Fisher, 2017-08-14 While women are generally perceived to be less competitive than men women compete in many ways and in a variety of situations Women try to make themselves look more attractive to draw the attention of a desirable mate They will use gossip as a form of informational warfare to

influence reputations They compete as mothers to gain access to resources that directly influence the health of their children They use selfies posted on social media to manipulate others perceptions Women compete all of their lives in the womb through adolescence and adulthood and into their elder years The topic of women s competition has gained significant momentum over the years Edited by Maryanne L Fisher The Oxford Handbook of Women and Competition provides readers with direct evidence of this growth and is one of the first scholarly volumes to focus specifically on this topic Fisher and her team of contributors offer a definitive worldview of the current state of knowledge regarding competition among women today Many of the chapters are grounded within an evolutionary framework allowing for authors to investigate the adaptive nature of women s competitive behaviors motivations and cognition Other chapters rely on alternative frameworks with contributors also asserting that socio cultural forces are the culprit shaping women s competitive drives Additionally several contributors focus their attention on issues faced by adolescent girls and explore the developmental trajectories for young women through adulthood Designed to serve as a source of inspiration for future research and direction The Oxford Handbook of Women and Competition is a stand out scholarly text focusing on the many competitive forces driving women today

Sex Is as Sex Does Paisley Currah, 2022-05-31 Winner Sexuality and Politics Book Award American Political Science Association Finalist PROSE Award Government and Politics What the evolving fight for transgender rights reveals about government power regulations and the law Every government agency in the United States from Homeland Security to Departments of Motor Vehicles has the authority to make its own rules for sex classification Many transgender people find themselves in the bizarre situation of having different sex classifications on different documents Whether you can change your legal sex to F or M or more recently X depends on what state you live in what jurisdiction you were born in and what government agency you re dealing with In Sex Is as Sex Does noted transgender advocate and scholar Paisley Currah

explores this deeply flawed system showing why it fails transgender and non binary people Providing examples from different states government agencies and court cases Currah explains how transgender people struggle to navigate this confusing and contradictory web of legal rules definitions and classifications Unlike most gender scholars who are concerned with what the concepts of sex and gender really mean Currah is more interested in what the category of sex does for governments What does sex do on our driver s licenses in how we play sports in how we access health care or in the bathroom we use Why do prisons have very different rules than social service agencies Why is there such resistance to people changing their sex designation Or to dropping it from identity documents altogether In this thought provoking and original volume Sex Is as Sex Does reveals the hidden logics that have governed sex classification policies in the United States and shows what the regulation of transgender identity can tell us about society s approach to sex and gender writ large Ultimately Currah demonstrates that because the difficulties transgender people face are not just the result of transphobia but also stem from larger injustices an identity based transgender rights movement will not by itself be up to the task of resolving them
