Sex Sexuality And The Anthropologist:

Sex, Sexuality, and the Anthropologist Fran Markowitz, Michael Ashkenazi, 1999 Sex in the field the dilemma of whether to cover up or display sexual identities and desires during the course of anthropological fieldwork is one of the best kept secrets in the discipline Contending that the conventional pose of a genderless asexual ethnographic researcher is impossible to sustain this volume brings sex and sexuality into the open as essential components of ethnographic study that must be overtly recognized and proactively addressed Sex Sexuality and the Anthropologist recounts the real life experiences of anthropologists who are forced to acknowledge that their hosts in the field view them as gendered beings in a social context not as asexual objective observers Far from controlling the research environment and defining the terms of interviewer informant relationships these researchers find they must engage in a process of negotiating their position including their sexual position within the communities they study Ranging from public baths in Austria to lesbian bars in Taiwan and from Mexico to Nigeria to Finland to Japan Sex Sexuality and the Anthropologist raises critical questions about ethnographers reflexivity subjectivity and detachment confronting the challenge of a holistic approach to the anthropological enterprise

Taboo Don Kulick, Margaret Willson, 2003-09-02 *Taboo* looks at the ethnographer and sexuality in anthropological fieldwork and considers the many roles that sexuality plays in the anthropological production of knowledge and texts How does the sexual identity that anthropologists have in their home society affect the kind of sexuality they are allowed to express in other cultures How is the anthropologists sexuality perceived by the people with whom he or she does research How common is sexual violence and intimidation in the field and why is its existence virtually unmentioned in anthropology These are but a few of the questions to be confronted exploring from differing perspectives the depth of the influence this tabooed topic has on the entire practice and production of anthropology A long overdue text for all students and lecturers of anthropology many post fieldwork readers will find a resonance of issues they have previously faced or tried to avoid and those who are still to undertake fieldwork will find articles that refer to other kinds of personal and professional experience as well as providing invaluable preparations for coping in the field

Sex Richard Joseph Martin, Dieter Haller, 2020-05-27 Focusing on the unacknowledged personal and often unconscious dimension Sex explores the intersection between sex and ethnography Anthropological writing tends to focus on the influence of status markers such as position gender ethnicity and age on fieldwork By contrast far less attention has been paid to how sex sexuality eroticism desire attraction and rejection affect ethnographic research In the book anthropologists reflect on their own encounters with sex during fieldwork revealing how attraction and desire influence the choice of fieldwork subjects field sites and friendships They also examine the resulting impact on fieldwork findings and the generation of knowledge Based on fieldwork in Germany Denmark Greece the USA Brazil South Africa Singapore Turkey Israel Morocco and India the contributors go beyond the common heterosexuality homosexuality divide to address topics which include celibacy polyamory and

sadomasochism This long overdue text provides perspectives from a new generation of anthropologists and brings the debate into the 21st century Examining challenging and controversial issues in contemporary fieldwork this is essential reading for students in anthropology gender and sexuality studies sociology research methods and ethics courses *The Anthropology of Sex* Hastings Donnan, Fiona Magowan, 2010-09-15 Accessible and highly engaging *The Anthropology of Sex* is the first work to critically synthesize over a century of comparative expertise knowledge and understanding of diverse sexual forms

The Heroic Anthropologist Rides Again Frank A. Salamone, 2012-04-25 This collection of papers presented at the 2011 American Anthropological Association meetings in Montreal Canada represent the beginning of the anthropological investigation of the way in which anthropologists have been portrayed in popular culture Frank A Salamone provides an overview of the field today looking for depictions of anthropologists in various genres film fiction TV and everyday life The contributors look at specific portrayals of anthropologists in popular media including using popular fiction to teach anthropology The work is lively accessible and profound *Anthropologists in the Field* Lynne Hume, Jane Mulcock, 2004 An excellent introduction to real world ethnography this book covers short and long term participant observation and ethnographic interviewing and uses diverse cultures as cases *Negotiating Sex Work* Carisa R. Showden, Samantha Majic, 2014-04-01 Globally discussions about sex work focus on exploitation The media regularly provides us with stories about teen girls coerced to perform sexual acts for money frequently beaten and robbed by their pimps or traffickers While one would have to be hard pressed to deny that sex workers are victimized the popular media and our political leaders emphasize sex work as exclusively exploitative In *Negotiating Sex Work* Carisa R Showden and Samantha Majic present a series of essays that depict sex work as an issue far more complex than generally perceived Positions on sex work are primarily divided between those who consider that selling sexual acts is legitimate work and those who consider it a form of exploitation Organized into three parts *Negotiating Sex Work* rejects this either/or framework and offers instead diverse and compelling contributions that aim to reframe these viewpoints Part I addresses how knowledge about sex work and sex workers is generated The next section explores how nations and political actors who claim to protect individuals in sex work often further marginalize them Finally part III examines sex workers own political organizational efforts to combat laws and policies that deem them deviant sinful or total victims A timely and necessary intervention into sex work debates this volume challenges how policy makers and the broader public regard sex workers capacity to advocate for their own interests Contributors Cheryl Auger Sarah Beer Dawson College Montreal Michele Tracy Berger U of North Carolina Chapel Hill Thaddeus Gregory Blanchette Federal U of Rio de Janeiro Raven Bowen Gregg Bucken Knapp U of Gothenburg Sweden Ana Paula da Silva Federal U of Vi o sa Valerie Feldman Gregor Gall U of Bradford Kathleen Guidroz Georgetown U Annie Hill U of Minnesota Johan Karlsson Schaffer U of Oslo Edith Kinney Mills College Yasmin Lalani Pia Levin Alexandra Lutnick Tamara O Doherty U of the Fraser Valley British Columbia Joyce Outshoorn U of Leiden Francine Tremblay Concordia U

Montreal *Prostitution Research in Context* Marlene Spanger, May-Len Skilbrei, 2017-03-16 The starting point for this book is the question of how we research sex for sale and the implications of the choices we make in terms of epistemology and ethics Which dilemmas and ethical aspects need to be taken into account when producing qualitative data within a highly politicised and moral infected realm These two questions are exactly what Spanger and Skilbrei aim to unpack in this unusual interdisciplinary methodology book *Prostitution Research in Context* The book offers contributions from a number of scholars who based on their reflections on their own research practice and the existing knowledge field discuss ongoing methodological issues and challenges representative of international research on sex for sale Some chapters deal explicitly with methodological dilemmas in research others thematise the encounter between prostitution research and general texts on epistemology Other chapters again actively engage with the ethical dilemmas that research on the topic of sex for sale can entail The authors represent different disciplines but share an interest in engaging in reflexive research practices informed by feminism and feminist epistemologies An authoritative contribution to the field this innovative volume will appeal to international scholars and students from across the social sciences and humanities in areas such as sociology anthropology criminology media studies feminist studies human geography and history

Irregular Connections Andrew P. Lyons, Harriet Lyons, 2004-12-01 Irregular Connections traces the anthropological study of sex from the eighteenth century to the present focusing primarily on social and cultural anthropology and the work done by researchers in North America and Great Britain Andrew P and Harriet D Lyons argue

that the sexuality of those whom anthropologists studied has been conscripted into Western discourses about sex including debates about prostitution homosexuality divorce premarital relations and hierarchies of gender class and race Because sex is the most private of activities and often carries a high emotional charge it is peculiarly difficult to investigate At times such as the late 1920s and the last decade of the twentieth century sexuality has been a central concern of anthropologists and focal in their theoretical formulations At other times the study of sexuality has been marginalized The anthropology of sex has sometimes been one of the main faces that anthropology presented to the public often causing resentment within the discipline Andrew P Lyons is an associate professor of anthropology at Wilfrid Laurier University Harriet D Lyons is an associate professor of anthropology at the University of Waterloo *Human Sexuality* Vern L. Bullough, Bonnie Bullough, 2014-01-14 First Published in 1994 The purpose of an encyclopedia is to gather in one place information that otherwise would be difficult to find Bring together a collection of articles that are authoritative and reflect a variety of viewpoints The contributors come from a wide range of disciplines from nursing to medicine from biology to history and include sociologists psychologists anthropologists political scientists literary specialists academics and non academics clinicians and teachers researchers and generalists The Origins and Role of Same-Sex Relations in Human Societies James Neill, 2011-10-17 This groundbreaking work draws on a vast range of research into human sexuality to demonstrate that homosexuality is not a phenomenon limited to a small minority of society but is an aspect of a complex sexual harmony that the human race inherited from its animal ancestors Through a survey of the patterns of sexual expression found among animals and among societies around the world and an examination of the functional role homosexual behavior has played among animal species and human societies alike the author arrives at some provocative conclusions that a homosexual or bisexual phase is a normal part of sexual development that same sex relations play an important balancing role in regulating human reproduction that many societies have institutionalized homosexual traditions in the past and that the harsh condemnation of homosexuality in Western society is a relatively recent phenomenon unique among world societies throughout history This well researched and meticulously documented book is the first that integrates into a coherent picture the startling revelations about human sexuality coming from the recent work of sexual researchers psychologists anthropologists and historians The view that emerges of an ambisexual human species whose complex sexual harmony is being thwarted by the imposition of an artificial understanding of nature represents a new way of thinking about sex
