Richard A. Hall

Sex The Slayer A Gender Studies Prim:

Sex and the Slayer Lorna Jowett,2005-04-15 The author aims to demonstrate in this book not how feminist or progressive the show is but how it represents femininity masculinity and gender relations including sexuality and how this relates to the context of genre The book aims to draw out patterns of gender representation and to relate these to relevant contexts Intro Love and the Fighting Female Allison P. Palumbo,2020-08-06 The fighting female archetype a self reliant woman of great physical prowess has become increasingly common in action films and on television However the progressive female identities of these narratives cannot always resist the persistent and problematic framing of male female relationships as a battle of the sexes or other source of antagonism Combining cultural analysis with close readings of key popular American film and television texts since the 1980s this study argues that certain fighting female themes question regressive conventions in male female relationships Those themes reveal potentially progressive ideologies regarding female agency in mass culture that reassure audiences of the desirability of empowered women while also imagining egalitarian intimacies that further empower women Overall the fighting female narratives addressed here afford contradictory viewing pleasures that reveal both new expectations for and remaining anxieties about the strong independent woman ideal that emerged in American popular culture post feminism *The American Villain* Richard A. Hall,2020-12-02 The American Villain Encyclopedia of Bad Guys in Comics Film and Television provides one go to reference for the study of the most popular and iconic villains in American popular culture Since the 1980s pop culture has focused on what makes a villain a villain The Joker Darth Vader and Hannibal Lecter have all been placed under the microscope to get to the origins of their villainy Additionally such bad guys as Angelus from Buffy the Vampire Slayer and Barnabas Collins from Dark Shadows have emphasized the desire for redemption in even the darkest of villains Various incarnations of Lucifer Satan have even gone so far as to explore the very foundations of what we consider evil The American Villain Encyclopedia of Bad Guys in Comics Film and Television seeks to collect all of those stories into one comprehensive volume The volume opens with essays about villains in popular culture followed by 100 A Z entries on the most notorious bad guys in film comics and more Sidebars highlight ancillary points of interest such as authors creators and tropes that illuminate the motives of various villains A glossary of key terms and a bibliography provide students with resources to continue their study of what makes the baddest among us so bad The Television World of Pushing Daisies Alissa Burger,2014-01-10 Pushing Daisies was a unique network television show This collection of 10 essays addresses the quirky off beat elements that made the show a popular success as well as fodder for scholarly inquiry Divided into three main sections the essays address the themes of difference the placement of the series within a larger philosophical context and the role of gender on the show A consideration of Pushing Daisies unique style and aesthetics is a consistent source of interest across these international and interdisciplinary scholarly critiques *Americanization of History* Kathleen McDonald,2010-10-12 This collection of essays searches for how

history and literature translate into filmic texts that then reflect the time and place of the translation Major motion pictures as well as television movies and series are the sites of this exploration The opening essay surveys what films tell us it means to be set in a medieval time while the second looks at one of the most powerful movie studios since the earliest days of movie making Walt Disney Studios The second section investigates classic Americana by delving specifically into the hegemonic power of Walt Disney Studios by considering the union between the American pastime of baseball and the great white way of Broadway and by discovering the constantly morphing relationship of the icons of the Wild West Section three looks at characters living outside of roles considered socially appropriate in their world vampire slayers mobsters and those with multiple personalities The fourth section studies how present day mores of power and beauty control revisions of historically based stories through issues of vengeance race sexuality and the notion of beauty itself The final section takes up the question of what it means to historicize the present moment and analyzes the current period via a very popular and long running show s depiction of sexuality as accepted or rejected within a paradigm that appears not merely to tolerate but actively to promote deviance The last essay questions the very concepts of time and history themselves The articles do not reach one conclusion regarding this topic but instead provide a variety of perspectives which help to theorize the issue for the discerning reader

Television Studies: The Basics Toby Miller,2009-12-04 Television Studies The Basics is a lively introduction to the study of a powerful medium It examines the major theories and debates surrounding production and reception over the years and considers both the role and future of television Topics covered include broadcasting history and technology institutions and ownership genre and content audiences Complete with global case studies questions for discussion and suggestions for further reading this is an invaluable and engaging resource for those interested in how to study television
