Why Shopping Is Better Than Sex Toni Goffe, 1998

Consumer Sexualities Rachel Wood, 2017-08-03 *Consumer Sexualities* explores women's experiences of shopping in sex shops and using sexual commodities in their everyday lives This enlightening volume shows how women take up sexual consumer technologies of the self to work upon and understand themselves as confident and active sexual agents in postfeminist neoliberal culture In guiding the reader through the historical emergence of sexual commodities for women in feminism and postfeminism Wood points to the normalisation and regulation of sexual practices and identities in and through consumption Indeed women's accounts show the work involved in constructing the right knowledgeable tasteful and confident orientation to sexual consumption and by extension in becoming an intelligibly good sexual person At the same time the author draws upon de Certeau to show how the ordinary contexts in which sexual commodities are used can lead to unpredictable moments of adaptation discomfort playfulness and resistance A rich analysis of women's everyday strategies of making do with the kinds of femininity and female sexuality that sex shop culture represents *Consumer Sexualities* will appeal to scholars of sociology cultural studies and gender studies with interests in gender sexuality sex and consumption

Researching Sex and Sexualities Charlotte Morris, Paul Boyce, Andrea Cornwall, Hannah Frith, Laura Harvey, Yingying Huang, 2018-02-15 Sexuality is a complex and multifaceted domain encompassing bodily contextual and subjective experiences that resist ready categorisation To claim the sexual as a viable research object therefore raises a number of important methodological questions what is it possible to know about experiences practices and perceptions of sex and sexualities What approaches might help or hinder our efforts to probe such experiences This collection explores the creative personal and contextual parameters involved in researching sexuality cutting across disciplinary boundaries and drawing on case studies from a variety of countries and contexts Combining a wide range of expertise its contributors address such key areas as pornography sex work intersectionality and LGBT perspectives The contributors also share their own experiences of researching sexuality within contrasting disciplines as well as interrogating how the sexual identities of researchers themselves can relate to and inform their work The result is a unique and diverse collection that combines practical insights on field work with novel theoretical reflections

The Shopping Experience Pasi Falk, Colin Campbell, 1997-09-29 This shrewd and probing book seeks to theorize shopping as an autonomous realm It avoids the reductionist characteristics of economics and marketing At the same time it avoids the moralizing tone of many contemporary discussions of shopping and consumption It also contains an appendix which gives a brief history and selected literature of shopping

Redman, 2020-05-10 Drawing on empirical data from women who pay for sexual services and those who provide services to women this ground breaking study is the first of its kind in the UK detailing the experiences of women who pay for sex in an explicit direct prearranged way Unlike previous research on clients which has predominantly focused on men who buy sex or women who engage in romance tourism in places such as the Caribbean this innovative research offers new and original insights into the demand side of commercial sex Too often it is assumed that only men pay for sex from women or other men Women are assumed to be service providers and are unimaginable as clients This book therefore offers a radical departure from existing scholarship on commercial sex In addition the book examines the experiences of couples who pay for commercial sex a client group that has received scant investigation The book explores women's reasons for their engagement in commercial sex services their backgrounds and characteristics their strategies for remaining safe and managing potential risks as well as their sexual health strategies The nature of sexual service bookings with women clients is also examined exploring the types of services women seek the places where bookings occur and the fees they pay Finally the experiences of men women and trans sex workers who provide sexual services to women are examined By drawing on our unique data and comparing it to the literature on men clients we present our theory Converging Sexualities We argue that commercial sex is a site of behavioural convergence and that women clients are behaving in ways that could be described as masculine or feminine Our study therefore offers new ways to understand sexuality This book will be of interest to researchers in the field
