discrimination and a lack of information awareness and understanding **Addressing the Sexual Rights of Older People Theory Policy and Practice** is a text for academics health professionals social professionals service providers and policy makers It is a timely and insightful collection which suggests ways to apply the sexual rights framework raise awareness and engage communities in constructing strategies for reform

Vulnerability and Marginality in Human Services Mark Henrickson, Christa Fouché, 2017-06-26 Vulnerability has traditionally been conceived as a dichotomised status where an individual by reason of a personal characteristic is classified as vulnerable or not However vulnerability is not static and most if not all people are vulnerable at some time in their lives Similarly marginality is a social construct linked to power and control Marginalised populations are relegated to the perimeters of power by legal and political structures and limited access to resources Neither are fixed or essential categories This book draws on international research and scholarship related to these constructs exploring vulnerability and marginality as they intersect with power and privilege This exploration is undertaken through the lenses of intimacy and sexuality to consider vulnerability and marginality in the most personal of ways This includes examining these concepts in relation to a range of professions including social work psychology nursing and allied health A strong emphasis on the fluidity and complexity of vulnerability and marginality across cultures and at different times makes this a unique contribution to scholarship in this field This is essential reading for students and researchers involved with social work social policy sociology and gender and sexuality studies

Rehabilitation Sally Davis, 2006-01-01 Provides an overview of models and theories relevant to rehabilitation identifying the use of models in practice to facilitate interdisciplinary teamwork and to enable a client centred approach The approach is essentially practical employing case studies and questions for practice to aid the application of the theory to clinical practice
