topical literatures in feminist theology feminism and womanist theology religious leadership of women and responses and recent developments Separate author subject and title indexes complete the volume **Christology from the Margins** Thomas Bohache, 2008 Provides a comprehensive queer discussion of Christology concluding with the view of Christ's person and work from a gueer perspective Suitable for undergraduate study Feminist Theology and the Challenge of **Difference** Margaret D. Kamitsuka, 2007-07-20 In the early years of contesting patriarchy in the academy and religious institutions feminist theology often presented itself as a unified front a sisterhood. The term feminist theology however is misleading It suggests a singular feminist purpose driven by a unified female cultural identity that struggles as a cohesive whole against patriarchal dominance Upon closer inspection the voice of feminist theology is in fact a chorus of diverging perspectives each informed by a variety of individual and communal experiences and an embattled scholarly field marked by the effects of privilege and power imbalances This complexity raises an important question How can feminist theologians respect the irreducible diversity of women s experiences and unmask entrenched forms of privilege in feminist theological discourse In Feminist Theology and the Challenge of Difference Margaret D Kamitsuka urges the feminist theological community to examine critically its most deeply held commitments assumptions and goals especially those of feminist theologians writing from positions of privilege as white or heterosexual women Focusing on women s experience as portrayed in literature biblical narrative and ethnographic writing Kamitsuka examines the assumptions of feminist theology regarding race and sexuality She proposes theoretical tools that feminist theologians can employ to identify and hopefully avoid the imposition of racial or sexual hegemony thus providing invaluable complexity to the movement s identity and ultimately contributing to current and future Christian theological issues Blending poststructuralist and postcolonial theoretical resources with feminist and queer concerns Feminist Theology and the Challenge of Difference makes constructive theological proposals ranging from sin to christology The text calls feminist theologians to a more rigorous self critical approach as they continue to shape the changing face of Christian theological discourse **Building a Protestant Left** Mark Hulsether, 1999 He follows the twists and turns of this story from Niebuhr's Christian realist positions of the 1940s through Protestant participation in the complex social movements of the 1950s and 1960s to the emergence of various liberation theologies African American feminist Latin American and others that used C C as a central arena of debate in the 1970s and 1980s White Theology J. Perkinson, 2017-03-15 White Theology re examines white race privilege throughout history and its relationship to black theology James W Perkinson articulates a white theology of responsibility responding to the claims of James Cone and other black scholars that serious engagement with history and culture must be at the heart of any American projection of integrity or salvation in the modern period Perkinson interweaves autobiography and postcolonial analysis history and phenomenology to explore white supremacy and the future of religious studies This is an essential and groundbreaking book for courses in religious studies African American studies and theology **Femenist Ethics and**

Natural Law Cristina L. H. Traina, 1999-04-28 Heated debates over such issues as abortion contraception ordination and Church hierarchy suggest that feminist and natural law ethics are diametrically opposed Cristina L H Traina now reexamines both Roman Catholic natural law tradition and Anglo American feminist ethics and reconciles the two positions by showing how some of their aims and assumptions complement one another After carefully scrutinizing Aguinas s moral theology she analyzes trends in both contemporary feminist ethics theological as well as secular and twentieth century Roman Catholic moral theology Although feminist ethics reject many of the methods and conclusions of the scholastic and revisionist natural law schools Traina shows that a truly Thomistic natural law ethic nonetheless provides a much needed holistic foundation for contemporary feminist ethics On the other hand she offers new perspectives on the writings of Josef Fuchs Richard McCormick and Gustavo Gutierrez arguing that their failure to catch the full spirit of Thomas s moral vision is due to inadequate attention to feminist critical methods This highly original book proposes an innovative union of two supposedly antagonistic schools of thought a new feminist natural law that would yield more comprehensive moral analysis than either existing tradition alone This is a provocative book not only for students of moral theology but also for feminists who may object to the very notion of natural law ethics suggesting how each might find insight in an unlikely place **Embrace of God** Ann O. Graff, 2005-01-26 Since Karl Rahner posited the importance of the nature of the human as the starting point for theological reflection the field of Christian anthropology has been one where very basic questions and much creative theologizing have been focused For example liberation theologians have had much to say about the presumptions inherent in classical definitions of human being and have pointed up the vital idea of social location as an integral part of human experience Theological anthropology has come to be of vital interest to Christian feminists as well As in other disciplines the study of what is human tends to either ignore gender or to favor one as normative In the guest to understand the totality of human experience it is necessary to view it from lived experience At the same time and deeply embedded in the Christian tradition is the recognition that human beings come from God are going to God and dwell in the embrace of God In the Embrace of God provides a well organized clearly focused volume of original essays by North American feminist theologians encompassing the major areas of theological anthropology. In addressing the meaning of creation and end time fall and redemption sin and grace pain and suffering sexuality and ecology these contributors offer fresh insights and helpful **Approaches to the Study of Religion** Peter new ways to approach the rich complexities of human experience Connolly, 2001-11-30 It has been argued that religious studies is a polymethodic discipline and that the student of religion should be familiar with the approaches of the major disciplines concerned with understanding the nature of religion not least because the approach adopted has profound influence on the phenomena chose for investigation and the conclusions reached This book is the first textbook specifically designed for undergraduate students that provides the essential background on methods of the major relevant disciplines Presenting each of the significant approaches to religion in an informed manner the book brings together experienced researchers from feminism anthropology sociology phenomenology psychology philosophy and theology It presents a consistent approach throughout with each chapter dealing with the same themes the historical development of the approach the characteristics of the approach and the surrounding issues and debates be Many Ann Kirkus Wetherilt, 2016-10-06 The relationship of The Word to notions of unity and oneness has often served as a tool of tyranny and oppression in Christian history Static authoritarian religious institutions have formed and developed the central tenets of their faith excluding from participation the voices of those who do not mirror the reality of the power brokers overwhelmingly white Western heterosexual and male Yet other voices have continually emerged in multiple locations to challenge the hegemony of The Word and to claim authority and agency in the struggle for basic rights and justice Some of these voices are explicitly religious others not All challenge the adequacy of a unilateral Word to embody the dynamic and all encompassing movement of the sacred in the world This book suggests that a metaphor of voices provides possibility for the intercourse of many diverse expressions of holy power in the world without insisting upon either a primal or an ultimate onenss The implications of this shift are many The sources where such revelations of the divine appear are broadened to include many texts not traditionally seen as theological Conceptions of community are revolutionized to include not only groupings of like minded individuals coming together for support and nourishment but also coalitions of diverse persons who share no particular social or cultural identity but rather their commitment to work together for a more just world Traditional theological categories are renamed and redefined as their original definition and subsequent development are disclosed as limiting and inadequate And the God whom we have been told is One is revealed as many faceted and articulate speaking through and among a radical multiplicity of created and creative beings who struggle together to live authentically in the world The Kindness of God Janet Martin Soskice, 2007-12-13 Fathers sons brothers kings Does the predominantly masculine symbolism of the Biblical writings exclude women or overlook the riches of their spiritual life Janet Martin Soskice opens up the Bible's imagery for sex gender and kinship by discussing its place in the central teachings of Power in the Blood? JoAnne Marie Terrell, 2005-09-01 Can the gospel message of the Atonement have Christian theology a liberative message for black Christians Is there indeed power in the blood of Jesus This study of the meaning of the cross in the African American religious experience is both comprehensive and powerful comprehensive because it explores the meaning of the cross symbol of suffering and sacrifice from the early beginnings of Christianity through modern times and powerful because it is written by a black woman who has experienced abuse and the oppression of field work Reflections on My Call to Preach Fred B. Craddock, 2009 Travel with revered preacher and author Fred Craddock through his early years as he considers what made him take to the pulpit For some reason I felt I had to say Yes or No to the ministry so I could feel free again My siblings and friends talked almost casually about options and preferences as to careers but with no evident sense of urgency Not so with me I did not then nor do I now know whether the burden of choice was a trait of personality a

kind of super conscientiousness whether the calling to ministry itself carried a weight a burden peculiar to the task itself Rightly or wrongly when I thought of possibly becoming a journalist that would be a choice 100 percent mine When I considered becoming a minister that was not totally my decision I was responding to God's will for me Of course I had been told that journalists lawyers teachers merchants farmers all could understand their lives as a vocation a calling but what I am telling you is that I perceived I felt I experienced the idea of being a preacher as different and that difference was sobering even burdensome That's why advice about not being in a hurry taking my time was not helpful even if wise If it was my decision why could I not make it now if it was God's decision why did not God tell me or at least tell my father or my mother I prayed for the ache to leave me Excerpt from Reflections on My Call to Preach The Donghak Concept of God/heaven Kiyul Chung, 2007 Original Scholarly Monograph Jesus: Miriam's Child, Sophia's Prophet Elisabeth Schüssler Fiorenza, 2015-11-19 In Jesus Miriam's Child Sophia's Prophet Elisabeth Sch ssler Fiorenza makes a unique contribution to two quite different discussions of Jesus the Christ On the one hand she looks at biblical christology from a critical feminist perspective in the tradition of liberation theology On the other she examines the feasibility of a feminine christology by considering such problems as Christian anti Judaism ideological justification of domination religious exclusivism and the formation of patriarchal identity Re imagining the Jesus movement in a feminist key transcends the boundaries set by history gender and doctrine By assessing various Jesus traditions and interpretations in terms of whether they can engender liberating visions for today Sch ssler Fiorenza seeks to challenge and transform a Christianity dominated by masculinity and exclusivist theological frameworks so that it offers a vision of justice and well being for all the central image in which is the reign the coming world of God This Cornerstones edition features a new extended introduction which takes into account the developments in the field since the work was originally published in 1994 The Bonds of Freedom Rebekah Miles, 2001 Miles contends that an increasingly radical feminist emphasis on divine immanence and human boundedness has undercut key assumptions upon which feminism rests Niebuhr s realism she believes can be the source of a necessary correction

Sexism and Sin-Talk Rachel Sophia Baard,2020-01-01 Early feminist theologians criticized the Christian doctrine of sin for its focus on female sexual purity and its enabling of the marginalization and oppression of women Others have questioned whether the entire theological category of sin should be abandoned in favor of other ways of talking about the human predicament In this new book Rachel Baard argues for a feminist critique of traditional sin talk alongside a constructive reinterpretation of the doctrine of sinone that can be life affirming for all persons She claims that the Christian idea of sinthat tragic flaw at the core of human experienceprovides one of the best tools for understanding the evils of sexism patriarchy and traditional sin talk itself She likewise provides a new rhetoric of sin talk one that accounts for the diverse experiences of the human family not simply those of powerful men
